A SPECIAL PROCESSION Saturday afternoon, with a historic birch bark canoe and representatives "of First Nations, the farming pioneers, the many educators and staff and the thousands of children" who have used the site, kicked off the Grand Opening Ceremonies of the new facility at the Institute for Outdoor Education and Environmental Studies. Also, on Friday evening, a special reception was held including tours of the new building, and recognition of major donors. The facility is located between Oliphant and Wiarton.

OPENING of OUTDOOR EDUCATION Centre, OLIPHANT
