WHAT CHEW HAS THE MOST FLAVOUR?

THAT'S EASY -BIG BEN!

BIG BEN

The PERFECT Chewing Tobacco

- HAVE - YOU HEARD?

An Irish truck driver was charged with reckless driving and with having stopped his truck so suddenly that a car behind him smashed into him. The judge asked him why he had not held out his hand.

Pat indignantly answered: "If the poor fool couldn't see me truck, how in Hivin's name could he see me hand?"

"Did they put stitches in?" asked the friend after the operation.

"No, I just pulled myself together," was the reply.

Counsel (cross-examining a farmer): "Now don't quibble! Do you understand a simple problem or not?"

Witness: "I do."

"Then tell the court this: If 15 men ploughed a field in five hours, how long will 30 men take to plow the same field?"

"They couldn't do it."

"Why not?"

"Because the 15 men have already ploughed it!"

"I have heard," said the professor, "that Babylon fell, and Nineveh was destroyed, and"

Someone in the class: "Tyre was punctured."

A teacher was instructing her class in the use of antonyms. "Now children," she said, "what is the opposite of sorrow?"

"Joy," shrieked the class in unison.

"And what is the opposite of woe?"

"Giddap!"

She: "It is disgraceful! Yesterday you kissed me against my will and today you try to repeat the offence."

He: "Well, a criminal always returns to the scene of his own crime."

What Science Is Doing

JAUNDICE CURE

Experiments at the Mayo Clinic have proved that patients suffering from "obstructive jaundice" could be cured by an operation after they had been given injections of Vitamin K.

Vitamin K. built up in the blood a substance called prothrombin, the lack of which resulted in bleeding to death of persons operated on for the disease.

TO RELIEVE INDIGESTION

Dr. Otto Dennith, of Vancouver, reports he has found a way to relieve indigestion and gastric ailments that rest, diet and medication will not cure. Since 1933 he has successfully used the technique of severing the sphincter of oddi, which rings the inside of a duct leading from the pancreas, liver and gall bladder to the small intestines.

MODERN PIONEER

Among the sage elders of science a young man not yet 30 takes rank today as one of 19 upon whom the title "modern pioneer" has been bestowed in recognition of his inventive genius.

He is Edwin H. Land, of Boston, who invented "Polaroid," a crystal substance made of iodine and quinine which "polarizes" rays of light, in effect lining them up by blocking out vibrations at right angles to the beam, thus eliminating glare.

Owing to lack of refrigerator space, the government has forbidden Australians to include butter in hampers shipped to Great Britain. No restriction were placed on other rationed goods (hams, bacon and sugar).

See Shand Dam Ready This Fall

$1,700,000 Wall Main Unit of Grand River Control Project, Is Expected To Be Complete Then

At the annual meeting of the Grand River Conservation Commission, held in Brantford, Ont., Dr. G. Acres, Niagara Falls, chief engineer to the commission, gave assurance the vital construction of the $1,700,000 Shand dam, main unit of the river-controlling project, would be conpleted before the autumn frosts of 1940.

COULD DO MORE

Dr. Acres also said the supplementary Luther Marsh dam could be completed by the end of this year should the commission so direct. All necessary and scheduled work in connection with the Shand dam in 1939 had been completed, he said.

HEALTH TOPICS

EAT DOMESTIC FRUIT

A perfect diet, rich in all the protective foods, is obtainable in Canada at all seasons without resort to imported fruits or vegetables. This is the finding of leading Canadian nutritionists and is being cited by those concerned with the increasing consumption of American fresh fruits.

Canned Canadian vegetables have been proven to have higher vitamin and mineral content than fresh vegetables imported long distances from the southern states.

GOOD COLD REMEDY

Hot drinks, warm clothing and hot applications have been found to be most effective in overcoming the ravages of the cold germ. That is no doubt why the mustard foot bath is so favored. Two or three tablespoons of dry mustard, mixed with a little cold water, and then added to the bathwater has been found to be efficacious in helping anyone to overcome a cold. If, after remaining in the bath until the skin begins to tingle pleasantly, one takes a good rub-down and then retirs to bed, there is usually a good deal of relief in the morning.

WARNS AGAINST T. B.

"Tuberculosis is the most important single disease facing us in the problem of national health," Prof. E. G. D. Murray, of the department of bacteriology and immunity, McGill University, said in a recent radio talk.

Tuberculosis as a disease had not inspired a state of terror in the human race, as would the mere mention of plague, smallpox, poliomyletis and typhoid fever "yet in the literature of the subject it has deserved the opprobrious epithet of 'the White Plague'" he said.

Out of 11 kinds of milk listed by the United States department of agriculture, reindeer milk is richest—it has 22 per cent butterfat.

Modern Etiquette

BY ROBERTA LEE

Q. If a girl who is to be married has no father, but would like to have her mother take some part in the ceremony, couldn't she have her for maid of honor or a bridesmaid?

A. No; but she can have her mother "give her away".

Q. Isn't it rude to unwrap a box of candy, while at the theatre and the show is in progress?

A. Yes, it is not only rude, but inconsiderate, as the rustling of the paper cannot fail to annoy others.

Q. At a buffet meal should the women serve themselves or wait for their escorts to bring them their plates?

A. The women should serve themselves.

Q. When planning to make an informal call on a friend, is it permissable to telephone first, to be sure that she is at home?

A. Yes, this is all right, and is a wise thing to do if the friend lives quite a distance away.

Q. Should the silver be placed with the ends about three or four inches from the edge of the table?

A. No. The ends of the silver should be only a half inch to an inch from the edge of the table.

Q. When a man is introduced to a girl at a dance, is he supposed to ask her to dance?

A. Yes.

Gold production in Canada during the first ten months of 1939 amounted to 4,235,880 ounces compared with 3,877,239 ounces in the corresponding period of 1938, and 3,380,735 ounces in 1937.

Exports of planks and boards from Canada during the first eleven months of 1939 amounted to 1,963 million feet, a gain of 30 per cent over the same period of 1938.

STOP Scratching Relieve Itch Fast or Money Back

MENTHOLATUM Gives COMFORT Daily

"MIDDLE AGE" WOMEN

Thousands go thru this "trying time" by taking Pinkham's well known for helping female functional troubles. Try it!

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

Russian Contribution To Finnish Defence

The contribution was not made voluntarily, needless to say, but it is very acceptable just the same. The white-clad Finn is examining a multiple machine gun used for anti-aircraft work, particularly against diving bombers or hedge-hopping planes. It was part of the equipment captured by the Finns and later used against the former owners.

How Can I?

BY ANNE ASHLEY

Q. How can I keep the kitchen sink clean and purified?

A. Pour a strong solution of washing soda in boiling water down the sink at night.

Q. How can I peel oranges more easily?

A. Pour boiling water over the oranges and let them stand for about five minutes. When they are peeled, the white lining will come away with the skin. This same thing can be done with grapefruit.

Q. How can I treat an inflamed nose?

A. It is said that one of the best remedies for this is the application of equal parts of witch hazel and pure alcohol.

Q. How can I remove shiny spots from serge suits?

A. Try sponging the shiny spots with hot vinegar and then ammonia.

Q. How can I improve the appearance of soiled russet shoes?

A. The soiled russet shoes can be made to look like new if they are cleaned with lemon juice and then polished with a solution of beeswax dissolved in turpentine.

Q. How can I treat a tough steak?

A. Mix a small quantity of vinegar and olive oil thoroughly, rub it on both sides of the steak and allow it to stand for about two hours before cooking.
