June is a fine month for housecleaning
A good kettle of soft soap
made from the lye leached from
the ~~winter~~ barrel of last winters
ashes and the crackling & tallow
saved. makes a fine start

for there are the print quilts, & the
heavy quilts, the wool blankets
to be washed. The straw ticks are
to empty, wash and refill with
good wheat straw, be sure to
shake the straw well to get rid
of the chaff and dust and poke it
well into the corners.

Take the strips of rag carpet apart
for easy washing,
