Diarrhœa, Dysentery and all other forms of Bowel Complaints so prevalent at this season of the year have a sure and never failing cure in Perry Davis' Pain-Killer, which should be used at the commencement of the disease.

The Hamilton *Spectator* says: "Persons doing the St. Lawrence especially in Montreal and Quebec are very liable to be attacked with "Montreal Cholera," for which we have found Perry Davis' Pain-killer a sure cure; speaking from our own experience a Bottle of Pain-Killer is the best Physician a Traveller can have."

Sold by all Druggists and Country Shopkeepers at 15, 25 and 50 cents per bottle.

The Great English Remedy!

SIR JAMES CLARKE'S CELEBRATED FEMALE PILLS,

Prepared from prescription of Sir J. Clarke, M.D., Physician Extraordinary to the Queen.

THIS well-known remedy is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and though a powerful remedy, it contains nothing hurtful to the constitution.

To MARRIED LADIES it is peculiarly suited; it will, in a short time, bring on the monthly period with regularity.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the 2nd page of pamphlet are well observed.

For full particulars, get a pamphlet, free, of the agent.

SPECIAL NOTICE.

Sir James Clarke's Female Pills are extensively counterfeited. The genuine have the name of "JOB MOSES" on each package. All others are worthless.

N.B.—One dollar and 12½ cents for postage, enclosed to NORTHROP & LYMAN, Newcastle, Ont., General Agents for Canada, will insure a bottle of the *genuine*, containing Fifty Pills, by return mail. Sold by all Druggists in Kingston, and medicine dealers everywhere.

Owners of Horses Rejoicing.

And why not? and who knows but that their horses are rejoicing as well; who can prove the contrary? But their owners rejoice because of the astonishing and almost miraculous effects on their horses of "Darley's Condition Powders and Arabian Heave Remedy." Some were lean and poor having no appetite; others would devour their food ravenously, yet derive no benefit from it; some were hide-bound, with rough and shaggy hair; others had severe colds and coughs; many had the heaves and other complaints peculiar to horses; on all it operated as a charm, the disease or complaint was speedily removed, the appetite and digestive organs corrected, the skin softened, and a sleek and shining appearance given to the coat, all without any danger to, or preventing the horse being used. Remember the name, and see that the signature of Hurd & Co. is on each package. Northrop & Lyman, Newcastle, Ont., proprietors for Canada. Sold by all medicine dealers.

CONCENTRATION the great principle. The system of infinitesimal doses of medicine diffused in gallons of injurious stimulants exploded. All useless material discarded. The active principle only of the most powerful and efficient remedies known concentrated in a small convenient form. HABITUAL CONSTIPATION CURED. All diseases of the Stomach, Liver, and Bowels permanently relieved by using Dr Colby's ANTI-COSTIVE AND TONIC PILLS, Sugar-Coated. Recommended by the Medical Profession.

SUCCESS begets envy. Hence the efforts of certain vendors of Liniment to decry JACOBS' RHEUMATIC LIQUID. Wherever introduced, it drives all others from the market. Pain positively annihilated by its use. We have not room to enumerate the virtues accorded to it by the thousands who have used it. No medicine ever invented is capable of more extended application. It has hundreds of imitators, but not one RIVAL. *Beware of Counterfeits.*

GLAD TIDINGS FOR ALL.—Those who have no hair may have it. Those who have plenty, may preserve and beautify it. Those who are losing it may have its loss arrested. The hair strengthened, beautified, restored, by using HUNT'S EMPIRE HAIR GLOSS, *cheapest, cleanest, best.* Don't rest till you have tried a bottle. Sold by all Druggists.

ADDRESS,

TO THE

NERVOUS AND DEBILITATED,

WHOSE

SUFFERINGS HAVE BEEN PROTRACTED FROM HIDDEN CAUSES,

AND WHOSE CASES

REQUIRE PROMPT TREATMENT TO RENDER EXISTENCE DESIRABLE.

IF you are suffering or have suffered from Involuntary Discharges, what effect does it produce upon your general health?

Do you feel weak, debilitated, easily tired?

Does a little extra exertion produce palpitation of the heart?

Does your liver, or your urinary organs, or your kidneys, frequently get out of order?

Is your urine sometimes thick, milky or flocky, or is it ropy on settling?

Or does a thick scum rise to the top?

Or is a sediment at the bottom after it has stood awhile?

Do you have spells of short breathing or dyspepsia?

Are your bowels constipated?

Do you have spells of fainting, or rushes of blood to the head?

Is your memory impaired?

Is your mind constantly dwelling upon this subject?

Do you feel dull, listless, moping, tired of company, of life?

Do you wish to be left alone, to get away from everybody?

Does any little thing make you start or jump?

Is your sleep broken or restless?

Is the lustre of your eye unbrilliant?

The bloom on your cheek as bright?

Do you enjoy yourself in society as well?

Do you pursue your business with the same energy?

Do you feel as much confidence in yourself?

Are your spirits dull and flagging—given to fits of melancholy? If so, do not lay it to your liver or dyspepsia.

Have you restless nights? Your back weak, your knees weak, and have but little appetite, and you attribute this to dyspepsia or liver complaint?

NOW, READER,

Self-Abuse, Venereal and Sexual Diseases Badly Cured, and Excesses,

are all capable of producing a weakness of the generative organs. The organs of generation, when in perfect health, make the man. Did you ever think that these bold, defiant, energetic, persevering, successful business men, are always those whose generative organs are in perfect health? You never hear such men complain of being melancholy, of nervousness, of palpitation of the heart. They are never afraid they cannot succeed in business; they don't become sad and discouraged; they are always polite and pleasant in the company of ladies, and look you and them right in the face—none of your downcast looks, or any other meanness about them. I do not mean those who keep the organs inflamed by running to excess. These will not only ruin their constitutions, but also those they do business with or for. How many men, from badly cured Venereal diseases, from the effect of Self-Abuse and excesses, have brought about that state of weakness in those organs that has reduced the general system so much as to induce almost every other disease—idiocy, lunacy, paralysis, spinal affection, suicide, and almost every other form of disease which humanity is heir to, and the real cause of the trouble scarcely ever suspected, and have doctored all but the right one.

Diseases of these organs require the use of a Diuretic.

HELMBOLD'S

FLUID EXTRACT BUCHU

DISEASES OF THE BLADDER,

Whether existing in male or female, from whatever cause originating, and no matter of how long standing.

☞ If no treatment is submitted to, CONSUMPTION or INSANITY may ensue. Our flesh and blood are supported from these sources, and the health and happiness, and that of Posterity, depend upon the prompt use of a reliable remedy.

N. Y. S. VOL. INSTITUTE,
Corner of Fifth Avenue and 76th Street,
Central Park.
(A Home and School for the Sons of Deceased Soldiers.)

DR. H. T. HELMBOLD,

Two bottles only of the package of your valuable Buchu presented to the Institute have been used by the children, and with perfect success. In the case of our little Lieutenant A. J., his pride is no longer mortified, and he is free from the daily morning anathemas of the chambermaid who has charge of his bedding. I feel that a knowledge of the result of our use of your Buchu with the children under our charge may save many a Superintendent and Matron of Boarding Schools and Asylums a great amount of annoyance, and many a poor child suffering more from *weakness* than from habit, may be spared punishment, that is (not knowing it as a weakness instead of a bad habit) most unjustly inflicted upon them. Thanking you onj behalf of the children, and hoping others may be alike benefitted,

I am, respectfully yours,
COL. YOUNG,
General Sup't and Director.

GREAT SALT LAKE CITY, UTAH,
Jan. 28, 1868.

Mr H. T. HELMBOLD,

Dear Sir—Your communication requesting our terms for advertising was duly received, but from a prejudice I had formed against advertising "cures for secret diseases," it was left unanswered. During an accidental conversation in a drug store the other evening, my mind was changed on the character of your Buchu. It was then highly commended for other diseases by two physicians present. Inclosed please find our rates of advertising

THE KETCHUM CASE.

A singular case has happened in New York Edward B. Ketchum, a young man who was convicted of forgery some years ago, and whose case excited a great deal of interest at the time, was brought up on a writ of *habeas corpus*, which had been sued out by a lawyer acting on behalf of his father. It was contended that he had been improperly convicted, and that he should be discharged from further imprisonment in the State Prison under his sentence. After a good deal of argument, and when the judge was about to give his decision upon the legal points raised, Mr Phelps, who appeared on behalf of the prisoner, entered a protest against the proceedings, and asked that his client be remanded to serve out his sentence. He said the prisoner acknowledged the justice of his sentence, and did not desire to avail himself of any technicality to obtain his liberty. The writ was accordingly discharged, and the prisoner sent back to Sing Sing. This manly and self-denying act on the part of Ketchum fills the New York press with admiration, and at the same time creates a great deal of sympathy for the young man, who says he committed the crime of which he is guilty at a time when he was sorely pressed by financial difficulties arising out of gigantic and unfortunate speculations, and when in consequence of this pressure he was hardly in possession of his right mind and reason. His refusal to avail himself of a defect in the law to escape a full measure of punishment shows that he sincerely repents his crime, and is determined, when again liberated, to avoid the course of life which led to it. The feeling that has been created in his favour will probably culminate in a strong effort to induce Governor Hoffman to remit the balance of his sentence, and pardon him. At one time Ketchum, who is still a young man under thirty years of age, was worth $2,000,000, but he lost it all by speculations in Wall street.

ANOTHER ROBINSON CRUSOE.

In the month of August, 1863, the French ship Adelina Eliza quitted Bordeaux for Hong Kong. A month afterward she was spoken off the Cape of Good Hope. She was never heard of again until a few days since her history and the history of half her crew became public. A typhoon in the Indian ocean threw her out of her course, dismasted her, broke her rudder, and tossed her toward Oceanica. Bad weather lasted thirty days, and when fair fair weather returned she struck upon a coral reef, and the exhausted crew were scarcely able to take refuge in the boats. It was a moonless, starless night when this accident occurred. They rowed wildly, and thanked God when the breaking day showed them a harbour surrounded by a charming landscape. They reached land and lay down to sleep. When they awoke they found themselves bound hand and foot, and surrounded by savages. Their captors proved to be cannibals. Eleven of them, captain included, were slain and eaten. Three others contrived (how does not appear) to make their escape, but they were mutilated. The one who succeeded in reaching Europe has one arm cut off and one eye torn out. The three reached a remote part of the island, where they found a canoe and embarked in it, preferring the risk of being devoured by sharks to the certainty of being killed and eaten by cannibals. Fortunately they found themselves in an archipelago, and were able to go easily from one island to another. After wandering for some time, moving as rapidly as possible away from the cannibals' home, George Samazon's two companions died of exhaustion. He remained alone, mutilated, hopeless, on a frail canoe. He, nevertheless, continued to push on, touching land only when necessary to sleep and to get water and food. He ate shell fish and roots. One day he reached the last island of the group, and nothing lay before him but the wild ocean. He set to work to build a raft. It took him a year. He launched it. The waves threw it back on the island. He several times tried to put to sea, but constantly failed. He resolved to turn his footsteps landward, but in a different direction from the cannibals' home. He climbed a mountain, crossed a desert, fell into savages' hands, once more escaped from them, flew through forests; his feet were bitten by venomous insects; his face scabbed by the bite of mosquitoes; at last, nearer dead than alive, he came upon white men. He had been walking three years, and had crossed South America on foot! The white men received him kindly, and did what they could for him. He embarked upon a Portuguese ship and at last reached Europe. His family had long given him up for dead.

At the Illinois Female Suffrage Convention last week, Mrs Livermore said that any man who proposed marriage to Anna Dickinson would "get confoundedly snubbed." Now how would Mrs Livermore like any one to interfere with her flirtations in that way if she wasn't married?

An advertisement seriously announces a new song, with the modest request, "Oh give me back but yesterday!" A companion to the above, "Oh could you spare to-morrow?" is in preparation—to be afterwards followed by the sequel lyric of "You haven't got such a thing as next week about you, have you?"

The Stockton, California, *Gazette* dolorously asks: "Are we to be triturated to death beneath the mortar-pestle of feminine declamation and masculine rhodomontade? It seems so. Train is here—Anna Dickinson is on her way; Mrs Major Doctor Mary Walker is announced to come! Can we endure more and live? Let anathemas be hurled at the projectors of the continental railroad. Without that fiendish invention we might have been spared these afflictions."

The New York *Herald* notes the fact that American colleges are giving more attention than formerly to the living languages, English, German, French, Italian, and Spanish, and thinks this is an improvement, though Hebrew and Greek should thereby become somewhat neglected. "No future minister from the United States to the court of the Tuileries," it says, "need be exposed to the inconvenience and mortification endured by the late Hon. John Y. Mason, who, notwithstanding all the Greek and Latin which he had learned at the University of North Carolina, found himself one evening at the palace of the Tuileries in a sad plight on account of his utter ignorance of French. He had a bad cold and happened to have no pocket-handkerchief; but he neither knew how to ask for one nor for his way out. Like Sterne's starling in the Bastile, he wanted to get out; but after vain pantomimic appeals to wandering ushers he was relieved by the boarding-school French of a young lady who kindly came to his aid, lent him her lace handkerchief and showed him the way to the door. Mr Mason was not the only American minister abroad who might well have studied Ollendorf or Fasquelle instead of Anthon and Bullion."

There was a funny case in court in New York one day last week—not so much in the case itself as in the character of the evidence offered. A woman had some teeth filled by a dentist and the latter brought suit against the woman's husband for his pay. On the trial he swore that he had filled thirteen teeth and that the work was worth five dollars a tooth. The defendant admitted his indebtedness for the work performed, but said that only seven teeth had been filled, and as proof of his statement he offered the mouth of the woman for the judge to examine. Amid very much laughter his honour declined to make the examination, but he called a couple of dentists as experts, who found the defendant's statement correct. The evidence was direct and conclusive, and plaintiff lost the case.
