HERE'S WHY:

Flo-glaze Paint is made with a specially treated linseed oil which makes it flow evenly and smoothly and *leave no brush marks.*

Brush marks are really hundreds of tiny grooves in a paint film. These grooves collect and hold dirt, which spoils the appearance of your paint job, and may cause early peeling and cracking.

When you paint with Flo-glaze there is no place for dirt to lodge on the perfectly smooth paint film, and any surface dust is washed clean by the rains.

Flo-glaze has good covering and hiding powers. Keeps fresh-looking for long years of wear. That's why we say it "has what it takes to give you a real job!"
