THE TESTIMONY OF SCIENCE

As to the virtues of Dr. Corbett's Concentrated Syrup of Sarsaparilla.

This sovereign remedy of disease is prepared by Dr. Corbett of the Shaker Society, Canterbury N. H. who, through a long life has made Diseases of the Blood, Scrofula, Taint, Consumptive Habit, Cancerous Affections, and all Chronic Troubles, his special study. The result of his researches were twice given to the Medical Faculty of New Hampshire and other States, and afterward to the ablest Professors of Medicine Physicians, Chemists, &c., in the country. The expression of opinion has been uniform, that it is the most efficacious Preparation for the above disease yet known

The following is conclusive as to this:—

[From E. R. Peaslee, M. D., Professor of Anatomy and Physology, Dartmouth College, and Professor of Anatomy and Surgery in the Medical School, Brunswick, Me.]

Hanover, N. H., Dec 23, 1847.

"I first became acquainted with the Compound Concentrated Syrup of Sarsaparilla, prepared by Dr. Corbett, of the Shakers' Society, somewhat more than four years ago, at the time he made its precise composition public to the members of the New Hampshire Medical Society. It was at once believed that the formula then published by Dr. Corbett could not fail to prove a most valuable remedy in all cases in which the peculiar effects of Sarsaparilla are required. This expectation has, on trial, been fully realized. It has peculiar efficacy in certain diseases of the skin and of digestive apparatus, and in scrofulous conditions generally. The ingredients added to the sarsaparilla itself, of which it contains more than the other preparations I have used, increase its alterative effects, and render it diuretic and in most cases slightly laxative also. I recommend it to practitioners of medicine as superior to any Syrup of Sarsaparilla I have yet tried in cases requiring the administration of this remedy—none but physicians being in my opinion competent to distinguish the precise conditions in which it is really indicated.
