THE FRENCH ATLANTIC CABLE.

Additional particulars of the French cable enterprise are given by the London *Daily News*. The cable is some twelve hundred miles longer than either of its predecessors. It is divided into several sections, and has been manufactured at the rate of one hundred and fifty miles a week ever since the contract was accepted. At last accounts it was within a hundred miles of completion and was nearly all shipped on board the vessels appointed to carry it out. Thus the Great Eastern carries 2,753 miles, or about 400 more than when it left with the Anglo-American cable, its vast receptacles being made still vaster, and its main tank considerably enlarged. With this cargo the great ship will leave her present resting place in the Medway about the 10.h of June, and will proceed to Brest. One of the vessels of the expedition will in the meantime have laid the heavy shore end, and this will be buoyed out to sea at the distance named. The Great Eastern will, somewhere about the 20th of June, pick it up, and after splicing and testing, will set about her regular work of cable laying, under Sir Samuel Canning and his staff. She will be accompanied by the Scanderia, a fine vessel of 1800 tons and 370 feet long, and by the Chiltern, both ships being fitted up with grappling irons, buoys and picking-up machinery, which are identical in every respect with those on board the Great Eastern herself. Some eighteen days will be occupied by the Great Eastern in the voyage from Brest to St. Pierre; and immediately on the line being laid between these two places, the other cable-laying vessels will carry on the remainder of the work.

The coloured cooks in the White House have declined to do their offices on account of the appointment of a white steward.

It is estimated that something over 100,000 Americans have settled in Canada, while every year adds to the numbers of European emigrants who aid to swell our population.

The Carleton Place *Herald* says we are sorry to hear that the Rev. Robert Gabby, who has been for some time past out of his mind, and required to be taken care of by his friends, took advantage of their absence a few days ago and went into the bedroom, took down a gun, put it to his breast, and shot himself dead.

Warren Gardner, late master of the schooner Twilight, of Gloucester, Mass., convicted of scuttling his vessel, has been sentenced to four years' imprisonment.

A correspondent of the New York *Observer* says: "The King of Sweden is the most affable and approachable monarch in Europe. In his daily walks, or while going about in the public steamers that ply through the waters of the city, is omnibuses do in New York, he enters freely into conversation with the people. And to strangers, especially Americans, he is exceedingly kind, or, as his subjects would say, gracious."

A boat with nine men went over Rumford Falls, in Maine, on Tuesday, and three men were drowned. They had, with two others, who were rescued, jumped from the boat. The other four went over in the boat safely.

The graves of the Confederate dead at Richmond, Va., were decorated on Wednesday, with imposing ceremonies. Business was very generally suspended throughout the city.

Eau de Cologne.	

All the above are carefully prepared for Exportation, and retain their excellent qualities in any climate.

96 Strand; 128 Regent Street; 24 Cornhill, London. 17 Boulevard des Italiens, Paris.

DR. VICTOR BAUD'S ORGANIC MEDICINE.

DR V. BAUD, Graduate and Member of the Medical College of Paris, Chief Physician Extraordinary for Epidemics in Paris, late M.D. of the Civil Hospitals of Algiers, has just introduced in England his ORGANIC MEDICINES.

They consist of three preparations—

THE BAUDEINE,

An efficient and prompt Remedy for Cholera, Yellow Fever, Diarrhœa, Dysentery, and the excessive action of the Bowels. A gold medal was awarded by the French Government to Dr V. Baud for this valuable preparation.

Price: Small, 1s 1½d; Medium, 4s 5d; Large Size, 11s per Bottle.

THE DIASTATIZED IRON,

For strengthening the System.—Price 2s 9d per Bottle.

THE DIASTATIZED IODINE,

For purifying the Blood.—Price 2s 9d per Bottle.

*** The above Preparations are in the form of Sweetmeats, pleasant to the taste, and particularly adapted for Infants and Mothers nursing.

By the combination of the Iron or Iodine with Cress Seeds in a state of germination, they are united with organic life, which thus renders them digestible. The irritative and stubborn mineral has thus become the nucleus of an organic substance capable of being absorbed by the blood without injury to the stomach.

Agent for England and British Possessions, E G. DUFRESNE, 79 Watling Street.

May be obtained of all Chemists.

CHOLERA, DIARRHŒA, &c.

EARL RUSSELL sent to the College of Physicians a communication received by him from Manilla (where cholera had been raging fearfully) to the effect that, of all remedies tried, Chlorodyne was the most effective.

"The day seems as yet, unhappily, far distant when public opinion or State interference will prevent the advertisement or sale of any secret medicine whatsoever. It is to be hoped that the profession will continue to brand as unworthy the conduct of those of its members who by testimonial or otherwise aid the disposal of such things."—*Lancet.*

TOWLE'S CHLORODYNE.

The Original Preparation of known Composition.

From Dr C. Kidd, Author of Standard Works on Chloroform.

Sackville-street, Piccadilly, London.

Sir,—I think if you would advertise your Chlorodyne more than you do, you would help to beat the others, which are secret compounds, out of the market. Many medical men think with me, and recommend your compound, but will never prescribe a secret remedy. Charles Kidd, M.D.

To Mr Towle, Chemist, Manchester.

A Surgeon from New York writes:—"I only requires to be known to be appreciated. I have no hesitation in characterising it (viz., Towle's Chlorodyne) as the most useful medicine that has appeared during the present century. In diarrhœa, colic, ague, spasms, I have found it to relieve more pain and cause more joy than any other article that can be named."

Note.—The Profession is warned against inferior, secret, and cheap compounds now in the market. Each genuine bottle bears a facsimile of Proprietor's signature on the stamp outside.

LIQ. CHLOROFORMI Co. OR CHLORODYNE WITHOUT PEPPERMINT.

Sole Manufacturer:—A. P. Towle, Chemist, Manchester.

CAUTION.

THE gross frauds which continue to be practised by obscure manufacturers, more particularly in Germany, by imitating the labels attached to JOHN GOSNELL & Co.'s PERFUMERY, render it imperative upon the Proprietors to Caution the public against such nefarious proceedings, and to request their friends and patrons to purchase only of respectable dealers, who import direct from John Gosnell & Co.; and invite special attention to the address—

RED BULL WHARF, 93 Upper Thames Street.

John Gosnell & Co.'s Select Perfumes: Eau Bouquet, Royal Yacht Club Bouquet, Jockey Club Perfume, Essence of Wood Violet, Victoria Bouquet, Frangipanni, Military Bouquet, the Bride's Bouquet.

John Gosnell & Co's Prince of Wales' Perfume, a most choice and fashionable perfume.

John Gosnell & Co's Princess Alexandra's Perfume, a most choice and delicate perfume, prepared expressly for the use of Her Royal Highness.

John Gosnell & Co's Upper Ten Thousand Perfume.

John Gosnell & Co.'s Jockey Club Perfume is in universal request as the most admired Perfume for the Handkerchief. Price 2s 6d.

John Gosnell & Co.'s La Noblesse Perfume, a most delicate Perfume of exquisite fragrance.

John Gosnell & Co.'s Noblesse Pomade, elegantly perfumed, and highly recommended for beautifying and promoting the growth of the hair.

La Noblesse Soap—esteemed for its unequalled perfume and fine emollient qualities.

John Gosnell & Co.'s Violet and Millefleur Nursery Powder is guaranteed pure. No nursery should be without it. Sold in boxes at 3d; in tins 1s each.

John Gosnell & Co.'s Cherry Tooth Paste is greatly superior to any Tooth Powder, gives the Teeth a pearl-like whiteness, protects the enamel from decay, and imparts a pleasing fragrance to the breath. Price 1s 6d each.

Instantaneous Hair Dye: certain to produce any shade Brown or Black, of good natural colour. It cannot possibly injure the hair, has no disagreeable odour, and is easily applied.

John Gosnell & Co.'s Patent Trichosaron, or newly invented Hair Brush, the peculiar mechanical construction of which accompanies the two operations of cleansing and polishing simultaneously.

The Patent Mechanical Chair for Brushing Hair by Machinery. For Prospectus and particulars, apply to the Patentees and Sole Manufacturers, JOHN GOSNELL & Co., Perfumers by Appointment to Her Majesty, the Princess of Wales, &c., RED BULL WHARF, 93 Upper Thames Street, late of 12 Three King Court, Lombard Street.

"THE" SAUCE. Prepared by Alexander Southwood Stocker, from a recipe by his Cousin, the late Dr Southwood Smith, thirty-five years Physician to the London Fever Hospital; Father of Sanitary Reform; Medical Member of the first General Board of Health; Author of the first work on Fever in any age or country, the Philosophy of Health, &c.

Delicious with every known dish. Its habitual use increases the appetite and promotes digestion. It is much esteemed for its digestive properties.

As an assurance of its purity and salutary properties, it is only necessary to point out the name of the celebrated and philanthropic Physician from whose prescription it is compounded. The entire life of that distinguished man was spent in promoting the health of his fellow-creatures, and his death, in December, 1861, was mourned as a national loss.

Wholesale and for exportation by the Proprietor, 69, Lamb's Conduit Street; Barclay and Sons, Farringdon Street; Batty and Co., Finsbury Pavement.

Retail by Chemists, Grocers, Italian Warehousemen, and others, throughout the Kingdom, and every part of the world.

Ask for "The" Sauce.—Special Export Agents—Burgoyne, Burbridges, and Squire, 16, Colman Street, London.

LAMPLOUGH'S PYRETIC SALINE.—A Medicine that cures Sea Sickness or the worst form of Bilious Headache in a few minutes; effervescing and tasteless, its constant use is especially calculated to maintain health. When mixed with water and taken during the effervescence, it immediately blends with the food, and is rapidly absorbed into the system. It vitalizes and supplies the blood with those saline principles that are lost, altered, or destroyed during the hot weather. In Jungle, Scarlet, Yellow, Typhus, Eruptive Fevers (or Cholera), also in several other conditions, where the vital current is poisoned by infection, and thereby rendered unfit to support health and life, it has been found eminently beneficial; and its sustaining and purifying influence acts as a preventive to disease, as the numerous unsolicited testimonials accompanying each bottle will prove. Its portability renders it admirably adapted to the traveller, tourist, emigrant, or private family, more especially when distant from medical advice or assistance.

Sold in patent stoppered glass bottles, price 2s 6d, 4s 6d, 11s, and 21s each. Special agents required and appointed in all parts of the world.

SIR WILLIAM BURNETT'S DISINFECTING FLUID, for the purification of sick rooms, hospitals, workhouses, factories, prisons, crowded places, between decks of ships, fever wards, clothes and linen of sick, night-chairs, cesspools, drains, water closets, stables, dairies, larders, musty casks, tubs, &c.; bilge-water, and the holds of ships; apartments for searchers, undertakers, and jurymen, and for post-mortem examinations; for the prevention of infectious disease, canker and fungus in trees; for the disinfection of dead bodies, and for the preservation of subjects for dissection; for the extermination of bugs and other vermin.

Sir W. Burnett's Disinfecting Fluid was the only Disinfectant used at the Agricultural Hall during the Smithfield Club Cattle Show in 1866, by order of Her Majesty's Privy Council.

The value of the fluid is shown by the following letter from the Secretary and Manager:

"Agricultural Hall, Islington, Jan. 1868.

"Dear Sir,—Please to send eight gallons more of your Disinfecting Fluid, as per order enclosed. Having used various Disinfecting Fluids at our many shows, I can say with confidence that none have had the instantaneous and complete effect of Sir William Burnett's, and this too without producing any nuisance like the smell of chloride of lime or carbolic acid.—I am yours faithfully, "S. Sidney, Sec. and Manager.

"Capt. Jackson, R.N., 90, Cannon street."

This fluid acts on the essential cause of disease by destroying the local conditions of the atmosphere under which cholera is most frequently developed and propagated. For instance: "In a house in St. Andrew's street, Plymouth, occupied by fifty-two persons, it was sprinkled in every room except four; in these the occupants would not permit it to be applied; the result of which was, that in those parts of the house where it had been used, not a single case of cholera subsequently occurred; while in the four rooms above alluded to, the disease still exists and some deaths have taken place. Two houses immediately opposite were supplied with a quantity, in neither of which has there been a single case, although the disease is raging in the neighbourhood."

Sold by all Chemists, and at 90, Canon street, London. Quarts, 16s; pints, 8s; half-pints, 4s; glass-stoppered Imperial pints, extra strength, 16s per dozen; and in bulk at 4s per gallon: bottles included. Each gallon making 200 gallons, when diluted with water. See directions on every bottle.

Recommended and used by Professor Simonds at the Royal Veterinary College, during the last twenty years.

N.B.—This fluid is a certain cure for grease in horses, also the scab and rot in sheep.

THE ORIGINAL CHLORODYNE, invented by R. Freeman, Pharmaceutist, is allowed to be one of the greatest discoveries of the present century. It is largely employed by the most eminent Physicians and Surgeons in hospital and private practice in all parts of the world. It has effects peculiar to itself, and which are essentially different to those produced by the various compounds bearing the name of Chlorodyne, but have no pretence to possessing its virtues. It rapidly relieves pain, from whatever cause, allays the irritation of fever, soothes the system under exhausting diseases, and gives sleep without producing any one of the unpleasant feelings so commonly arising from the use of opiates. It continues to hold its unshaken position in the estimation of the Profession as the best, most reliable, and cheapest preparation. Eminent and scientific Physicians made affidavits that they have tested its effects in careful comparison with those of "DR. COLLIS BROWNE'S CHLORODYNE;" and deposed to the facts that they found it a more certain and reliable preparation, and greatly preferred "FREEMANS."

Earl Russell communicated to the Royal College of Physicians and to Mr Freeman, that in Manilla the only remedy of any use in Cholera was Chlorodine.

The Medical Times and Gazette, January 13th, 1866, states, "It has an immense sale amongst the public, and is prescribed by scores of Orthodox Medical Practitioners, and, of course, it would not be thus singularly popular did it not supply a want and fill a place."

Manufactured by the Inventor, Richard Freeman, 70, Kennington Park Road, London, S.

The genuine has engraved on the Government Stamp (outside each Bottle), "FREEMAN'S ORIGINAL CHLORODYNE."

CONDY'S PATENT FLUID or natural disinfectant purifies, deodorises, and disinfects, by the agency of nascent or ozonic oxygen,—its active principle. Being entirely innoxious, this truly scientific preparation is peculiarly adapted for the following useful purposes, for which all other disinfectants, on account of their poisonous or other objectionable qualities, are unavailable and useless:—

Detecting organic impurities in air and water.

Purifying drinking and other water from organic matter, lead, &c.

Freshening the air of close places, and removing bad smells.

Freeing meat, fish, butter, or other provisions from taint.

Counteracting the effects of organic poisons taken into the stomach.

Curing Musty provender. Freeing wheat and other seed from smut.

Maintaining the health of plants in pots and conservatories.

Preserving and restoring the freshness of cut flowers kept in water.

Destroying the blight of the potatoe, vine, hop, mulberry tree, &c.

Washing dogs and other domestic animals.

Cleansing bottles, beer barrels, pickling tubs, dairy utensils.

Washing the hair and darkening its colour when turning grey.

Enhancing the purifying and invigorating effects of baths and tubs.

Dressing poisoned wounds and destroying animal virus.

Treating the infectious diseases of cattle, horses, dogs, &c.

One gallon makes 200 to 300 gallons adapted for use.

N.B.—Condy's Fluid is the Standard Scientific Test for Organic Matter in Water, and affords the only known means of rapidly and completely freeing Drinking Water from Organic Taint, which is so common a cause of serious disease.

To rapidly purify the air, use the diluted fluid with "Condy's Ozoniser" or other Spray-producer.

CONDY'S PATENT OZONISED WATER,

(FOR TOILET PURPOSES,)

Removes from the mouth impure and foreign tastes and odours, whether arising from tobacco or other causes, and counteracts the irritation and morbid secretions of carious teeth. It purifies and softens the skin, and, used in the bath, tends to promote a healthy state of the whole body.

H. BOLLMAN CONDY, Patentee, Battersea, London.

JUDSON'S SIMPLE DYES FOR THE PEOPLE. Any one can use them; anything can be dyed with them. It is impossible in this small space to enumerate the many uses to which these wonderful and beautiful chemical preparations can be applied; while their chief use is for dyeing textile fabrics, they are also invaluable as a colouring agent for almost every known material, the ease with which they can be used and the brilliancy of the result being, indeed, almost magical. By their use almost any article of clothing can be dyed in a few minutes for a few pence without soiling the hands.

MEMORANDA.

MAGENTA: The strength and beauty of this dye is almost incredible. A Sixpenny bottle will dye 20 yards of Bonnet Ribbon in 10 minutes; it will also produce a clear Rose Pink by using less dye. Suitable also for Woollen Goods, Feathers, Silks, &c.

WOOLLENS: Magenta, Mauve, Violet, Purple, Orange, Pink, and Crimson produce the most satisfactory results. Use a large quantity of boiling water in an earthen pan. RIBBONS and SILKS: Brush them with soap and water to avoid creases, and to render them clean. Dye in boiling water.

FEATHERS: Dye in hot water (a few drops of the dye is sufficient for one feather).

COTTON: Mauve, Violet and Purple are recommended.

LEATHER: Blue, Magenta, Violet and Orange. Dye in warm water.

WHITEWASH: To color: *Magenta*, for Pink or Rose; add half a bottle to a pail of water, then stir in the Whitening as usual. Mauve, Violet, Purple, Blue and crimson produce pretty tints by using one bottle or more, as directed above.

STARCH: Stir in a few drops of Colour—Magenta, Mauve, Violet, Blue or Pink; these impart delicate tints to Lace, Linen, &c.

WILLOW SHAVINGS, Wicker, Ivory, Bone, Hair, Fibres, Seaweed, &c., attract the dye quickly, if applied in boiling water.

BLUE: For laundry purposes is A 1.

BOOK EDGES: A Sixpenny bottle of Magenta, Violet, Crimson or Blue will make from a pint to a quart of beautiful colouring, according to shade required Apply with a brush.

PAPER and WOOD STAIN: Ditto.

OAK STAIN: A bottle of No. 2 Black to half a-pint of hot water.

SATINWOOD STAIN: A Sixpenny bottle Canary dissolved in a pint of boiling water

PHOTOGRAPHS may be tinted; dilute the dye with water; a bottle of Magenta to a pint of water. &c.

ILLUMINATING: Magenta, Violet, Blue, Orange; pour a few drops into an egg cup add warm water; use with a brush or pen Borders of books, similar to Ward and Lock's Arabian Nights, &c., may be prettily illuminated in this manner.

BLANCMANGE, JELLY, CORN FLOUR ICE CREAMS, &c: While in a liquid state add one or two drops of Magenta. A more simple or elegant tinting cannot be had.

CONFECTIONERS will find Magenta, Violet, Orange and Pink useful colours.

GELATINES and GLUES are successfully coloured with these dyes.

INK: A Sixpenny bottle of Magenta to a pint or more of cold water

WATER: One drop of dye will tint a quart.

PRINTING on Cotton, Silk or Wool in the ordinary way.

BLENDING some of the dyes in the bath will produce an infinity of shade, according to taste.

LEA AND PERRINS' Worcestershire Sauce. This delicious Condiment, pronounced by connoisseurs "The only good sauce," is prepared solely by Lea and Perrins. The Public are respectly cautioned against worthless imitations, and should see that Lea and Perrins' Names are on Wrapper, Label, Bottle, and Stopper. Ask for Lea and Perrins' Sauce. Sold Wholesale and for Export, by the Proprietors, Worcester; Messrs. Crosse and Blackwell; Messrs. Barclay and Sons, London; &c.-&c.; and by Grocers and Oilmen universally

BRITISH PERIODICALS.

THE LONDON QUARTERLY (Conservative
THE EDINBURGH REVIEW (Whig).
THE WESTMINSTER REVIEW (Radical).
THE NORTH BRITISH REVIEW (Free ch'h).
AND
BLACKWOOD'S EDINBURGH MAGAZINE (Tory.)

THESE foreign periodicals are regularly republished by us in the same style as heretofore. Those who know them and who have long subscribed to them, need no reminder; those whom the civil war of the last few years had deprived of their once welcome supply of the best periodical literature, will be glad to have them again within their reach; and those who may never yet have met with them, will assuredly be well pleased to receive accredited reports of the progress of European science and literature.

TERMS FOR 1869.

For any one of the four Reviews	$4.00
For any two of the four Reviews	7.00
For any three of the four Reviews	10.00
For all four of the Reviews	12.00
For Blackwood's Magazine	4.00
For Blackwood and one Review	7.00
For Blackwood and two Reviews	10.00
For Blackwood and three Reviews	13.00
For Blackwood and four Reviews	15.00

POSTAGE.

When sent by mail, the Postage to any part of the United States will be but Twenty-four Cents a year for "Blackwood," and but Eight Cents a year for each of the Reviews.

Subscribers may obtain back numbers at the following reduced rates, viz:

The *North British* from January, 1863, to December, 1866, inclusive; the *Edinburgh* and the *Westminster* from April, 1864, to December, 1866, inclusive, and the *London Quarterly* for 1865 and 1866, at the rate of $1.50 a year for each or any Review; also Blackwood for 1866, for $2.50.

THE LEONARD SCOTT Publishing Co., 38 Walker-street, N.Y.

The L. S. Pub. Co. also publish

The Farmer's Guide

By Henry Stephens of Edinburgh and the late J. P. Norton, of Yale College. 2 vols. Royal Octavo, 1600 pages and numerous Engravings.

PRICE—$7, for the two volumes. By the post paid, $8.

DR. DE JONGH'S LIGHT-BROWN COD LIVER OIL.

DR. DE JONGH'S Oil is convincingly proved by an overwhelming weight of medical testimony, and by the practical test of successful experience for twenty years in all parts of the world, to be, beyond all question, the purest, the most efficacious, the most palatable, and, from its rapid curative effects, the most economical of all kinds.

Hence the universal celebrity of Dr. de Jongh's Oil, and the unparalleled demand for this unrivalled preparation.

SELECT MEDICAL OPINIONS.

SIR HENRY MARSH, BART., M.D., Physician in Ordinary to the Queen in Ireland.

"I have frequently prescribed Dr. de Jongh's Light-Brown Cod Liver Oil. I consider it to be a very pure oil, not likely to create disgust, and a therapeutic agent of great value."

DR. EDWARD SMITH, F.R.S., Medical Officer to the Poor Law Board of Great Britain.

"We think it a great advantage that there is one kind of Cod Liver Oil which is universally admitted to be genuine—the Light-Brown Oil supplied by Dr. de Jongh. It has long been our practice, when prescribing the oil, to recommend this kind, since, amidst a much variety and uncertainty, we have confidence in its genuineness."—(Extract from "Consumption: its Early and Remediable Stages.")

DR. LANKESTER, F.R.S., Coroner for Central Middlesex.

"I consider that the purity of this oil is secured in its preparation, by the personal attention of so good a chemist and intelligent a physician as Dr. de Jongh, who has also written the best medical treatise on the oil with which I am acquainted. Hence, I deem the Cod Liver Oil sold under his guarantee to be preferable to any other kind as regards genuineness and medical efficacy."

DR. LETHEBY, Medical Officer of Health, and Chief Analyst to the City of London.

"In all cases I have found Dr. de Jongh's Light-Brown Cod Liver Oil possessing the same set of properties, among which the presence of cholaic compounds, and of iodine in a state of organic combination, are the most remarkable. It is, I believe, universally acknowledged that this oil has great therapeutic power; and from my investigations, I have no doubt of its being a pure and unadulterated article."

DR. BARLOW, F.R.S., Senior Physician to Guy's Hospital.

"I have frequently recommended persons consulting me to make use of Dr. de Jongh's Cod Liver Oil. I have been well satisfied with its effects, and believe it to be a very pure oil, well fitted for those cases in which the use of that substance is indicated."

DR. GRANVILLE, F.R.S., Author of the "Spas of Germany."

"Dr. Granville has found that Dr. de Jongh's Light-Brown Cod Liver Oil produces the desired effect in a shorter time than other kinds, and that it does not cause the nausea and indigestion too often consequent on the administration of the pale oil."

EDWIN CANTON, ESQ., F.R.C.S., Surgeon to Charing-cross Hospital.

"For several years past I have been in the habit of prescribing Dr. de Jongh's Light-Brown Cod Liver Oil, and find it to be much more efficacious than other varieties of the same medicine which I have also employed with a view to test their relative superiority."

TIDMAN'S SEA SALT, for producing a real Sea Bath in your own Room. The above favourite preparation is strongly recommended.

Sole Proprietors—TIDMAN & SON, Chemists, 16 Wormwood Street, London, E.C.
