There is an old adage which says: "a last straw can break a camel's back." Chancellor Hitler may find the British Bulldog slow to anger, but once his anger is aroused his reputation for hanging on once he has taken a hold would possibly prove very embarrasing to the Frueher.

FIRE TRUCK HAD RUN ON TUESDAY

The fire brigade had a run Tuesday afternoon to the home of Mr. Wm. Johnson, two and a half miles south of Flesherton, and extinguished a fire that was eating its way along the woodshed roof, caused by sparks from a chimney. A small hand extinguisher soon had the fire controlled. Mrs. Johnson and daughter had been using water but the fire had broken out in several places and it would only have been a short time until the blaze might have had too great a start.

According to an American scientist twenty per cent of the United States drivers avoid headon collisions by less than a second. That is close enough to hear Gabriel's horn.

The county councils have a new friend, Hon. Eric Cross, Minister of Municipal Affairs. He says there are thirty-eight of these bodies operating in Ontario at a cost of $167,000 and administering budgets totalling $15,000,000, hence his department fails to see any advantage that might accrue from abolition of this "very necessary form of government."
