A couple of suspicious looking characters one a soldier in uniform, passed through this community about ten days ago and caused considerable excitement in the district. They were first seen at the Frank Davis' Corner where they drove their car at a high rate of speed down a blind trail toward the valley. Reaching the end of this they opened a gate and drove over rough land and down through a bush to the top of the rocks where they threw something over the cliff which is about 120 feet high at this point. They then proceeded to the store at Vandeleur where they got some gas and then dashed away without paying for it.
