HOW TO TREAT A MAN

(by a horse)

When a man drops from sheer exhaustion or illness promptly seize an end-board or a carstake and pound him on the head and ribs. If this does not fully recuperate him, kick him, kick him violently in the stomash. This treatment will restore him if persistently adhered to.

If a man finds his load too heavy and feels that it will strain him to proceed, kick off a fence board and knock him down and then hammer him thoroughly. This will give him renewed energy and he will make no fuss. But do not, on any account, reduce his load.

If a man refuses to drink when you give him water, do not give him any water for two days. That will "teach him" to be thirsty at any time you find it convenient to attend to him.

It is a good plan to ply the whip frequently on a man who is at work. Hit him now and then on "general principles," and prevent him from taking any comfort. If his load is not heavy oblige him to go faster to make up for it.

Tie your man's head back in an unnatural position with his eyes toward the sun. This will give him a fine appearance and prevent stumbling. In winter remove his clothing to "prevent him from taking cold." He will dry more quickly when you overwork him. Men thus treated are much healthier than when allowed winter clothing.

More homes were built in Sweden in 1937 than in any recent year.

Moon Eclipse To Be Fifty Minutes

A total eclipse of the moon will be visible May 14th over North and South Americas, Australia and the Pacific Ocean.

The eclipse, first since July, 1935, will continue for fifty minutes beginning at 3.18 a.m., E.S.T., according to calculation at Perkins Observatory, Ohio Weselyan University.

$350 In Cash Taken

The first robbery in the Beaver Valley district in some time was discovered by cream truck drivers for the Beaver Valley Creamery, Clarksburg, when they came to work early Monday morning. Envelopes containing about $350 for the farmers of the community had been placed in a large refrigerator for the drivers to distribute. The door at the rear of the creamery had been broken in, and found on the inside had been used to remove the refrigerator door. Provincial Constables S. Cook and H. Noble are investigating.

R. M. ELLISON PASSES

Mrs. R. G. Holland received the sad news this Wednesday morning that her brother-in-law, Mr. R. M. Ellison, had passed away at his home in Toronto. He was in his 78th year. Mrs. Holland is leaving this afternoon for Toronto.

COURT ACTION OVER CATTLE DEAL

An interesting division court case was held at Walkerton last week by Judge Owens, respecting the sale of a number of shipping cattle by Robt. M. Aitken of Culross to Abraham Kerschenbaum of Breslau. The transaction took place on October 1st of 1937, and the cattle were to be lifted soon after. The price was seven cents per pound less $5 on the bunch. When the price began to drop, Kerschenbaum appeared to be in no hurry to take the cattle and Aitken sent him word ordering him to do so. Soon after, the dealer sent a truck from Toronto for the cattle, but, due to the fact that no prior notice of this was given Aitken, the latter was unable to deliver the cattle. The dealer said he would return later, and he did so, but when settling for the stock he retained $78.60 for the cost of the previous trip of the truck, and the difference in the market between the two last-mentioned visits. Aitken sued and obtained judgment for the amount, with costs.

WHEAT THE STANDBY

Canada ranks last as a supplier of wheat to Italy, partly owing to Canadian prices being highest and partly because imports from European countries were affected through clearings, that is, on credit. At the same time, Canadian wheat in 1937 showed its importance. Entry into Italy of Canada's products is impeded by prohibitive tariffs, exchange restrictions, and quota restrictions while Italian products entering Canada enjoy most favoured-nation treatment. Despite these conditions, the balance of trade is still in favour of Canada, mainly due to shipments of wheat, which in 1937 accounted for a little more than 50 per cent. of the imports from Canada and were valued at 31,708,000.

Work On Woollen Mill Progressing

Work on the new woollen mill is progressing very favorably although wet weather on Monday prevented the workmen continuing their job. The building will be a frame construction, single story, and will have considerably more floor space than the old mill with the machinery compactly arranged. The picker. in which the fire started that destroyed the old mill, will be housed in the cement section of the old mill which is in first class condition and will be partly fireproof. Repairs were made to the flume that will improve its efficiency. The old water wheel was undamaged and will again be used for power to drive the machinery. Mr. Nuhn expects to have the mill in operation by the end of June.

The lights of the tractor were not working and the machine was proceeding, guided by the light of the car ahead, when the front wheel dropped into the bog at the edge of the road. A wrecker from a Flesherton garage was called but could not do anything. Sunday another tractor was secured and along with the aid of cables, ropes and plenty of willing assistance, the tractor was released and proceeded to the Durham Road. A FINE CATCH

Every May 1st or thereabouts, the papers always manage to have a cartoon of a man with an empty creel, sneaking into a butcher shop to buy some fish so as not to arrive home empty-handed. Here's an incident to show that such things do happen. Some of the young lads in town were fishing out at "25" hill and had reeled in quite a nice catch of speckled trout, when a big, shink car drew up beside them and an imposing-looking man stepped out. In a flat two seconds the boys were minus the trout but richer in pocket and the man was on his way to Toronto, revelling in the magnificent results of his day's fishing.—Orangeville Banner.

Mr. And Mrs. Jas. Stuart Celebrate

GUESTS AND CAKE OF WEDDING IN 1888 AT GOLDEN WEDDING

Because their wedding anniversary falls on the anniversary date of the Hudson's Bay Company, Mr. and Mrs. J. H. Stuart chose the Bay's Georgian Room in which to entertain twenty-one guests Monday, May 2. in celebration of their golden wedding.

The celebrants were married in Paisley, Ontario, May 2, 1888, and came west four years later to Winnipeg, where they remained until 1906, when they moved to Traynor, Sask., to take up farming. It was only recently that they came out to the Pacific Coast to reside.

Attending today's anniversary are a daughter, Mrs. Lillian Campbell, and two sons, Mr. William E. Stuart of this city and Mr. Douglas J. Stuart of Biggar, Sask. A third son, Mr. Robert A Stuart, of Traynor was unable to be present.

Dr. M. Sparrow and Mr. Oscar parrow both of this city and cousins of Mr. and Mrs. Stuart, as small boys attended the wedding of the bride and groom of half a century ago, and were also present.

A portion of original wedding cake topped the three-tiered wedding cake 'entring the table at today's party.

During the evening friends and neighbours of Mr. and Mrs. Stuart will call to extend felicitations.—Vancouver, B.C., Sun of May 2.

Fire Hall Progress

The new village fire hall is steadily progressing to completion as the walls are almost finished. The village will use two thirds of the building and the local hydro system the remainder. Cost of the entire structure is set at $900.00 with the hydro assuming one third of this amount, making the charge against the ratepayers $1250. including $650. for the fire equipment purchased from Meaford. The room in the building in which the truck is to be stored is to be insulated, thereby taking less heat during the winter to keep the equipment ready for instant use. Heat will be supplied by electric heaters, which will be extra from the cost of the building.

ENGAGEMENT

Mr. and Mrs. Thos. Hincks, Toronto, announce the engagement of their daughter, Dorothy, to Mr. Francis McGlashan of Long Branch, the marriage to take place Saturday, May 14, at 3.30 o'clock in the Baptist church, Long Branch.

Mr. and Mrs. R. J. Lockhart, Singhampton. announce the engagement of their second daughter, Bonnie May, to Willard Gordon Blakey of Maxwell, the marriage to take place early in May.

INJURED HIS LEG

Mr. John McDonald had the misfortune to severely injure his leg while working at the new woollen mill. It was thought that a bone in his foot was broken, but fortunately the injury was only a bad sprain. He was able to get around in a day or so with the aid of a cane.

Europe is now suffering from "Hit and Muss driving."

Nowadays the ocean seems to be a large body of water surrounded by trouble.

PLANTED TREES

Flesherton public school grounds have been bare of trees for many years and in an effort to beautify them 2,500 small trees were secured from the government re-forestation plant near Barrie. Last Thursday the hills at the rear of the school were planted with cedar, pint, spruce and black walnut, and in a few years they should make a decided improvement in the background of our public school.

My Little Jersey Cow

The following poem, composed by Master Emerson Meads, 12 year old son of Mr. and Mrs. Wm. Meads of Priceville, was read over C.F.R.B. recently on a program sponsored by the Acme Farmers' Dairy of Toronto:

I have a little Jersey cow,
Her name is Betty Lou;
And when I gently call her
She answers me with "moo-oo."

I feed her well on clover hay,
With fresh water in her diet;
Each night she fills a foaming pail,
Each morning, too, she tries it.

She gives to me the best of milk
So pure, so fresh, so sweet;
And butter and cream for every meal
I'll say she can't be beat.

One day I told my Jersey cow
Of Acme Farmers' Dairy;
Of how they advertise their milk
As being cool and airy.

Wholesome, sweet, and pure
Quite fit for young and old;
And in a troubled voice my Betty Lou
This story to me told.

"I give to you my ittle friend,
Milk as pure as Acme Farmers'
If you but keep it sweet and cool
Why nothing then can harm it

Hemodginized Why 'twas from me
That Acme Farmer's got the notion
To spread the cream throughout the milk
As waves upon the ocean.

I've always mixed my milk and cream,
No other way can it be done;
The credit, then, goes to Jersey cows
And notto Midway 3541."

My little cow is sad today
She doesn't even moo;
The city kids can have bottled milk,
But I'll keep Betty Lou.

So, since I have no bottle tops
To help to choose the winners
I'll give to them pure Jersey milk
For breakfast, lunch and dinner.
