Springhill 4 Ceylon 3

On Thursday night Springhill defeated Ceylon 4-3 in a fast, clean Semi-Pro hockey game. Ceylon was off to a good start when Archibald and Marshall clicked. Clark gave Springhill their first goal midway in the second period but immediately Teeter put Ceylon two up again when he grabbed a loose puck at the defence. In the third period Garnet Teeter scored for Springhill and near the end of the game Russell tied it up. Just as the overtime got under way Teeter scored again to put Springhill in the lead for the first time. Ceylon disputed this goal as they claimed it hit the goal post, but referee E. Johnson allowed the counter to Springhill which gave them their first win this season. Ceylon entered a protest and the game was played over again on Tuesday night.

Once upon a time there was a man whose enemies thought kindly of him —after he was dead. But, truth to tell, he is a pretty lucky man who can even be reasonably sure when he is alive that his friends think kindly of him more than part of the time.

Springhill 5, Ceylon 1

Springhill lost the protest put in by Ceylon on their lasts game, but won the replayed game last night 5-1 and qualified for the group finals, which will be played between Ceylon and Springhill with Priceville having a bye. Garent Teeter scored two goals for Springhill, Laurie Russell snared one goal and an assist and Roy Best one and one, with Leslie Seeley netting the odd one in a scramble. PLANT-FOOD CONTENTS IN FERTILIZERS

The Fertilizers Act requires definite guarantees by vendors of the plant food content of their fertilizers, that is, nitrogen, phosphoric acid and potash. In addition, these plant food substances must be in an available form for plant use. There are many kinds of fertilizers on the market today, all of which are dependable if used according to kind and plant food content on the one hand, and soil and crop requirements on the other. Every buyer of fertilizers should study these facts carefully because the proper application of them means so much in obtaining best results.

The recommendations of the Provincial Fertilizers Councils are a sate guide in this respect and may be obtained from the Department of Agriculture for the provinces.
