## FORESTS AS A PROTECTION AGAINST DROUGHT.

In an address before the Livingstone Co. Mech. Ag. Society, Prof. R. C. Kedzie, of the Mich. Ag. College, discussed the advantages of Forests, a subject now attracting much attention. His remarks as to the influence of forests on drought are as follows:

Some may ask why are forests necessary? Is not every portion left in forest so much productive capital? And does not a wise economy demand that these unproductive forests should be cleared up as soon as the owner can command the means, and the whole country be made productive? These are important questions and should receive answers. If trees are of no service in the economy of nature except to furnish timber and timber then any surplus beyond those wants is a useless drawback on the productiveness of any country. And it does seem why sunbeams on the ground.

But these are the reasons why forests should be spared and not within their control. Not extreme dry years in the annals of history. The researches of modern science accurate observation, as well as the history of the past, show that a country stripped of its forests is more liable to extremes of drought and excessive heat, and to floods in springs and freshets, and as a consequence of all these is more exposed from great and sudden changes of temperature from the forests. In the early settlement of this country it has been spoken of as a rainless region, and Father Malouner, Father Marquette, and Father Hennepin, made [illegible] of trees, showers are more frequent. The official statement of the number of immigrants who arrived in this port during the year 1867 proves it at 242,371, an increase of nearly 8,000 on last year. Of these 87,561 were from Germany, 66,134 from Ireland, and 38,712 from England. Estimating the annual productive labour of each of these immigrants at only one hundred dollars net, they would add to the wealth of the country twenty four millions a year, which is six per cent upon a capital of four hundred millions, besides the money and property which they bring with them, which may be reckoned at twenty millions more.—N. Y. Sun.

A New York journal, after alluding to economy as a study generally regarded as dry, abstract, and even "cruel," in its application to human affairs, notes the singular neglect with which it is treated in our schools and colleges, and, recalling the fact that from the students of these institutions come our legislators and rulers, it urges the pursuit of this study, both on account of its relations to right government and as a means of developing the reasoning powers. Where one man will find practical use for what he learns during the discipline of metaphysics and the higher mathematics, hundreds would be benefited by an early awakening to the importance of the material history of nations, the statistics of economic experience, and their bearings upon the welfare and advancement of our own land.

The *Waterford Mail* mentions that a vessel of curious build, and generally sinister appearance, anchored several nights ago at Passage. H. M's ship Research arrived next day in search of her, but the suspicious craft had gone to sea. The apparance off the coast of such a vessel is also reported from Clare and Galway. At Kingstown the Seamew gunboat and a revenue cutter have arrived, which had been on the look out in the channel for a strange barque of a similar character. More than usual vigilance is observed at that point. At Limerick Barracks an investigation of all cellars and underground passages has been made, persons having, as the statement runs, been making surveys, and closely examining the barracks from boats on the river. At Dublin Castle several prudential steps of a somewhat similar nature have been lately made.

## BRITISH AMERICAN Commercial College.

NECESSITY FOR A THOROUGH MERCANTILE EDUCATION.

## PRIZE PENMANSHIP.

SUPERIOR ADVANTAGES OFFERED.

THE IMPORTANCE OF A THOROUGH BUSINESS EDUCATION is pressing itself on the attention of commercial circles more and more every day, and its advantages are perhaps more emphatically shown by nothing more than by the vantage ground on which it places the *fully trained* clerk above the *imperfectly trained one*, when for a situation. THE BRITISH AMERICAN COMMERCIAL COLLEGE has in full operations such a course of instruction as to give it *practical fitness* to do the work proposed.

An important characteristic of this Institution is its maturely organized ACTUAL BUSINESS SYSTEM, whereby the College is made a type or model not only of an extensive business house, but even of a large trading community.

Another distinctive feature of this College is that it attempts no extraneous teaching. Its work is ONE, and to the accomplishment of that work every effort is directed. Just as the University and Grammer School must be separate Institutions, so the Commercial College and the Elementary School must be distinct. Common sense and experience alike show that such a combination is not compatible with efficiency.

The time required to complete the full course varies considerably, according to the attendance, and ability of each student. Young men, however, are earnestly cautioned against the injurious practice of hurrying through the course from the mistaken idea that they will thus be gainers by the saving of money in the item of board. Infinitely more advantageous would it be to the student, since his full course of tuition is already paid for, to incur the comparatively small additional expense of a few weeks' board in order to make himself completely master of the course; and thus, by a small present outlay, qualify himself for some lucrative situation. The crudeness that such haste entails is highly detrimental, not only to the student himself, but also to the College where he graduates; and, besides, it brings opprobrium on Commercial Colleges generally. The common practise, therefore, of holding out this crowding system as an inducement to students is most deceptive and highly reprehensible.

We were again awarded the FIRST PRIZE at the late Provincial Exhibition, Kingston, for the best specimen of BUSINESS PENMANSHIP, and an EXTRA PRIZE for our SYSTEM OF WRITING.

HOOFLAND'S GERMAN BITTERS AND

## HOOFLAND'S GERMAN TONIC.

THE GREATEST REMEDIES FOR ALL DISEASES OF THE Liver, Stomach, or Digestive Organs.

**HOOFLAND'S GERMAN BITTERS**

Is composed of the pure juice (or, as they are medicinally termed *Extracts*) of Roots, Herbs, and Barks, making a concentrated, and entirely *free from alcoholic admixture of any kind.*

**HOOFLAND'S GERMAN TONIC,**

Is a combination of all the ingredients of the Bitters, with the purest quality of *Santa Cruz Rum*, Orange, &c., making one of the most pleasant and agreeable remedies ever offered to the public.

Those preferring a Medicine free from Alcoholic admixture, will use

**Hoofland's German Bitters**

Those who have no objection to the combination of the Bitters, as stated, will use

**Hoofland's German Tonic.**

They are both equally good, and contain the same medicinal virtues, the choice between the two being a mere matter of taste, the Tonic being the most palatable.

The stomach, from a variety of causes, such as Indigestion, Dyspepsia, Nervous Debility, etc., is very apt to have its functions deranged. The Liver, sympathizing as closely as it does with the Stomach, then becomes affected, the result of which is that the patient suffers from several or more of the following diseases:

Constipation, Flatulence, Inward Piles, Fulness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fulness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried or Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a Lying Posture, Dimness of Vision, Dots or Webs before the Sight, Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, etc., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil, and the Great Depression of Spirits.

The sufferer from these diseases should exercise the greatest caution in the selection of a remedy for his case, purchasing only that which he is assured from his investigations and inquiries possesses true merit, is skilfully compounded, is free from injurious ingredients, and has established for itself a reputation for the cure of these diseases. In this connection we would submit those well-known remedies—

**Hoofland's German Bitters,**
AND
Hoofland's German Tonic

PREPARED BY Dr. C. M. JACKSON, Philadelphia, Pa.

Twenty-two years since they were first introduced into this country from Germany during which time they have undoubtedly performed more cures, and benefited suffering humanity to a greater extent, than any other remedies known to the public.

These remedies will effectually cure Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, Chronic Diarrhœa, Disease of the Kidneys and all Diseases arising from a Disordered Liver, Stomach, or Intestines.

**DEBILITY,**

Resulting from any Cause whatever

PROSTRATION OF THE SYSTEM, induced by Severe Labor, Hardships, Exposure, Fevers, &c.

There is no medicine extant equal to these remedies in such cases. A tone of vigor is imparted to the whole system, the appetite is strengthened, food is enjoyed, the stomach digests promptly, the blood is purified, the complexion becomes sound and healthy, the yellow tinge is eradicated from the eyes, a bloom is given to the cheeks and the weak and nervous invalid becomes a strong and healthy being.

PERSONS ADVANCED IN LIFE,

And feeling the hand of time weighing heavily upon them, with all its attendant ills, will find in the use of this BITTERS, or the TONIC an elixir that will instill new life into their veins, restore in a measure the energy and ardor of more youthful days, build up their shrunken forms, and give health and happiness to their remaining years.

NOTICE.

It is a well-established fact that fully one-half of the female portion of our population are seldom in the enjoyment of good health; or, to use their own expression "never feel well." They are languid, devoid of all energy, extremely nervous, and have no appetite,

To this class of persons the BITTERS, or the Tonic, is especially recommended.

WEAK AND DELICATE CHILDREN

Are made strong by the use of either of these remedies. They will cure every case of MARASMUS, without fail.

Thousands of certificates have accumulated in the hands of the proprietor, but space will allow of the publication of but a few. Those, it will be observed, are men of note and of such standing that they must be believed.

**Testimonials.**

HON. GEO. W. WOODWARD,
Chief Justice of the Supreme Court of Pa., writes:

Philadelphia, March 16, 1867.

"I find 'Hoofland's German Bitters' is a good tonic, useful in diseases of the digestive organs, and of great benefit in cases of debility, and want of nervous action in the system. Yours truly,

GEO. W. WOODWARD."

HON. JAMES THOMPSON,
Judge of the Supreme Court of Pennsylvania,

Philadelphia, April 28th, 1866.

"I consider "Hoofland's German Bitters" a *valuable medicine* in case of attacks of Indigestion for Dyspepsia. I can certify this from my experience in it. Yours, with respect.

JAMES JOHNSTON."

FROM REV. JOSEPH H. KENNARD, D. D., Pastor to the Tenth Baptist Church, Philadelphia.

Dr. Jackson—Dear Sir: I have been frequently requested to connect my name with recommendations of different kinds of medicines but regarding the practice as out of my appropriate sphere, I have declined; but with various instances in my own family, of the usefulness of Dr. Hoofland's German Bitters, I depart for once from my usual course, to express my full conviction that, for general debility of the system, and especially for Liver Complaint, it is a safe and valuable preparation. In some cases it may fail; but usually, I doubt not, it will be very beneficial to those who suffer from the above causes.

Yours, very respectfully,
J. H. KENNARD,
Eighth, below Coates St.

FROM REV. E. D. FENDALL,
Assistant Editor *Christian Chronicle*, Philada.

I have derived decided benefit from the use of Hoofland's German Bitters, and feel it my privilege to recommend them as a most valuable tonic, to all who are suffering from general debility or from diseases arising from derangement of the liver.

Yours truly,
E. D. FENDALL.
