PROTON STATION

The County Council with the co-operation of the Artemesia and Proton Councils, have begun operations for a new culvert on the town line in Proton village. Men are at work in this January weather with picks and shovels digging through the frozen earth to clear away the old culvert, making very slow progress. This new drain has been badly needed for years, as it is supposed to drain the village cellars. The old one has not been giving satisfaction. The villagers are wondering if the work could not have been done faster and cheaper in warmer weather,

Congratulations are extended to Rev. Harold Hobbs and Mrs. Hobbs on the birth of a son, on Sunday Jan. 28th, 1940.

The Proton Station correspondent has been away visiting, so the items have not gone into the paper. Two letters came into our home to-day from the far North, and one from the Southern part of Ontario. Both writers remarked that they had missed the Proton Station items. Now isn't that gratifying.

Miss Maude Acheson and her friend, Mary McNab, of Primrose, visited at the Acheson home a week ago. The storm prevented them from returning in time for school by motor, so the good old C.P.R. was appreciated.

Mr. Patterson, our student minister, was also forced to abandon his car and return to Toronto by train.

ONE ON THE MAYOR

A local citizen "pulled one" this week which even Mayor Cliff Speer will appreciate. A group were speaking of the excessive snowfall of the past week, and they were not very happy at the thought of all the shovelling they had to do. Finally, one of the men said it was due to the recent election, exclaiming: "We never had drifts like this while Alvin Metzger wah mayor."—Hanover Post.

It is being suggested that the present exemption of $2,000 for married men and $1,000 for single men be lowered in order to increase income tax revenue. Yet only 2 millions of tax revenue was obtained from the 150,000 people who had an income of less than $3,000. It would bring in more money to lower exemption, but the cost of collection would be high.

Live Stock Report

(By Dunn & Levack, Toronto)

Supplies of cattle were somewhat heavier for Monday's market and the trade was slow and closed at from 25 to 35c lower on butcher cattle and steers, while cows and bulls held steady. Lambs were lower, due to the arrival of shipments of dressed lamb from New Zealand, also calves were about 50c lower, under a more literal supply. The hog market was steady with the close of the week.

Choice weighty steers brought from 7.25 to 7.50; fair to good from 6.75 to 7.25. In the butcher section, choice steers and heifers brought from 7.00 to 7.25, with a few extra tops at slightly higher prices; fair to good from 6.50 to 7.00; common to medium 6.00 to 6.50. Choice baby beeves ranged from 8.00 to 9.00. The cow market was slow, but prices about steady. Choice fat cows from 5.00 to 5.25; fair to good 4.50 to 5.00; common to medium 3.75 to 4.25; canners and cutters 3.25 to 3.75. Good bologna bulls brought from 5.25 to 5.50; common light bulls 4.50 to 5.00.

Choice lambs sold at 10.50 and best butcher sheep from 5.50 to 6.00. Choice calves 12.00 to 13.00, with prospects of an easier trade for the balance of the week. Fair to good calves brought from 10.00 to 12.00; common to medium 8.00 to 10.00.

Supplies of hogs were somewhat heavier and most of the hogs sold alive at 9.00, with those on the dressed weight basis at various prices. Good sows sold at 6c alive. The arrival of a large amount of dressed pork from the United States, continues to affect the local wholesale trade, and should supplies become top-heavy prices will likely work lower here.
