HOME WATCH CO.

PENNSYLVANIA RAILROAD CO.

Office of the General Superintendent, Altoona, Pa. 13th Dec. 1866.

GENTLEMEN—The watches manufactured by you are found in use on this Road to a great extent, and we consider them a part of our equipment. There are some THREE HUNDRED OF THEM CARRIED ON OUR LINE, and we consider them GOOD and RELIABLE TIME-KEEPERS. Indeed I have great satisfaction in saying YOUR WATCHES GIVE US LESS TROUBLE and have worn and do wear much longer without repair than any watches we have ever had in use on this road. As you are aware we formerly trusted to those of English manufacture, of acknowledged good reputation, but as a class they never kept time as correctly, nor have they done as good service as yours.

To these statements I am sustained by my predecessor, Mr. Lewis, whose experience extended over a series of years.

Respectfully,
EDWARD H. WILLIAMS,
General Superintendent.

NEW YORK CENTRAL RAILROAD

Locomotive Dept. Western Division, Rochester, Dec. 24, 1866.

GENTLEMEN—I have no hesitation in saying that I believe the great majority of locomotive engineers have found by experience that WALTHAM WATCHES ARE THE MOST SATISFACTORY of any for their uses. They RUN WITH THE GREATEST ACCURACY AND STEADINESS, notwithstanding the roughrides of an engine, and as I have NEVER KNOWN ONE TO WEAR OUT, they must be durable. I hope to see the time when railway companies will generally adopt your watches, and furnish them to all engineers and conductors. In my opinion it would greatly tend to promote regularity and safety.

Yours respectfully,
CHARLES WILSON,
G. Chief Engineer,
Brotherhood of Locomotive Engineers.

BRITISH AMERICAN
Commercial College.

NECESSITY FOR A THOROUGH MERCANTILE EDUCATION.

PRIZE PENMANSHIP.

SUPERIOR ADVANTAGES OFFERED.

THE IMPORTANCE OF A THOROUGH BUSINESS EDUCATION is pressing itself on the attention of commercial circles more and more every day, and its advantages are perhaps more emphatically shown by nothing more than by the vantage ground on which it places the fully trained clerk above the imperfectly trained one when for a situation.

THE BRITISH AMERICAN COMMERCIAL COLLEGE has in full operations such a course of instruction as to give it practical fitness to do the work proposed.

An important characteristic of this Institution is its maturely organized ACTUAL BUSINESS SYSTEM, whereby the College is made a type or model not only of an extensive business house, but even of a large trading community.

Another distinctive feature of this College is that it attempts no extraneous teaching. Its work is ONE, and to the accomplishment of that work every effort is directed. Just as the University and Grammer School must be separate Institutions, so the Commercial College and the Elementary School must be distinct. Common sense and experience alike show that such a combination is not compatible with efficiency.

The time required to complete the full course varies considerably, according to the attendance, and ability of each student. Young men, however, are earnestly cautioned against the injurious practice of hurrying through the course from the mistaken idea that they will thus be gainers by the saving of money in the item of board. Infinitely more advantageous would it be to the student, since his full course of tuition is already paid for, to incur the comparatively small additional expense of a few weeks' board in order to make himself completely master of the course; and thus, by a small present outlay, qualify himself for some lucrative situation. The crudeness that such haste entails is highly detrimental, not only to the student himself, but also to the College where he graduates; and, besides, it brings opprobrium on Commercial College's generally. The common practise, therefore, of holding out this crowding system as an inducement to students is most deceptive and highly reprehensible.

We were again awarded the FIRST PRIZE at the late Provincial Exhibition, Kingston, for the best specimen of BUSINESS PENMANSHIP, and an EXTRA PRIZE for our SYSTEM OF WRITING.
