The stocker trade was active and steady, best kind selling from 6.25 to 6.50; medium to good from 5.00 to 6.00. The cow market was active and steady, choice fat cows from 4.50 to 5.00, with some choice heifery cows up to 5.50; fair to good from 4.00 to 4.50; common to medium 3.50 to 4.00; canners and cutters 3.00 to 3.50. Choice bulls brought from 5.00 to 5.50; light bolognas 4.00 to 4.25.

WOLF! WOLF!

Those who say that there are wolves prowling in this vicinity may cite in proof a fine speciman of the species that Mr. Gardiner Morrison of Farewell ran over on Friday evening about midnight when he was driving along Chas. Harper's sideroad towards Mt. Forest. He was driving pretty fast when he spied the beast on the road ahead. Putting on more speed, he struck it hard. He did not leave the scene of the accident, but went back and, though its head was crushed and a leg was broken in two places, he had to put it out of misery with a club.

The animal was identified as a brush wolf with good gray fur. The pelt lacked only an inch of being six feet from tip to tip. Though fat, the animal was lanky and weighed only 36 pounds.

The skin was sent to Toronto on Monday, together with a claim for the Government bounty. His proven presence may account for some of the numerous sheep whose slaying has been laid at the door of dogs in Arthur township, and has cost the township treasurer a lot of money.—Mount Forest Confederate.

LOWER COURT COSTS

Plans for simplifying and reducing the cost of the administration of justice in Ontario are set forth in the Fred H. Barlow K. C. who has submitted his report to the government after 12 months of investigation. He advises the abolition of the coroner's Jury and the office of the Court Crier; consolidation of the County Court,, the Court of General Sessions of the Peace, the County Judges' Criminal Court, and the Surrogate Court into one court; the dividing of the Province into judicial districts, each composed of a number of Counties, and the replacing of the Divisional Court system by a "small claims court" system. He also believes in the setting up of a policy of defending poor persons charged with crime.

One thing seems sure: if the government were to accept these recommendations there would be a large number of court officials deprived of a job. And the government might find it easier to make the change when work is getting plentiful than to delay action until another period of retrenchment.
