Farmer Co-Operation Requested Regarding 1944 Seed Grain

Due to the partial failure of 1943 oats and barley crops in the Province, the Ontario Department of Agriculture this week is taking steps in an effort to assure an adequate seed supply for 1944. The Department is requesting the co-operation of growers in planning now for their 1944 seed needs and reporting individual requirments to county agricultural representatives by November 15th.

Hon. Thomas L. Kennedy, Minister of Agriculture, in commenting on this measure, states: "What the Department of Agr ulture would like farmers to do is secure whatever possible good seed of suitable varieties for their 1944 sowing needs. All oats and barley suitable for seed from the 1943 crop and any held over from 1942, should be cleaned and offered for sale as seed. Farmers should offer their surplus seed first to neighbors and advise their Agicultural representatives of any not sold by Nov. 15th. Do not feed grain of seed quality. If necessary, replace it with Western feed grain. Farmers are advised to buy seed grains early and if unable to obtain suitable seed, advise their Agricultural Representative not late than Nov. 15th. This will enable us to estimate the reqtirements for each district, so that there will be ample seed grain for everyone."

It is further suggested that Directors and members of County Crop Improvement Associations can become actively interested in the movement and supply of seed grain, thereby contributing valuable assistance in a situation which demands serious and immediate action on the part of farmers all over the Province.

Subscpiptions Given In 5th Victory Loan

The Fifth Victory Loan will be away to a flying start on Monday of next week and it is confidently expected that if everybody ubscribes to the loan that the objective set for Osprey, Artemesia and Flesherton will again be oversubscribed. Already advance ubscriptions have been given by the following: Osprey Township $6,000.00, Artemesia Township $5,000.00, Village of Flesherton $1,000.00, Flesherton Cemetery Commission $500.00. The objectives are: Osprey Township $80,000.00, Artemesia Township $100,000.00 and Village of Flesherton $40,000.00.

We all just cannot sit back and let the other fellows invest their money in the loan with the complacent expectancy that the loan will go over the top without our help. Every one of us has to invest omething, ever as low as $50.00, but bonds of higher denominations are needed to swell the total. Speed Victory by loaning your money to conduct the war.

The canvassers operating in the Municipalities of Osprey, Artemesia and Flesherton are: Messrs. G. A. McTavish, W. E. Betts, J. A. Richards, H. W. Kernahan and Chester N. Long. Tell them at once about the money you have to invest.

FARM SALES REFLECT SCARCITY OF MACHINERY

Lucky is the farmer nowadays who is well equipped with machinery and who is not forced to bid for it at the auction sales. Lucky, for that matter, is any individual or firm whose machinery is adequate for its needs. In many cases a shortage of machinery means there will be no replacement until after the war. With the farmer, however, he can attend an auction sale and pick up almost any kind of farm implement—if he is satisfied with the price he may have to pay for it—and if he is satified to take a chance on this second-hand machinery. And that's the rub!

There is no "ceiling" on what one may pay at an auction sale. There is, however, a ceiling on second-hand machinery when purchased through a dealer. There may be a lesson here. Were it not for the price ceilings it is possible buyers would be at the mercy of unscrupulous manufacturers and there would be no help for it. At an auction sale it is different. If the price is too high you don't have to bid, but this is little comfort to the many who needs a machine and has to have one.

Farm machinery is selling well just now at auction sales. This may reflect the scarcity, but also shows that the farmer who needs it has the money to pay for it, for most auction sales now are run on a cash basis. — Durham Chronicle.

Curtailment Of News Print Firmly Expected

A large number of subscriptions to The Advance come due at this time of the year and we urge our subscribers to renew their subscriptions promptly. Reports from the board controlling paper is to the effect that paper supplies have been reduced in quantity and a curtailment of circulation by newspapers will likely go into effect. If done so it will mean that those subscriptions not paid in advance will be the ones to be dropped from our circulation lists. Some time ago the government announced that all subscriptions were to be paid in advance and since that time many have paid up. There are others, however, who have not paid any attention to notices sent them or to the requests through these columns, but the time has come when other tactics will have to be adopted. Kindly have your subscription arrears paid at once so that you will make sure your favorite weekly paper reaches you each week.

THE CHARTERED BANKS of Canada keep abreast of the Dominion's expanding needs.

Six times since 1870 the Bank Act under which the Chartered Banks operate has been revised by parliament—six times in that period the activities of the banks have been carefully scrutinized by the people's representatives.

Every ten years the Bank Act has been thus revised. Each one of the six decennial revisions has contributed much to the evolution of the banking system to meet the expanding needs of a developing Dominion.

In 1934 the sixth revision of the Bank Act was made. Fifty members of the House of Commons made up the committee, which examined witnesses—among them bank officers, government officials and reformers — and studied exhibits filed by various individuals and organizations. Findings were submitted to the House, and later that year the Bank Act was revised in many important particulars.

Through democratic enquiry and decision, the Canadian banking system has grown and been adjusted to meet the needs of the people, providing a depository for savings and a sound basis for Canada's free economic development.
