Expect Good Crops

We were pleased on Monday to receive a letter from our old friend, Mr. Addie Heron of Swift Current, Saskatchewan. Last year was the first time since 1913 that he failed to have a crop, although some of them were small ones. This spring prospects are bright for better crops, as there were heavy rains last fall and this spring with a plentiful supply of snow, and he lives in hope that brighter times for the West are ahead.

Another letter was recently received from T. Boyce, renewing for The Advance, in which he states the winter was very cold, the thermometer reaching 55 below zro. He reads with interest every issue of the Advance but notices many of those he knew have passed away. We are always glad to have a letter from our old friends and subscribers and to know that this paper assists them in keeping in touch with their old home communities.

NEW MARKERS IN JUNE

A report from Queen's Park last Thursday says that about 25 per cent of the 1939 car markers will be available by June. Motorists will be encouraged to buy them to replace the 1938 "invisible" plates. The new plates will be good until the end of next year.

The government has made this move following a spontaneous press protest from all over the province. The new markers will be of the highest possible legibility.

It promises to take about as long to put the Ontario government's bridge bill over at Ottawa as it will to put the bridge itself over the Niagara.

Council Is Building Fire Hall In Park

Flesherton village council decided at a recent meeting to erect a frame building to house the fire truck and equipment recently purchased from the town of Meaford. The building will also be used to store supplies and equipment of the local Hydro Electric Commission. The new fire hall is being erected on land in Memorial Park to the rear of F. G. Karstedt's store, which is unused for any purpose, and will be a substantial sized building. The position of the fire hall draws commendation from some and condemnation from others, while a great many have either not heard of the activities or don't care where it 's erected. Many thought the hall should be built on a main street, easy of access in winter time, where the snow would not lie so deep, while others remarked that the type of building that would be erected would not be a credit to the main street. We suppose as long as there is an efficient fire brigade organized and the equipment kept in shape it is of no account where the hall is erected. If it had been erected on a main street, property would have to be purchased and the frontage tax against that proprty would have to be assumed by the town, so perhaps the present position is as good as any. Work on levelling the ground was commenced last week and forms for a cement foundation have been erected.

Attended A Party

Miss Genevieve Milne celebrated her tenth birthday last week. One of guests was Miss Lois Wood, who has been bedfast since last August with paralysis. Lois has so far recovered as to be able to be moved, on her own bed, from room to room, and to use her hands for knitting, but is not yet allowed to stand upon her feet. She was thrilled with the pleasure of being out of the home and among the little people. Her physician, Dr. Milne, believing no injury would result, took her and her mother to Owen Sound to see "Snow White and the Seven Dwarfs." Arrangements had previously been made with the theatre management for her comfort. It was an afternoon never to be forgotten by Lois.

SPECIAL CONTAINERS FOR GAS

Many of our readers may be surprised to learn that they are causing their hardware dealers and garagemen to break the law in asking them to supply their customers with small quantities of gasoline in other than an approved metal type safety container. Section 39 of the Gasoline Handling Act provides that such containers must be used for handling quantities of gasoline under 5 gallons. These cans should bear a label printed in bold type and warning that the contents are dangerous and should not be exposed to fire or flame and should not be used for cleaning purposes in any building. These regulations should receive careful attention of those buying naptha gas especially.

The Ontario Insurance Act provides that if a fire results in any premises from gasoline kept in a glass container, the insurance policy shall be void.

CURRENT CROP REPORT

Bruce County reports egg receipts heavy with quality, so far, particularly good. Interest is being shown there in soiltesting. Increased prices for cattle in Grey County have made things brighter for farmers who are feeding cattle. Most farmers in Lincoln have plenty of hay and coarse grains on hand to feed the stock until pastures are ready and on the whole dairy cattle are in good flesh. Wheat looks very promising in Wentworth as fields have made good growth and are very green. In Northumberland County the demand for horses continues unabated. Upwards of 500 western horses have been sold by auction at Campbellford this winter at prices from $125 to $175 for fair quality horses. In Frontenac the prices of grade milch cows at local sales range from $50to $70, and the demand seems quite keen. In Grenville a surprising amount of seed has been cleaned out of last year's light crops.

After learning that seven of the prime ministers of our country have been lawyers, we now have a clear idea of what's wrong with it.

E. D. Hogg Dies

Edward Donald Hogg, former station agent at Priceville, died at the home of his sister, Mrs. Pattison, in Hamilton on Thursday of last week, at the age of 67 years. Mr. Hogg was a telegraph operator for the C.P.R. and held positions at Priceville, Brampton, Erin and also in the West. The funeral was held on Friday, April 22, to Shelburne cemetery. Rev. C. E. Dyer of Knox United Church officiated. He leaves to mourn three sisters, Mrs. John Berwick, Shelburne, Mrs. J. D. Madill of Foremost, Alta., and Mrs. Agnes Patterson of Hamilton. The late Mr. Hogg was well and favourably known throughout this district and for a number of years was a member of Prince Arthur Lodge No. 333, A.F. and A.M.

We wish the boys the best of success in their undertaking.

Pastor Ashton will preach in the morning and Mr. Christie in the evening. Mr. Christie will sing also both morning and evening. A cordial invitation is given to all to come and hear this gospel singer.

HEAVY TOLL OF BABY CHICKS AT HANOVER

Loss estimated at nearly $1,000, was occasioned to a chic hatchery at Hanover recently, when the hydro power failed during a windstorm. Power was off the greater part of the night. A break in the lines was responsible. More than 5,000 eggs on the verge of hatching were lost as well as many of the 1,300 baby chicks already chirping around the one incubator which was chiefly affected. Both eggs and chicks require a steady temperature. There were several thousand eggs in the three other larger incubators. As yet there is no definite way of determining whether these suffered or not, although officials expect the loss will be considerable also.

SLOT MACHINES GO

Flesherton's slot machines have disappeared from circulation, which disposes of a sore point suffered by many during the past couple of years. This has been brought about by the continual watch of the police authorities.

The trouble with the European situation is that just the time you have learned how to pronounce and spell the name of some statesman he is ousted from office.

Likes Toronto Team

Bill Urbanski, shortstop of Toronto Maple Leafs, whose professional baseball career stretching over the past ten years has been confined to two, the International and the National, was gossiping with a number of baseball writers in a Jersey City hotel recently when one of the scribes asked him what he thought of the Toronto Maple Leafs.

"I like 'em," replied Bill. I've seen a lot of ball clubs in my time and you can take it from me that Dan Howley has a good team this year, and I'm not saying that just because I'm on it. It is true we didn't win many ball games in the South during the spring training series, but never judge a team on what it does in those exhibition games. Even the Yankees were getting knocked off in the South this year. Howley was doing some experimenting with his young pitchers and we were more concerned about getting into condition than in winning games that don't count. Wait until the old bell rings on the International League opening. When the boys begin playing for keeps that's the time you get a real line on a team."

This is quite a long speech for Urbanski. The Perth Amboy resident takes his baseball seriously and he is noted for being one of the best hustling ball players in the game. He is the sparkplug of the Leafs and is showing the same form that made him such a stand-out in the International League when Boston bought him.

Toronto club officials are making big preparations for the opening with Jersey City on Thursday, May 5, and Maple Leaf Stadium may hold a larger crowd than the record one that turned out on Coronation Day last year to set an all-time attendance mark for that field.

Sees Profits Roll In

A story comes from the Niagara Peninsula by way of the Dunnville Chronicle. It deals with one of the many forms of gambling going on at present in Ontario. A stranger came into a cigar store and offered a punchboard for sale. It had two large prizes. Whoever punched one of the holes would get a grand prize of $25.00 and in another hole was hidden a $5.00 bill. The storekeeper bought the board for cash from the stranger and sat back to watch the profits roll in. For a while the board attracted a few of the local boys who were willing to take a chance, but the profits for the first two days were small.

Then two more strangers came in and saw the board. They took a few chances and then all of a sudden out popped the $5.00 bill. That wasn't too bad, but the other chap went to work and right away he pushed out the $25.00 and the two of them walked out and drove away. The storekeeper sat back and did some thinking, and although he could not prove anything he felt that these two men were probably close friends of the other stranger who sold him the board, and that not only the ones who took a chance were suckers, but that he knew somebody else who might be put under that classification.—Fergus News-Record.
