## THE CANADA LIFE ASSURANCE COMPANY.

Incorporated by Act of Parliament.

THIS COMPANY is prepared to grant *Assurances on Lives*, whether single or joint, to sell *Annuities*, to purchase *Reversions* and to transact all business in which the risk of Life is concerned.

Tables have been expressly calculated from the most accurate data; and the Company is enabled, from its small expenditure, and the high rate of interest that money commands in Canada, to offer terms of Assurance much more favourable than the low rate of interest attainable on investments by British Companies and their generally large expenditure can with any regard to safety admit of.

*An exact statement of its receipts and expenditure* is annually published by the Company and forwarded to all who may be interested.

Of no other Life Assurance Company can it be said that *it invests all its funds in Canada*, and that it does not consequently contribute to the immense sum of money which is yearly sent out of the Province to pay British or Foreign Companies for that, in which (and this is nearly a solitary instance) neither Great Britain nor the neighboring States can fairly offer competition.

To parties who may at any time feel disinclined or unable to continue the payment of their premiums, this Company will grant Policies, payable at death, fairly representative of the value of such payments as they may have made, and it further engages to purchase policies for an equitable consideration after five or more full premiums have been paid thereon.

Three-fourths of the profits realized in the Mutual Branch are yearly divided amongst the policy holders thus assured.

A peculiar feature of the Company is that it is not desirous to make profits by lapsed Policies.

Tables of Rates, forms of proposal, and all other information may be obtained at the Head Office and Agencies.
