Cancer Races With Time

Notwithstanding what you may have thought to the contrary, cancer can be and is cured in many cases through proper treatment in the early stages of the disease.

Time is the deciding factor as to the results which may be hoped for through treatment. If the cancer can be removed or destroyed, the condition can be cured; the chances for doing this depend upon whether or not the disease is localized in one place.

The millions of cells which go to make up the human body all come from one original cell, the fertilized ovum or egg. For some reason, yet unknown, a single cell may start to grow independently, apparently no longer under the control which regulates the normal growth of body cells. This one cell multiplies to form a growth which, if it be malignant, is called a cancer.

The important fact is this, and the one which everyone should understand, is that cancer does begin in this way. It means that for a period of time every cancer is a local growth. Later cancer may spread to distant parts of the body, but in the first place, it is limited to one part.

This is of significance as regards treatment. A local growth can be removed by surgery or killed by radium or x-rays. It is because cancer is, for a time, a local growth that cancer can be cured by proper treatment.

There are no serums, diets, salves or secret remedies that cure cancer. It depends upon the kind of cancer and its location as to what is the best treatment. For treatment, we have surgery, radium and x-rays, either alone or in combination.

Time decides the outcome. The delay of even one day in securing proper treatment lessens the chance of a favourable result. The day comes when the curable cancer becomes incurable because of delay, neglect or ignorance.

Cancer is cured when the right treatment is used early enough. To experiment with self-prescribed or advertised remedies is to waste time when proper treatment can help. Time lost during the early stages can never be regained. It never pays to wait and see; it is always profitable to consult a competent physician in order that proper action may be taken at the proper time.

Live Stock Report

(By Dunn & Levack, Toronto)

Monday's cattle market held active and strong for choice heavy steers and butcher cattle, also cows, but butcher cattle of common to medium quality were slow and prices easier. A limited number of good to choice weighty steers sold for export at from 6.50 to 7.00; fair to good from 5.75 to 6.40. Choice butcher steers and heifers brought from 5.75 to 6.25, with a few fancy up to 6.50, fair to good from 5.25 to 5.75; common to medium 4.50 to 5.25. Choice baby beeves brought from 6.75 to 7.50, others at lower prices acording to quality. Stockers and feeders were in good demand at from 4.50 to 5.00. The cow market was active, choice young heifery cows from 5.00 to 5.50; choice fat cows from 4.75 to 5.00; fair to good 4.00 to 4.50; common to medium 3.00 to 3.75; canners and cutters 2.50 to 2.75. Choice light butcher bulls 4.50 to 4.75; choice heavy bulls from 4.25 to 4.50; bolognas mostly 4.00.

Lambs featured the market, advancing to a new high of 11c, which was obtained for some 400 feed lot lambs. Ontario shipments brought from 9.75 to 10.50, according to quality. Choice butcher sheep ranged from 4.75 to 5.50. The calf market was slow with choice veal calves selling at 8.25 to 8.50; fair to good from 7.50 to 8.00; common to medium 6.50 to 7.00.

The hog market showed weakness, as local buyers were bidding lower, due to lower reports from the United Kingdom. However, during the late trading of the day, outsiders were helpful in securing most of the truck deliveries at 10c. There is an uncertainty about the future markets during the latter part of the week as it will depend entirely upon the outside trade as to what will take place.

Game Warden: I'll have to fine you for fishing without a license.

Andy: I'm not fishing. I'm teaching my worms to swim.

Warden: Then I'll have to fine you for letting them swim without bathing suits.

Bright Crop Prospects

Soil moisture conditions in Eastern Canada are quite favourable for spring operations, and the winter has been kind to fall wheat, clover, pastures, fruit trees, bushes and shrubs.

The outlook for crops is much brighter than a year ago and the risk of crop-destroying weather in summer is much less in the east than in the west. The winter of 1936-37 was hard on winter wheat and clover in the east. There was little snow and much rain. Fields were covered with ice.

During the past winter there has been ample snow to protect the plants which must survive the winter. In addition, spring has opened up well with plenty of rain.

Given a reasonable break in the next few months Eastern farmers, gardeners and fruit-growers look forward to a brighter and more productive year in 1938.

We noticed three mothers at church on Sunday morning who, in the past, were regular attendants at church, but who are seldom seen there now owing to physical infirmities. We refer to Mrs. Catherine Wilcock, Mrs. W. McKee and Mrs. A. Gilchrist; we believe this is the first time the latter has been to church since her long illness. True she had to be carried but she was bright and cheerful showing her pleasure at being in her place of worship again.

Congoleum Rug Winners

Ted McTavish was the winner of the Congoleum rug offered at the F. H. W. Hickling store in a guessing contest. He guesed the correct number, 1733. Joe Radley was the winner at the store of Bennett & Richards, when he guessed 2499 with the correct number 2495. Mr. Thos. Taylor guessed 2,500. There was great interest shown in the guessing contest again this year.

A GOOD DETECTIVE

A detective in the city of Montreal has retired after twenty-five years service and he handed in his gun, which he has never fired during all those years. And it is probable that he may have been a good detective even if he was not quick on the draw. There was a case in Montreal recently where police officers fired and seriously injured a boy, against whom there was no charge, simply because he ran when they started to question him. Many of us may prefer the detective who never fired to any other kind.—Niagara Falls Review.

Think straight and you will go straight.

Common honesty is uncommon in politics.
