

I feel it has been quite a worthwhile project, it has been a good service to campers and has also given our members a good income over the years and is certainly a valuable piece of property now.

And I would like to report on January 28th we interviewed a couple from Cambridge and they have put a tender in for \$8,000.00. The woman is a sister of Doris Eaton (Art & Ruth Bagg), if all goes well we'll hire them for the coming season. He retires on April 6th from his work and is wanting something to do. Incidentally they use to be good friends of Bert & Jean Henderson and have camped at the park often. We also purchased a new stove and are going to do some redecorating in the living quarters.
