Have You Ever Noticed?

A friend of ours during a conversation the other day esked whether we had ever noticed that all climbing vines in the country always circle to the right. We had to admit that so far as we were concerned they might be climbing in any and every dir-ection but a casual examination of all vines close at hand the following day revealed that our informant was right. Just why plants always go this one way has not been explained to us but our informant did tell us that south of the equator they climb in the opposite direction. Next time you are out among climbers examine them to see if this is correct.

It is well to take things calmly, but there is a difference between calmness and indifference..

50 Potatoes In One Hill

Potatoes are a rather plentiful crop this year, but we doubt if anybody can beat the record compiled by Mr. Fred Heft of Chesley, who found no less than 56 potatoes under one hill. They ranged in size from an egg to the size of a marble, and, when Fred found such a large number turning up, he thought it might be well to see just how many there were, so he saved a basket for this particular hill and, after having all of them dug up, he counted the number in the basket and it came to 56. After such yeild it might pay Fred well to buy potatoes for his own use and save the ones he grew for seed, as there will likley be a big demand for them.—Chesley Enterprise.

Pat and Mike were watching some bricklayers at work one day, and Pat asked: "Say, Mike, what is it that holds the bricks together?" Mike: "Sure, that's easy. It's the mortar." Pat: "No, Mike, mortar keeps them apart."

A CHALLENGE TO CANADIANS

THE MOST WE CAN GIVE WILL NEVER EQUAL

Their Gift to us

Emergency Call for $5,000,000

OUR MEN GIVE ALL . . . fireside, family, friends, careers. They hold nothing back. Unasked, but stirred within by the urge of manhood and pride of race, they go forth bravely to face hardship, loneliness and danger, to risk life itself, in a great cause.

It is your cause for which they fight. You are not asked to give your own life — but you can help to save one.

The Red Cross, of glorious tradition, unchallenged in purpose, needs your help so that it can answer tanks with ambulances, bombs with beds, horrors with hospitals, cruelty with mercy.

Those of us at home will not be less loyal, less generous than our fighting men. We can remind them daily of our gratitude and our devotion, through the Red Cross.
