VANDELEUR

Two Farm Radio Forums have been organized in this community, and in common with scores of other Forums across the country, listened to the broadcast on Monday evening of last week on the subject "The Farmer Must Live." The Vandeleur Centre Forum met at the home of Mrs. Ethel Hutchinson. Howard Graham outlined the object of the Forums and a lively discussion followed. In the words of one farmer "Times are better. We are getting more for our produce, and even though we are paying it out again in the increased cost of living, labor and machinery and for repairs long overdue, we at least have the thrill of handling the cash." That seemed to be about the consensus of opinion. The meeting this week will be at the home of Mr. Andy Fawcett.

A Forum has also been organized in the south end of the community and met at the home of Mr. George Buchanan. There was a good attendance and a splendid discussion followed the broadcast. We understand one or two other Forums will be organized in the district.

SAVING IS SERVICE

Canada's strength is your strength, yours and your fellow citizens. By saving you can turn your strength into effective power for war or peace.

Saving is more vital now than ever before.

It's wise to anticipate the needs of tomorrow, rather than satisfy the impulses of today. You acquire a thrift habit, bringing a *constructive* force into your life and in a broader sense—into Canada as a whole.

Save all you can—it's the urgent thing to do!
