Some excitement occurred at the curling rink Thursday evening last at about 11 p.m., when the pressure suddenly went from the hose as J. O. Dargavel, president of the Club, was busy flooding the ice. Investigation showed that the pump house at the river was a mass of flames. It is thought that the back-fire from the gasoline engine ignited the frame building. As the pump house was isolated there was no danger during the fire, which was over in a few minutes.

THINGS THAT NEVER HAPPEN IN CHURCH

Ushers calling for help in carrying the offerings.

Ministers insisting that the people attend only one service each Sunday in order to make room for others.

A dozen people asking the minister for some really definite work to do during the week.

A dozen families asking the ushers to place them on the front seat.

Everyone in the audience reaching for a hymn book, when the number is announced, and then singing heartily.

Every head reverently bowed during prayer.

A choir that does not find a single thing to whisper about during the service.

No whispering or reading during church.

No one who hears Mr. Churchill pronounce "Nazi" can help linking it up mentally with 'nauseous."

What a drama is life! Pictures are now showing women in Russia returning to their farms and home sites which were over-run by the Huns who have since retreated, leaving desolation and ruin. Out of the wreckage of yesterday humanity starts at once to rebuild today for the unknown tomorrows.
