HISTORY OF GOLD FIELDS IN PERU.

Some time before the late revolution by which the power of President Pezuela was overthrown, an expedition was fitted up by the Peruvian Government to explore the banks of the Rivers Marañon and Ucayali, in the Northern part of Peru, the latter one of the main tributaries, and one of the lesser affluents of the Amazon. The Government steamer Napo was placed in the expedition, which was placed under the command of Major Raimondi of the Peruvian navy, and was engaged in work for several months. In ascending the Marona, Major Raimondi stopped to examine the shores of a lake lying to the south of the Marona, which is called Nacacuyage, in the province of Amazones, and within sight of the celebrated Pongo de Manseriche. The latter, however, he was unable to reach for want of provisions, and he found that he could not even find a passage of the river above the Pongo, the depth of water in the stream not being great at that season of the year (the rainy season).

The official report of the expedition has appeared in the newspaper organ of the Peruvian Government, and besides being rich with interesting and valuable information relative to the country traversed, it proves the fact that immense quantities of gold are to be found in the region through which the expedition passed. So abundant is the precious metal, it is said, that an Indian with only a simple wooden tray for washing the gold dust, can gather several ounces in less than two hours. The Indians working these parts are in a complete savage state, and the pioneer is certainly exposed to great danger from them. In concluding the report, Major Raimondi intends to remain only a few days longer, with the greatest possible quantities of gold.

The discovery is of great importance, and becomes of the most serious consequence to the Peruvian Government. It is due, thanks to the enlightened liberality of the Emperor of Brazil, the navigation of the Amazon is free, it is only natural to expect that numerous adventurers will start making in to the new gold region by the way of the Amazon, and it remains to be seen what further action the Peruvian Government will take in the matter. Previous to the overthrow of Prado, it had decided to take the necessary steps for the further exploration of the auriferous region, but the Government had already given consideration the measures it would be advisable to adopt for the protection and government of the immigrants that it was expected would soon flock to the new gold fields. What the new administration will do is of course yet to be seen, but inaction in the matter will be a matter of considerable interest.

Peru is really within an opportunity of replenishing her exhausted treasury, by the process of opening up to civilization a region which forms one of the richest of the South American continent in natural beauty, and abounding in natural resources, but hitherto given over to the Indians, principally as a hunting ground. Peru, it is said, is very anxious to regain the position in which he has been placed, notwithstanding the dangers to be apprehended from those Indian tribes—the Chunchos, Piros, Campas, and Antis—who have hitherto, to the "main chance," of reaping the first of the splendid harvest which now is to be gathered.

THE PRINCE OF WALES.

The Prince is said to have expressed in a high place the desire to go personally and explain his views upon this subject to the King of Prussia, whom he thus hopes to detach from the Russian alliance. The realization of this desire did not appear objectionable, and without being authorized to speak in the name of the French Government, to promise anything or to suggest anything, the Prince was left free to leave, and visit the court of Prussia, as well as all the other Courts that he might approach in Germany. Thereupon the Prince left. Grave doubts are entertained whether he will attain his object.

NARROW ESCAPE OF A RUSSIAN AMBASSADOR FROM ASSASSINATION.

Baron de Budberg, the Russian Ambassador, who has just returned to Paris from St. Petersburg after a long *congé*, narrowly escaped assassination in the refreshment room of the Verviers station, in Belgium. While at table Baron de Meyendorff, son of the celebrated Russian diplomatist, came up to him and said, "Bon jour, Baron." "What, are you here?" replied Baron de Budberg, who evidently knew him. An altercation followed in the Russian language, and after the lapse of a few seconds Baron deMeyendorff struck Baron de Budberg in the face, and was in the act of drawing a sword from a stick to assault him when M. Beckmann, a writer on the staff of the *Temps*, who saw the movement, rushed upon him and snatched the sword-cane from his hand. Thereupon Baron de Meyendorff drew a revolver from his pocket and levelled it at the Russian Ambassador. The latter exclaimed. "Secure him, he is a madman." A waiter at the buffet, with much presence of mind, took away the pistol, and the Baron de Meyendorff was taken into custody by the police. It seems that some time ago the Baron de Budberg had certified that he was not in his right senses. Desirous to avenge himself on the Russian Ambassador for this slight Baron de Meyendorff had laid in wait for him at the Belgian frontier for a whole fortnight.

AUSTRALIA AND NEW ZEALAND.

The mail steamer arrived at Panama on the 4th February. She left Sydney on the 1st, and Wellington on the 8th January. The Duke of Edinburg was then still at Melbourne. In Victoria, the Parliamentary dead-lock continued, and was likely to remain so, unless the Upper House gave way. A fearful tornado passed over Melbourne on Dec. 28. Several small vessels were driven ashore. In New South Wales Parliament had adjourned over the holidays, and was to resume business on Jan. 8. Not an item of the estimates had been passed, and the Opposition seemed determined to compel the Government to dissolve the House. Very hot weather continued to prevail, destroying the herbage, and rendering water very scarce. Disastrous bush-fires were very prevalent. Sir George Bowen was to leave Queensland on Jan. 27.

The leading topics of interest in New Zealand were the expected arrival of the Prince, and the coming of the new and departure of the old Governor. The Duke of Edinburgh was expected to arrive at Wellington about the 8th of March. Sir George Grey had left the seat of Government a few weeks before for his island home of Kawau. The news of the delay in the arrival of the Governor elect had just been received, and the New Zealand Government steamer St. Kilda had been ordered to start for Kawau, to see Sir George Grey, and if possible to bring him back to Wellington.

THE ALBERT MEDAL.

BOARD OF TRADE, FEB. 27.—The Queen has been graciously pleased to confer the decoration of "The Albert Medal of the First Class" on Mr Edward B. March, British Vice-Consul at San Sebastian. The following is an account of the service in respect of which the decoration has been conferred:—On the night of the 7th of December last, the French ship Nouveau Caboteur was cast on shore in the Bay of Zurriola, on the North coast of Spain, during a gale of wind. The sea at the time was running so heavily that no boat would venture to put off. There was also a general belief that it was impossible for a boat to be of any service. At that crisis the British Vice-Consul at San Sebastian, Mr E. B. March, after unsuccessfully entreating some of the bystanders to accompany him, plunged into the sea, swam to the vessel, and succeeded in bringing a rope to land. The rope was then secured, and one of the crew came safely to shore along it. The second, however (a lad), lost his hold, dropped into the sea, and sank. Then Mr March, though benumbed with cold, at the greatest personal risk, again swam to the vessel, dived under her keel, recovered the lad, and brought him safe to land. The remainder of the crew (which consisted of six men in all) got safely to land. Mr March was for a time completely prostrated from the effects of his exertions and the intense cold; but by care and attention he was restored—a result scarcely to have been expected under the circumstances.—*From the London Gazette.*

The Secretary of State for War has just published orders to the effect that regiments serving in Canada will be allowed a free passage for all soldiers' wives to accompany their husbands to England, up to this date, and that in future any soldier marrying without the sanction of his commanding officer will not be allowed to take his wife to Great Britain.

The *Lancet* remarks it as being worthy of note that the whole of the party forming the Livingstone search expedition enjoyed perfect immunity during four months' travel; and it was not until seven days after leaving the Zambesi, on the malarious delta of which the party was encamped from November 11 to December 4, that one man was seized on board the Rescue with bilious remittent fever of a very severe character. The man, however, recovered. The expedition worked from sunrise to sunset, in boats or walking, except a light lunch at midday. A full dose of quinine at night was always taken.

Many will remember the account given some three or four years since of a Mr Scott, and his two sons being burnt up in a lumber camp near Muskegon. It now turns out that they had a dispute with a man by the name of Carson, and that this Carson, considering himself wronged, out of revenge, stole into the camp while they were absent about their business and put kerosene into their tea-kettle, and so they were asleep, set fire to the camp in several places in such a manner as to prevent escape—and they were all destroyed. After the deed was accomplished Carson went to California, where he died a short time ago and on his death bed confessed to having perpetrated the above horrible crime.

Light House Supplies.

SEALED TENDERS WILL BE RECEIVED at this office until noon of SATURDAY, the NINTH of MAY next, for the supply of 800 Gallons of the best quality of winter-pressed SPERM OIL for the Provincial Lighthouses above Lachine, one third of which must be from head matter which will stand limpid at 30° Fahrenheit, and the other two-thirds at 34° subject to inspection and test before acceptance, and if required, to be measured out.

The whole to be furnished in iron-bound casks, containing 50 gallons each, in the best order, and to be delivered at the Contractor's risk, on such wharf, near the Lachine Canal Basin at Montreal, and on such day on or about the first day of July next as may be specified in the contract.

Tenders will also be received on the same day for the supply of 7,860 Gallons of the best quality of non-explosive COAL OIL, to be furnished in iron-bound casks containing from 20 to 50 gallons each, subject to inspection and test before acceptance, and to be delivered at the contractor's risk at the time above stated at Montreal.

The casks, in each case, to be furnished by the contractor, and their cost included in the price of the oil.

—ALSO A—

STEAM VESSEL WANTED.

SEALED TENDERS will be received on the same day, for a Steam Vessel for the delivery of the annual Lighthouse supplies, consisting of about 190 casks of oil, and 40 tons of other articles, at the respective Lighthouse stations, situate on the River St. Lawrence and inland Lakes; namely, on Lakes St. Louis, St. Francis, River St. Lawrence between Brockville and Kingston, Lakes Ontario, Erie, St. Clair and Huron, and on the Georgian Bay and Lake Superior.

The crew of the vessel must assist in the delivery of the stores.

Accommodations will also be required on board for the persons from this Department in charge of the Stores, and the vessel will also be required to receive and transport from one station to another any such Stores as the Superintendent in charge may direct.

The vessel will be allowed to carry other freight, provided it does not interfere with the proper delivery of the Stores.

A bulk sum to be named for the performance of this service. Any further information can be obtained on application at this office.

Separate Tenders to be given for each service, and to be addressed to the undersigned, and endorsed respectively "Tender for Sperm Oil," "Tender for Coal Oil," and "Tender for delivery of Lighthouse supplies."

Parties tendering must give their names and address in full, also the signatures of two responsible persons willing to become sureties for the due fulfilment of the contract. The Department will not be bound to accept the lowest or any Tender.

TESTIMONIAL.

From Sig. Carlo Mora, Professor of Music, Kingston.

HAVING had ample opportunity of testing Mr Reyner & Son's Tuning and Repairing of Pianofortes, &c., since I have been in Kingston, I heartily recommend them to all those having Instruments to tune or repair, and would further advise those that have Instruments that are not in good order, to give them a call at once, as delay will only occasion more work and money when it is done.

SIG. CARLO MORA,
Professor of Music,
Kingston.

FROM MR RIDDELL.

MR REYNER has recently re-covered the Hammers of the Pianoforte used in my family with the new improved patent leather, and otherwise repaired it. He has also tuned it, and it is altogether much improved, the quality of the tone being greatly better than before the Instrument was put into his hands. I shall certainly continue to keep the piano under his charge for the future.

HOOFLAND'S GERMAN BITTERS
AND
HOOFLAND'S GERMAN TONIC,
THE GREATEST REMEDIES FOR ALL
DISEASES OF THE
Liver, Stomach, or Digestive Organs.

HOOFLAND'S GERMAN BITTERS

Is composed of the pure juice (or, as they are medicinally termed, the *Extractive*) of Roots, Herbs, and Barks, making a preparation, highly concentrated, and entirely *free from alcoholic admixture of any kind.*

HOOFLAND'S GERMAN TONIC.

Is a combination of all the ingredients of the Bitters, with the purest quality of *Santa Cruz Rum*, Orange, &c., making one of the most pleasant and agreeable remedies ever offered to the public.

Those preferring a Medicine free from Alcoholic admixture, will use

Hoofland's German Bitters

Those who have no objection to the combination of the Bitters, as stated, will use

Hoofland's German Tonic.

They are both equally good, and contain the same medicinal virtues, the choice between the two being a mere matter of taste, the Tonic being the most palatable.

The stomach, from a variety of causes, such as Indigestion, Dyspepsia, Nervous Debility, etc., is very apt to become deranged. The Liver, sympathizing so closely as it does with the Stomach, then becomes affected, the result of which is, that the patient suffers from several or more of the following diseases:

Constipation, Flatulence, Inward Piles, Fulness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fulness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried or Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a Lying Posture, Dimness of Vision, Dots or Webs before the Sight, Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, etc., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil, and the Great Depression of Spirits.

The sufferer from these diseases should exercise the greatest caution in the selection of a remedy for his case, purchasing only that which he is assured from his investigations and inquiries possesses true merit. It is a well-established fact that Hoofland's German Bitters are compounded, is free from injurious ingredients, and has established for itself a reputation for the cure of these diseases. In this connection we would submit those well-known remedies—

Hoofland's German Bitters,
AND
Hoofland's German Tonic

PREPARED BY Dr. C. M. JACKSON,
Philadelphia, Pa.

Twenty-two years since they were first introduced into this country from Germany, during which time they have undoubtedly performed more cures, and benefited suffering humanity to a greater extent, than any other remedies known to the public.

These remedies will effectually cure Liver Complaint, Dyspepsia, Dyspepsia, Chronic or Nervous Debility, Chronic Diarrhœa, Disease of the Kidneys, and all Diseases arising from a Disordered Liver, Stomach, or Intestines.

DEBILITY

Resulting from any Cause whatever,

PROSTRATION OF THE SYSTEM,

induced by Severe Labor, Hardships, Exposure, Fevers, &c.

There is no medicine extant equal to these remedies in such cases. A tone of vigor is imparted to the whole system, the appetite is strengthened, food is enjoyed, the stomach digests promptly, the blood is purified, the complexion becomes sound, and healthy, the yellow tinge is eradicated from the eyes, a bloom is given to the cheeks and the weak and nervous invalid becomes a strong and healthy being.

PERSONS ADVANCED IN LIFE,

And feeling the hand of time weighing heavily upon them, will all in attendant ills, will find in the use of this BITTERS, or the TONIC an elixir that will instill new life into their veins, restore in a measure the energy and ardor of more youthful days, build up their shrunken forms, and give health and happiness to their remaining years.

NOTICE.

It is a well-established fact that fully one-half of the female population are seldom in the enjoyment of good health, or they would use their own expression, never well. They are languid, devoid of all energy, extremely nervous, and have no appetite.

To this class of persons the BITTERS, or the Tonic, is especially recommended.

WEAK AND DELICATE CHILDREN

Are made strong by the use of either of these remedies. They will cure every case of MARASMUS, without fail.

Thousands of certificates have accumulated in the hands of the proprietor, but space will allow of the publication of but a few. Those, it will be observed, are men of note and of such standing that they must be believed.

Testimonials.

HON. GEO. W. WOODWARD,
Chief Justice of the Supreme Court of Pa., writes:

"Philadelphia, March 14, 1867.

"I find Hoofland's German Bitters to be a good tonic, useful in diseases of the digestive organs, and of great benefit in cases of debility, and want of nervous action in the system. Yours truly,

GEO. W. WOODWARD.

HON. JAMES THOMPSON,
Judge of the Supreme Court of Pennsylvania, writes:

"Philadelphia, April 29th, 1866.

"I consider Hoofland's German Bitters a valuable medicine in cases of attacks of indigestion for Dyspepsia. I can certify this from my experience in its use. Yours, with respect,

JAMES THOMPSON.

FROM REV. JOSEPH H. KENNARD, D. D.,
Pastor to the Tenth Baptist Church, Philadelphia.

Dr. Jackson—Dear Sir: I have been frequently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, I declined; but with various instances in my own family, and particularly of the usefulness of Dr. Hoofland's German Bitters, I depart for once from my usual course, to express my full conviction that, for general debility of the system, and especially for Liver Complaint, it is a safe and valuable preparation. In some cases it may fail; but usually, I doubt not, it will be very beneficial to those who suffer from the above causes.

Yours, very respectfully,

J. H. KENNARD,
Eighth, below Coates St.

FROM REV. E. D. FENDALL,
Assistant Editor *Christian Chronicle*, Philada.

I have derived decided benefit from the use of Hoofland's German Bitters, and feel it my privilege to recommend them as a most valuable tonic, to all who are suffering from general debility or from diseases arising from derangement of the liver.

Yours truly,

E. D. FENDALL.
