Easter week end and the stormiest time this winter. We always said an early Easter means early spring, also sunny February means two winters. Now, what are we to expect this year, as we had a beautiful February?

Gateways from some of the private driveways to the highway would make good ski jumps, they are so high, having been filled in by the snow plow. The fields, as never before in memory, are just evenly filled all over with fence posts sticking up here and there, as there has been lots of snow but not much wind to drift the snow from the middle of the fields. In the midst of all this winter our friend, the pussy willow, is coming out. The last few days have been blustery.

This community was very sorry to hear of the accident which befel Dave Jamieson a couple of weeks age, when he lost his left arm about four inches above the elbow. He was opening a switch and in some way slipped and fell, with his arm over the rail, the train passing over it crushing it.
