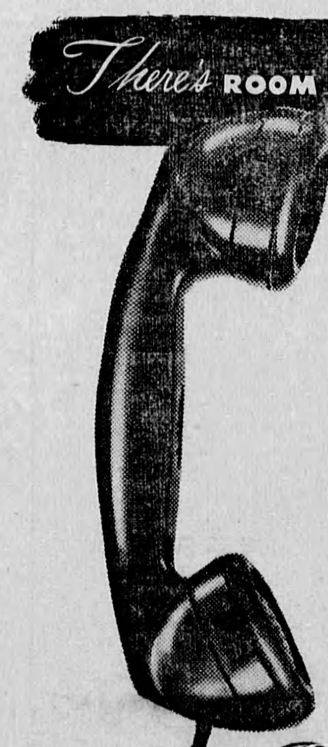
There's ROOM FOR EVERYBODY



PRODUCTION MEN—keeping in constant touch with sources of raw materials, suppliers of parts, government and military authorities.

THE ARMED FORCES—with responsibility for training and supply, for troop movements, for operations on land, air and ocean battlefronts.

GOVERNMENT OFFICIALS—in touch with every phase of our production and military program—with foreign governments—with national and international war agencies.

YOU—depending on your telephone for quick, essential communication at work and at home.

But telephone lines can carry this wartime load only if we all use existing facilities sparingly, and keep our calls just as short and business-like as we can.

Additional equipment is severely limited by material shortages; co-operation must take the place of construction if essential calls are to go through promptly.

The past few days the roads and sidewalks have been a glare of ice and walking has been treacherous. This Wednesday a blizzard has been blowing at times and then the sky clears for a few moments. Apparently it is the tail end of the storm from the West.

Aircraftman Harold Best, who is stationed with the R.C.A.F. at Camp Borden, had a thrill last week seeing his native village from a different "slant." He accompanied Flying Officer Leslie Seeley, instructor at Camp Borden, on a flight that brought them to Flesherton and also over the pilot's home east of Flesherton. It was Hank's first trip in a plane and an uncomfortable feeling in his stomach rose up at times, but he did not feel any great discomfort from the turns and twists indulged in by the pilot.
