Ashes.—Both kinds have been in fair demand throughout the week: best bills of Pots are to-day 40s 3d per cwt. Pearls close with limited demand at quotation.

Flour.—The market has ruled somewhat quiet this week, but as the receipts are quite moderate a slight advance may be noted on all kinds. The sales add up about 8,000 brls. Canada Superfine of ordinary bands has been taken to some extent for shipment at 24s 3d a 24s 6d: best brands sell at 25s. Fancy and Extra are scarce, and asked for at 25s 9d and 27s 6d.

Indian Meal and Oatmeal—Remain nominally as last quoted: the latter is scarce.

Wheat.—Two cargoes, about 12,000 bush., Chicago Spring, sold early in the week at 4s 11d per 60lbs. Several small lots of U. C. high Mixed and White brought 5s 9d & 6s.

Oats.—No shipping lots in the market.

Peas—Have been taken to some extent for shipment at 4s 2½d a 4s 3d per minot; the market is now bare.

Barley.—No shipping lots offering: it is saleable at 3s 9d per minot.

Corn.—Nothing doing.

Beef.—Prime Mess has been sold at $27 for tierces and $15 for brls, at which, however, there is only a retail demand.

Pork.—Mess has been sold somewhat below quotation, but being now all in one hand, is held firmly at $22. Small bills of new Prime Mess and Prime have been placed within range of quotations.

Butter.—The shipping demand is still of a limited nature: ordinary lots are neglected.

Tea.—Market without change.

Sugar.—The sales of the week, public and private, add up about 200 hhds. We do not alter quotations, but quote this article dull.

Molasses.—Not in much request. Holders do not seem disposed to crowd the market and are firm at a shade over recent rates.

Liquors.—Nothing whatever doing. The state of the liquor trade must be looked on as highly satisfactory, by all good temperance men.

Oils.—Fish Oils have declined and are dull. See quotations.

Fish.—Recent arrivals are going into store. A good winter's demand is expected.

Salt—Is lower in price. We alter quoted figures accordingly.

Coal.—We hear of no transactions.

Stocks.—Bank of Montreal.—The demand for "Old" has improved, with sales at 4½ per cent., prem., at which there is none offering to-day. "New" is not much asked for.

City Bank.—Is saleable at 2 per cent premium.

Banque du Peuple.—Has advanced about 3 per cent during the week; not much offering.

Commercial Bank.—Is asked for at inside quotation.

Bank of Upper Canada.—Remains nominally as last quoted.

Molson's Bank.—None offering.

Railway Stocks.—No sales to report.

Mining Stocks.—No sales to report.

Montreal Telegraph.—Sales are effected this week at 5 per cent. prem.

M. L. F. Debentures.—Are saleable at 15 discount, no sales reported.

EXCHANGE.—The Bank rate has risen to 10 premium. Private Bills are still irregular.

Opinions of the Press.

We take pleasure in referring to the virtue of Davis' Pain Killer. We have used the article and found it valuable. The sale of this article in the United States is beyond all precedent, as the books of this Office will show.—[Cincinnati Commercial.

Davis' Vegetable Pain Killer.—We first heard of this medicine during a visit to the New England States, and being struck with the novelty of the title, were induced to make some inquiry about it; and we were surprised to learn that it was kept constantly in the houses of most of the inhabitants of the cities and villages where we stopped, to be used in cases of sudden attacks of pain, burns, scalds, &c., and we heard it spoken of in terms of high commendation both by druggists and physicians.—[Philadelphia Eagle.

Perry Davis' Pain Killer.—It is a real pleasure to us to speak favorably of this article known almost universally to be a good and safe remedy for burns and other pains of the body. It is valuable not only for colds in the winter, but for various summer complaints, and should be in every family. The casualty which demands it may come unawares.—[Christian Advocate.

Valuable Medicine.—The sale of that remarkable and truly valuable preparation, Perry Davis' Pain Killer, is constantly and rapidly increasing. During the past year, the demand for this great remedy has been altogether unprecedented. Scarcely a week passes by, during which we do not hear of some remarkable cure having been performed, within the circle of our acquaintance, by the use of "Perry Davis' Pain Killer."—[Prov. Gen. Advertiser.

SPECIAL NOTICE.

FRANGIPANNI.—Mr E. W. Palmer advertises the genuine Frangipanni—a most exquisite perfume. Its name has a history which we copy from Notes and Queries:—

"There is in Rome a family bearing the patronymic of Frangipanni, as famous in Italy as the Plantagenets and the Tudors in England. The origin of the name of this family is traced to a certain office which an ancestor filled in the church—that of supplying the holy bread, the wafer in one of the ceremonials. Frangipanni literary means 'broken bread,' and is derived from Frangi, to break, and Panus, bread. Hence we have the Frangipanni puddings, which good housewives know are made with broken bread. One Mercutio Frangipanni, who lived in 1493, was a famous botanist and traveller, famous as being one of the Columbus expedition when they visited the West India Islands. The sailors, as they approached Antigua, discovered a delicious fragrance in the air. This, Mercutio told them, must be derived from sweet-smelling flowers. On landing they found vast quantities of the Plumeria Alba, in full bloom, rendering the air redolent with rich odor, and from this plant, which the present inhabitants of Antigua call Frangipanni flower is distilled that exquisite fragrance which is now so popular in fashionable circles."

THE GREATEST DISCOVERY OF THE AGE.—It seldom occurs, that we notice, under any circumstances, patent medicines, restoratives, or anything of the kind, for we have a prejudice against most of them. But candor compels us to invite attention to the advertisement of Prof. Wood's Hair Restorative in the last column at the bottom of the third page of this paper. We are too juvenile to require anything of the kind, but some instances of its use have come to our knowledge which almost assures us that it is a sovereign remedy against the hair becoming prematurely gray. It is not a "Hair Dye;" but upon its application as directed the effect is produced on skin, which brings out the original native colored hair, without stiffness, and gives it a glossy and natural appearance. We have seen persons who have used it, and they are much pleased with it. Examine the advertisement.—[Missouri Republican. Sold by all respectable Druggists. 186

☞ There are plenty of young gentlemen as well as plenty of old ones, whose beards are turning gray, which gives the former a great deal of uneasiness, and exposes the age of the latter. To avoid these little perplexities we advise such of our readers to use Prof. Wood's Hair Restorative, which will in the course of a few weeks, change the hair to its natural color. It does not dye the hair like most of the hair restoratives, but produces a gradual change of color from the roots of the hair to the final end, and gives it a fine and glossy appearance. We have seen many persons who have used it successfully, and pronounced it the only invention which had come up to their idea of a "cure for gray heads." We commenced using it about two months since, and if we are any judge of age and beauty, it has made us ten years younger; in fact we are beginning to look quite young, and feel very much like getting a young wife. The change is miraculous, and it would be as difficult to find a grey hair now as it would be to find an idea in the head of the Duke of Buckingham. We know several old maids and some young widows, whose locks are beginning to assume a silvery hue, and who have been talking seriously about resorting to this remedy, and we advise them not to delay any longer. It never fails.—[St. Louis Herald.

Our native forests furnish us with Nature's own remedy for all lung complaints. Dr. Wistar, in his Balsam combines the essential qualities of the Cherry Bark with Tar Water. It has cured many cases of seated consumption. 229

IT IS NOT OFTEN THAT WE NOTICE editorially a patent medicine; yet we feel it a duty when we are convinced an article is very meritorious to inform the public, that they, too, may be benefited by its use, and to prevent them from using other articles that have no merit in them.

Now we wish particularly to recommend to our readers, Dr SANFORD'S LIVER INVIGORATOR, as an article that has given benefit and performed cures, in our circle of acquaintance; that were little less than astonishing. It is particularly recommended for all Diseases of the Liver, as it is a *Liver Invigorator*. Especially among our own children have we noted its beneficial effects, where the little sufferers, from bowel complaint, worms and other diseases, incident to children, have been made quiet and perfectly cured by the use of this article. It has testimonials that none can doubt, for the cure of Jaundice, Dyspepsia and such troubles as always follow a deranged Liver. A few such cases have come under our observation where it seemed almost to work miracles.—[Alatoona Sentinel.

A LIVER REMEDY.

The Liver, according to Physiologists, occupies in our human economy a place second only to the heart, and consequently is one of the greatest dispensers of health and happiness or sickness and disease. To keep the Liver in a proper performance of it duties is, to keep the system in a state of health, and free from nearly all bodily ills. DR. SANFORD'S INVIGORATOR is a Regulator of the Liver. It instills into it new life and vigor, strengthens it and invigorates it, curing the fountain from whence so many streams of sickness flow. We say to all who are troubled with any derangement of the Liver, such as Dyspepsia, Jaundice, Sick Headache, Biliousness or debility of system, do not fail to try DR. SANFORD'S LIVER INVIGORATOR. 233.

A BEAUTIFUL COMPLEXION.—This personal charm all may possess by using the Persian Balm as the toilette. Tan, pimples, freckles, sunburn, and all eruptions, vanish before its magic power. Try it.

I have used Davis' Pain Killer in my family for several years, and take great pleasure in recommending it as a valuable medicine, that should be kept in every family.

We cannot refrain from calling the attention of our readers to an advertisement in this day's paper of the "Hair Restorative" of Prof O. J. Wood & Co., of St. Louis. It will be seen that he has numerous certificates from persons of the highest character, to the merits of his Restorative. From positive knowledge we are also enabled to say, that it is in every sense what it professes to be, and we do not hesitate to pronounce it the finest preparation for the head and hair which has so far been devised by human ingenuity. We have seen it arrest threatened baldness, and restore to the head its original profusion of natural and glossy hair, and when the latter has been prematurely tinged with gray, we have seen it like magic, restore the colors of youth and health. The distinguished propriety of this, we might truly say, miraculous "Restorative," is that it gives to the person who uses it, the same head of hair that they wore in youth, thus acting in strict compliance with the rules of the first and greatest of all toilet makers—Nature. No one who has used it will hesitate to unite with us in this testimony to its peculiar merit.—[Covington (Ia.) People's Friend.

Sold by all good Druggists. 233.

WOOD'S RESTORATIVE.—Of all the restoratives for the hair that have been invented, Wood's pre-eminently claims the first place. It will certainly restore the natural color of the hair, if the directions are followed for a sufficient length of time. It also has produced astonishing effects in bringing out a growth of hair, where the head had been previously bald. Wood does not pretend that it will do this in all cases; and we think his candor is a good recommendation of the virtues which his restorative really possesses. If the roots of the hair are destroyed, no human power can make them grow again; but where there is any vitality left in the root, the restorative will soon renew the hair in all its pristine vigor. It has done this repeatedly when all other remedies had failed. It is therefore worth while in all cases to make the experiment. For clearing the head of dandruff, and thickening and strengthening the hair it has no rival.—[Western Patriot.

HOLLOWAY'S PILLS.—Depression of spirits and a disposition to look on the gloomiest side of every subject are mental affections born of bodily ailments. The condition of the stomach has much to do with the action of the brain, and hence dyspepsia not unfrequently leads to confirmed melancholy, madness and (sometime) suicide. If Holloway's Pills were universally administered for diseases of the digestive organs, these sad consequences would never ensue. That they are prevented in thousands of instances by the use of that incomparable restorative is beyond all questions, and it is strange that with this fact before the world, and supported as it is by volumes of testimony, any dyspeptic who can read should risk a danger so easily obviated. 226-1w

A PERFECT CURE, AND NO MISTAKE.

From the Editor of the New York Mirror, Aug. 9.

About four weeks since, one of the compositors of this office was suffering so badly from a cough that he was unable to sleep nights, and too weak to stand at his case. He became very pale and thin, and gave symptoms of falling a victim to quick consumption. We recommended to him various medicines, which had no effect. Finally, we gave him one bottle of Wistar's Balsam of Wild Cherry. It afforded him immediate relief, and he is now a well man, and not the slightest symptom of a cough. These are facts, and further particulars may be learned at this office. We should add that the cough in the above case was accompanied by profuse spitting of blood.

THE MOST POPULAR BOOK OF THE DAY IS
MABEL VAUGHAN,

The new Tale by the Authoress of "The Lamplighter," almost universally pronounced "ONE OF THE MOST SUCCESSFUL WORKS OF FICTION EVER ISSUED IN THIS COUNTRY."

One of our best Critics says:—

"It is a charming story, to which the character of Rose gives the same interest and beauty which little Gertrude and the old Lamplighter gave to the author's first production; while, considered as a piece of literary mechanism, it is more finished and better sustained. The interest of the story does not flag, and its arrangement and execution is far in advance of 'The Lamplighter.'"

THE GREATEST
MEDICAL
DISCOVERY
OF THE AGE.

MR. KENNEDY, of Roxbury, has discovered in one of our common Pasture Weeds, a remedy that cures EVERY KIND OF HUMOR, from the worst Scrofula down to a common Pimple. He has tried it in over eleven hundred cases, and never failed except in two cases, (both bloated drunkards.) He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two are bottles warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two or three bottles will clear the system of biles.

Two bottles are warranted to cure the worst kings evil in the bones and stomach.

Three to five bottles are warranted to cure the worst case of erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two to three bottles are warranted to cure the worst case of ringworm.

Two to three bottles are warranted to cure the most desperate case of Rheumatism.

Three to four bottles are warranted to cure salt rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Chatham, N. H., Dec. 15th, 1855.

Dr. Kennedy—Dear Sir: In hopes to be a benefit to my fellow-man, I write to you what your Discovery has done for me.

In December, 1839, I was taken with the Rheumatics; since then, I have suffered every thing but death for fourteen years.

I have paid $800 to different doctors, and never received any benefit, not even to the amount of one dollar.

Last June I heard of your Discovery. I told a man I would try it. He said I had tried everything and there was no help for me, I was so old, being 78 years of age. He was a good doctor, so called. I told him nothing ventured nothing made.

I got one bottle of your Discovery. Before I got it I heard the clock strike every hour for five nights. On the fourth night I took one spoonful, and the next morning I was in no more pain—no more than a child two years old, and have been gaining ever since. I am now, Dec. 15th, 1855, on my seventh bottle.

When I first took any of it I had to walk or hobble on two crutches; this day I can go and have gone over the floor without any crutch or cane, but I am yet weak in my hips; but I feel better every bottle I take.

If I had a sheet four feet square, it would not hold one half I could write. Had I the voice to be heard from the North to the South pole, I would proclaim it as long as I live. It is cures me it will any one in God's world.

You would not believe how much better I feel. I am now almost a new man made out of an old one.

There have been over 200 people to see me since I began to recover,—they are surprised. One man said, if all the men in Chatham had told him what his eyes now saw, he would not have believed them; but he must believe his own eyes.

ABRAHAM WEBB,
South Chatham, N.H.

CURE OF A HUMOR OF 14 YEARS' STANDING.

Mr Kennedy—Dear Sir: I address you with feelings of heartfelt gratitude for the wonderful cures your Medical Discovery has done on me.

For fourteen long years I suffered with a humor of the most distressing kind. It would break out, covering my body with sores and blotches, out of which oozed thick yellow matter of the most offensive kind. I was an object of disgust to myself and every body else. When it began to dry up a little, it would irritate and smart. I often felt that I could tear flesh off the bone; in this state I suffered during them long years, disconsolate and despending of relief. Every winter the skin came off my face and the hair of my eyebrows came out by the roots. My ears looked like roasted meat, dry and black as a crisp, that I was an object of pity to all that knew me.

When I look back upon it I can hardly think that I am myself. When your Discovery first came to Maine, I looked upon it as a humbug and set myself against it; after a few months I heard of so many wonderful cures by it, that I concluded to try once more. I could hardly believe it when I was getting better. You will excuse me when I tell you that I was the last to believe it. It seemed so impossible that I could be cured.

I took in all five bottles. I am now as well as I ever was in my life.

BENJAMIN SMITH, Atkinson, Me.

Charlestown, March 22, 1855.

Mr. Kennedy; Respected Sir—It is now two years since I began to use your Discovery, and feeling that my health has been greatly improved by the use of it, deem it my duty to inform you how much I prize your valuable medicine. I had for a number of years been troubled with the Erysipelas, and having used a great many advertised medicines without success. I had almost dispaired of ever recovering from the disease, when one day a friend gave me one of your Circulars, and after pursuing it, I resolved to embrace the first opportunity I had in purchasing two bottles of the medicine. After using it, I found my health was improving; and since then I have continued the use of it in my family. It gives me great pleasure to certify to this, and it is my impression that through your instrumentality a great deal of human suffering will be relieved.

I am dear Sir,
Very respectfully yours,
JOS. T. HART.

Boston, Dec. 8, 1855.

Mr. Donald Kennedy.—Respected Sir: The first impulse of a man who has been restored from sickness to perfect health, is gratitude to the hand that has healed him.

Although personally you are unknown to me, and this correspondence is unsolicited by you, still I feel it a duty I owe to you as the discoverer of the "Medical Discovery," and to the public generally, to make a fair statement of my experience in the use of your valuable medicine.

At the commencement of the present year, and indeed for some months previous, a terrible Scrofulas humor broke out upon my neck—large swellings ensued, so that my neck and face presented an even surface. I was then at Lowell, Mass., and hearing of your "Medical Discovery", I purchased a bottle. I felt that it was benefiting me, and upon using a second bottle found myself perfectly cured. All I can say is, that whereas I was sick now I am well. In all gratitude I remain, yours truly,

J. L. CLARK,
23, Lowell street, Boston.

CURE OF BOILS AND CONSTITUTIONAL HUMOR.

Mr Kennedy—Sir,—You know the condition in which I was when I began your medicine, I don't think you ever saw a worse case. I had boils in regular crops one after another in succession, frequently from two to three dozen at a time. By the use of your wonderful medicine, I got quite clear of them. I gave the medicine also to my children, and I consider it to be true to its name—the greatest medical discovery of the age.

JAMES CARPIS, Quincy.

Dr. Kennedy's Medicine—We are requested by Major Doughty, of Greenwood, in this county, to publish the following fact in relation to Dr. Donald Kennedy's wonderful Medicine.

Major Doughty states, that his wife was afflicted with a fever sore on one of her ankles, for about twenty five years,
