

Raising chicks

APRIL 29

Gateway Haven residents Faith Rollinson (left), Dr. George Atkins and Harriet Skene show a few of the baby chicks they have been looking after. Gateway workers standing with them from l-r are: Melanie Gilbert, r&c leisure, Leila Duff, Sharon Newman and Penny Brough, restorative care co-ordinator. The 12 chicks in total were recently donated by Barry and Sherry Cornfield to Gateway for a few weeks. They were three days old when they first arrived and the residents at the home have been feeding and looking after them. The residents would like to thank Administrator Charles Young for being so involved and ensuring their home is a great place to be, and would also like to thank the Cornfields for the amazing experience. **Photo by Hayley Kennedy**
