"May I ask who you are?"

"Certainly, I am her brother."

"Well, well! I'm glad to meet you. I'm her mother."

HIGHER RATES ON CIRCULARS

Effective Aug.1, 1940, the half-cent postage rate for circulars mailed for local distribution to householders will be discontinued, it is announced by the Post Office Department. The new rates will be the same as those for other printed matter, namely one cent per two ounces or fraction thereof to each separate address.

The announcment was made in the weekly bulletin issued by the Post-office Department. The article claimed that the revenue derived from circulars mailed for local distribution at the half cent rate was not sufficient to take care of the cost of handling and the extra clerical work involved in making special arrangements for these mailings.
