Inspired by Astronomy

Working together to
build an Observatory at
the Institute for Outdoor
Education and
Environmental Studies

Help us reach for the stars!

The Institute for Outdoor
Education

and Environmental Studies

It's a Natural!

On the doorstep of the Bruce Peninsula, nestled on 128 hectares of land within the UNESCO-designated Niagara Escarpment World Biosphere Reserve, *the Institute for Outdoor Education and Environmental Studies* provides the ideal location for environmental learning in Southwestern Ontario.

Serving the communities of Bruce and Grey Counties, the IOEES puts elementary and secondary students in direct contact with the natural world through innovative programming and hands-on experiences. Newly-constructed dining and accommodation facilities and the 3000-square-foot *Bruce Power Environmental Learning Centre* are perfectly suited to community gatherings, corporate retreats and private groups. Surrounded by lakes, fields, marshland, swampland and mixed forests and an exquisite dark sky overhead, it's the ultimate classroom for environmental studies!

Contact us at 519-534-2767 or visit us on the web to find out more about our services and facilities:
