COUPONS FOR GAS RATIONING

"Fill her up" will become an unfamiliar phrase when gasoline rationing goes into effect in Canada on April first. For each coupon the service station attendant detaches from your book, shown here, he will deliver one unit of gasoline. If you want only half a unit, the seller can bisect a coupon along a perforated line. When the plan was first announced it was thought a coupon would be for five gallons, but the shortage is becoming more acute and no one can predict how much it will represent.

Modern Etiquette

Questions

1. What type of social letters always demands a prompt letter in reply?

2. When dancing with a girl and one notices that her slip is showing below her dress, should one tell her?

3. Does the bereaved family issue invitations to a church funeral?

4. What is the correct thing to do if a mistake is made in one's order when dinng in a restaurant?

5. Is it necessary to introduce children to adults?

6. Is one suposed to leave one's card at a wedding reception?

Answers

1. Any letter which invites one to attend an affair of some kind. If asked by one to attend a dinner, supper, or even breakfast, or to spend an evening playing bridge, or to go for an automobile drive, a note of acceptance or regret should always be written promptly. The telephone should never be used for replying to this type of invitation. 2. Yes; tell her without making it sound like a calamity and she will thank you and mean it. 3. No. 4. Tell the waiter in a courteous manner, and try to attract as little attention as possible. 5. Yes, it is good training and they should be taught at an early age how to acknowledge an introduction properly. 6. No, it isn't necessary.

HOW CAN I?

Q. How can I clean tarnished French jewelery.

A. French jewelery that has become tarnished can be cleaned and polished by using any good toothpaste.

Q. How can I prevent crumbling when slicing hard-boiled eggs?

A. The slicing of hard-boiled eggs is more easily done with a knife which has been dipped into boiling water and wiped dry. This eliminates any cracking or crumbling. Repeat as often as the knife cools.

Q. How can I make the basement floor more attractive?

A. Many people keep their basement floors in excellent condition by painting them with deck paint. This paint comes in varied colors and is a fine resistant to dampness, besides adding to the attractiveness of the basement.

Q. How can I make a good toilet perfume?

A. A good toilet perfume may be prepared by putting into a bottle two ounces of alcohol and one-half ounce orris root; cork tightly and shake well.

Q. How can I relieve heartburn?

A. A pinch of soda dissolved in half a glass of warm water often does much to relieve heartburn.

Nice War

London heard that the Russians are using a new secret weapon. It is a pump driven by an electric motor, which squirts cold water upon the Germans who are quickly covered with ice, in the below-zero weather.

Sewing and washing machines, vacuum cleaners, toasters, grills and scores of other appliances will soon become very scarce owing to restrictions on steel.

ONTARIO

NOTICE TO TRUCKERS

HALF-LOADING REGULATIONS

Copy of an Order-In-Council approved by the Honourable the Lieutenant-Governor dated the 3rd day of March, A.D. 1942.

Upon the recommendation of the Honourable the Minister of Highways and Municipal Affairs, the Committee of Council advise that, pursuant to sub-sections 3 and 4 of section 35 of the Highway Traffic Act (Chapter 288, R.S.O. 1937), the provisions of the said sub-sections be declared to be applicable to the King's Highways described on Schedules A and B attached:—

- Eglinton Avenue, Dawes Road to Scarboro

SCHEDULE "B"

All roads lying north of the Severn River and north of Highway 7 from Sunderland Corners to Perth and north and west of Highways 15 and 29 from Perth to Arnprior, with the exception that this will not apply to Highway 17 from Arnprior to Pembroke.

Toronto, Ontario, March 6th, 1942.

RECTAL SORENESS AND

PILE TORTURE

QUICKLY RELIEVED

If you are troubled with itching piles or rectal soreness, do not delay treatment and run the risk of letting this condition become chronic. Any itching or soreness or painful passage of stool is nature's warning and proper treatment should be secured at once.

For this purpose get a package of Hem-Roid from any druggist and use as directed. This formula which is used internally is a small, easy to take tablet, will quickly relieve the itching and soreness and aid in healing the sore tender spots. Hem-Roid is pleasant to use, is highly recommended and it seems the height of folly for any one to risk a painful and chronic pile condition when such a fine remedy may be had at such a small cost.

If you try Hem-Roid and are not entirely pleased with the results, your druggist will gladly return your money.

HELP STOP COUGHS COLDS FAST . . EASY

The new improved Buckley Formula is all medication — no syrup — acts faster on coughs and colds—gives you more for your money. But be sure it's the genuine . . .

BUCKLEY'S MIXTURE

Have You Heard?

Moths can't grow big because they eat only holes.

In Holland they use water-power to drive their windmills.

Silence is what you don't hear when you listen.

Compliment is when you say something to someone which he and we know isn't true.

Double-dealing is when you buy something wholesale to sell retail.

An antique is something no one would be seen with if there were more of them, but which everyone wants when no one has any.

A Scotsman was leaving on a fortnight's business trip and called back as he left home: "Goodbye all, and Katherine dinna forget to mak' leetle Donald tak' his glasses off when he's looking at naething."

A Lancashire man and his wife found a gas bill on the footpath when they were out for an evening stroll. The main picked it up.

"I'm going to pay this 'ere bill, Maggie," he said.

"What do you want to do that for?" his wife demanded. "It isn't yours."

"No," he replied, "but there's three and ten discount, and I might as well have it as anybody else!"

"Yes, my wife gets more out of a novel than anybody."

"How's that?"

"Well, she always starts in the middle, so she's not only wondering how it will all end, but how it began."

Stories continue to dribble from the fall manoeuvre area in the South, says Collier's. Latest to reach us concerns the Negro driver of a Camp Croft (S.C.) quartermaster truck who was being quizzed by a Carolinan. "These blackouts are tough, aren't they?" asked the citizen. "Yas-suh," said the driver. "Specially at night."

Fay—Mrs. Dashaway's husband didn't leave her very much when he died, did he?

Ray—No, but he left her often enough when he was alive.

Old Gent: What does your father do for a living, sonny?

Tommy: He chops down trees.

Old Gent: And what does he do when he has chopped them down?

Tommy: He chops them up.

"How many of your girl friends are in our little secret?"

"Six, all told."

"They would!"

Nazis Could Bomb Canada With Ease

A young Belgian artillery officer who was a Nazi prisoner in Belgium claimed that Canada is within easy range of German bombers based in Norway and that Canadians should not feel they are safe from the horrors of war.

Thirty-year-old 2nd Lieutenant Nicolas Van Stein, now serving with the Belgian army unit at Joliette, Que., said in an interview that Nazi four-motor bombers now stationed in Norway could fly to Halifax and back with ease and have available a good amount of time to locate targets for their bombs.

Portable Dwellings For War Workers

Trailers and dormitories to be made available for temporary war housing by the Farm Security Adminstration of the United States of $13,000,000 will provide 12,269 dwelling units for workers in 24 war industry areas, the Department of Agriculture announced.

The trailers, the Department said, will be camouflaged, will be equipped with blackout curtains and will be set up on wooden supports so that the wheels and tires can be removed for use in moving other units.

There are 9,000 facets in the eye of a June bug, while some insects have as high as 25,000.

DEAFNESS!

LEONARD INVISIBLE RUBBER EAR DRUMS helpful in many cases. Sold since 1907. Send for special $2.50 trial offer and recommendations of satisfied users everywhere. Write A. O. Leonard, Suite 12, 5 Bloor Ave., Toronto.

Relieves distress from MONTHLY

FEMALE WEAKNESS

Lydia E. Pinkham's Vegetable Compound not only helps relieve monthly pain but also weak, nervous feelings—due to monthly functional disturbances. It helps build up resistance against distress of "difficult days." Made in Canada.

What Science Is Doing

LOCOMOTIVE WHEELS FASTER THAN TRAIN

Those things which were hard to believe about swift motion, like the scientists' story that a locomotive wheel can travel faster than the train, can now be seen in pictures taken by the Massachusetts Institute of Technology's multiflash.

The photos are stills, but there are so many of them, that every bit of motion can be measured to a millionth of a second.

The outer rim of a locomotive wheel is shown to travel at the top of its revolution just twice as fast as the locomotive. It is slower by the same ratio at the bottom of its turn.

In the pictures it looks as if just at the point where the rim touches the track it is standing still. That is what the scientists say happens. This standing still, however, is not relative to the rail, but to the train's forward motion, as Einstein would say.

A ball dropped straight down, and one shot out horizontally from the same point, can be seen falling toward the earth under gravity's pull at exactly the same rate and time.

A ball bounced up, if not too light weight, slows down instant by instant, and when it starts to fall, picks up at the same rate it stopped, until it is traveling with its initial velocity when it reaches the starting point.

—o—

TOOTH RINGS

Teeth have growth rings, just like trees; they are found in the enamel and dentin, which are the two outer layers of the teeth, the construction of which begins three to five months before birth, says Pathfinder. Dr. Isaac Schour, University of Illinois scientist, has been able to trace periods of illness and malnourishment in children by a study of the microscopic "tooth ring" layers.

—o—

WASHERS

Faucet washers of synthetic rubber are now made which are said to outlast natural rubber washers many times, particularly in hot water faucets subject to much use.

Ontario Marksmen Win High Awards

Three Ontario marksmen, D. Coburn of the Little Long Lac Gun Club, Geraldton; Hugh McArthur, Bramshott Rifle Club of Orillia, and F. B. Yeats of the Timmins Rifle Club, have succeeded in gaining one of the highest distinctions in sporting rifle marksmanship in Canada — the EXPERT SHIELD AWARD — it is reported from the headquarters of the Dominion Marksmen organization in Montreal. Mr. Coburn is the Secretary of the Little Long Lac Gun Club and is the first member of the club to win this high honor.

Scores of 5914, 5900 and 5915 respectively were posted by these marksmen out of the possible 6000 points. It requires outstanding marksmanship to post a score better than the necessary minimum of 5860 points of the possible 6000 in this competition in which each marksman must shoot 20 targets from each of the standing, sitting and prone positions.

To Shift Millions In U. S. War Work

Serious Shortage of Manpower Seen in United States

Americans needn't be surprised if some time in the next year or two they have to pull up stakes and go to work in a war industry.

The United States is headed for its most serious manpower shortage.

Some say as many as 10,000,000 housewives and non-defence workers will have to be transferred to war industries. Other estimates of the number who will have to change jobs run even higher.

Here's the picture as reported by sources familiar with the manpower requirements of the United States:

The army and navy need at least 5,000,000 more men.

War industries at full pace will require about 10,000,000 additional workers.

The number of persons looking for work in December was reported by the National Industrial Conference Board as slightly more than 3,000,000.

This number, however, is hardly important since the labor force on farms is at its lowest during the winter. About 3,000,000 workers normally are taken on by farmers between now and June. If they use that number this year—and they probably will if they can get them—unemployment this summer will be pretty close to zero.

One ounce of radium is the product of 14,000 tons of ore.
