Flesherton Central Ontario League team was eliminated for the season by Dundalk in games played Wednesday and Friday nights. The scores were 5-1 and 9-2. "Bus" Springgay of Feversham counted two of the three Flesherton goals in the two games and his play in the series was brilliant. Dargavel got the other goal on a pass from Boyd. Dundalk and Shelburne will now battle it out for the League title, as Shelburne put Grand Valley into the discard.

Priceville eliminated Ceylon Wednesday in a sudden-death games, and entered the semi-final games in the Semi-Pro. League. Monday evening they met Flesherton and in one of the most dramatic endings of a game in Flesherton tied the Flesherton squad, which was leading 5-1 at the end of the second period. Sparked by Ross McConkey and Cam. McLean Priceville took advantage of two Flesherton penalties and by the fierceness of their attack rammed home three goals to put them within striking range and before the period ended shoved in another to tie the game. These two teams will be on even terms when Priceville's home game will be played at Durham Friday night, as the winner of the game will meet the winner of the Feversham-Rock Mills series.

Feversham tangled with Rock Mills in the semi-final game of the Semi-Pro. loop on Friday night and emerged on the high end of an 8-3 score. The second game between these two foes will be played tonight.

If Priceville is the winner of the game Friday night and wish to play their home games in Durham it is reported that Feversham, if they play off with them, will take their home game to the Collingwood arena.

Flesherton High School girls' hockey team plays in Markdale Thursday evening in the first game to decide the winner of the group. Don't fail to see the young ladies play, as they put up a good brand of hockey.

Dundalk won the first game of the Central Ontario League finals from Shelbrne 5-4 in a rough contest Tuesday night.

harvest FINER POTATOES and MORE of them
Plant CANADIAN CERTIFIED SEED
MAKE plans early this year to harvest a bumper crop of smooth, clean, high-quality potatoes. Good seed is the first requirement for an excellent crop . . . because only good seed will grow vigorous plants, plants that can withstand most of the serious diseases common to potatoes.
Canadian Certified Seed Potatoes are good seed potatoes. By planting them, many of the losses due to disease will be avoided . . . higher-quality, cleaner, smoother, more uniform potatoes than those grown from ordinary seed stock will be produced.
So, this season, harvest finer potatoes—and more of them. Plant Canadian Certified Seed. Grow potatoes that will grade Canada No. 1.
Canadian Certified Seed Potatoes are available in all standard varieties. Be sure to select the variety most suitable for your locality! Ask the local District Government Inspector, Plant Protection Division, for full information and list of nearest distributors.
Food supplies are important in wartime — This year, plant and raise only the best.
