EPH. HORN

the first and only Ethiopian Clown in the World, whose rich gems of pleasantry have never failed to PLEASE AND TICKLE, brilliant as anthracite coal, and popular from Maine to New Orleans. "LITTLE GIANT"

Corn and Cob, Pea and Oat Mill!

THIS MILL combines, in a remarkable manner, SIMPLICITY and POWER and may be adapted and put into operation by any person, (no matter how ignorant he may be of machinery); while its efficiency, as a

Corn and Cob Crusher,

surpasses anything of the kind in existence, and fully warrants the unique appellation of the "Little Giant."

This crusher is adapted not only to the grinding of Ear Corn for feed, but also to the cracking of Corn, Peas, and Oats, together; in which it is unrivalled.

The economy of grinding up cobs with corn, is hardly now an open question. Full experiments have been made, and the results frequently published. It is not pretended that the cobs are rich in the element of nutrition, compared with the grain, but they have been found to yield spirit or distillation, a proof that they are far from valueless, and also answer admirably the purpose of preventing the necessary distention of the stomach, and promoting digestion.

The "Little Giant" is of two sizes, costing respectively $40 and $60. It will turn out, according to size, from ten to twenty bushels an hour and do its work most thoroughly and satisfactorily!

These Mills are to be had in all the principal Towns in Canada.

THE PROVINCIAL LEGISLATURE having passed an Act requiring all the ACCOUNTS OF THE GOVERNMENT to be kept in DOLLARS and CENTS, from the FIRST of JANUARY next, it is desirable that the same system of Accounting should be generally adopted throughout the country.

The BANKING INSTITUTIONS have, therefore, resolved to make a similar change, to take effect at the above mentioned period, and they request that parties transacting business with them will have the amount of all Bills or Notes intended for Discount or Collection, and falling due on and after the first of January next, expressed in Dollars and Cents. It will also be necessary that all Cheques and other forms, in use for Banking purposes, be adapted to the Decimal System.

AUSTRALIA
PIONEER LINE,
Established in 1852.
CARRYING THE U. S. MAIL.
Sailing positively on the Day Advertised.

The Noble A 1 Clipper Packet Ship
CONTINENT,

1,092 Tons Register, GIBBS, Commander, will succeed the Rambler. Sails July 1st, and day of Sailing guaranteed.

The Continent was built in 1851, of Virginia Live-Oak, coppered and copper-fastened; insures at the very lowest rates, and is, in every respect, a model Passenger Ship. She is a three-decker, with a flush promenade deck fore and aft. The Saloons are fitted up with all the modern improvements; the State-rooms are unusually large. The second Cabin is also fitted up with State-rooms for families, and arrangements for light, ventilation and cleanliness, that cannot possibly exist in the between decks of a two deck ship. Persons who have already crossed the Atlantic will appreciate this. The management of the Pioneer Line for the past five years is its best recommendation, and the fact that no accident has occurred, and not one claim made on the Underwriters; also, that the two shortest passages from this country, 74 and 76 days, is a proof that none but good Ships and able Commanders are employed. The Rates of Passage are the same as charged by BAINES & CO., Black Ball Line, from Liverpool, and are as low as can be afforded, consistent with the requirements of the Passengers. The provisions are, as heretofore, of the very best quality. Second class Passengers are furnished with fresh bread not less than three days in the week. The Continent will carry an experienced Surgeon.

RATES OF PASSAGE.

Children in arms, free; over two years and under twelve, half-
