THE PROPOSED CURRENCY BILL.

There appears to be a misapprehension of Mr. Galt's proposed measure, on the part of the public. In such cases of political speculation, such is generally the case. The resolutions have not been laid before the public and their precise bearing cannot be known. But we are safe enough in supposing, that nothing can be more erroneous than the impression that the Government propose to assume the position of bankers. Solvent banks, if the measure became law to-morrow, would occupy as independent a position as they do now.—There will be nothing to trench in the remotest degree upon their legitimate functions; and the only concerns which can by possibility suffer, will be such swindling companies, as are established, not for fair and honest banking purposes, but to force a circulation, and depend mainly on that for their gains.

And as affects the Bank Charters, it is absurd to suppose that the Legislature would enact, or that her Majesty's Representative would sanction, any measure violating property rights, guaranteed under former statutes. No Government could propose to legislate the existing currency out of existence so long as the charters are not violated. The change in the currency, therefore, to become general, will be practically a voluntary scheme; and the real issue of the measure must in the end be determined by the Banks themselves. Till we have the Resolutions before us, it is impossible to say what their precise shape may be. But we take it for granted, that the Government have never dreamt of occupying the position of bankers or of annulling any charter by new legislation. The result then will be, that instead of establishing a Bank of Issue proper, the Department of Finance merely assumes the controlership of the paper currency of the country, in so far as the Banks may avail themselves of the proposed law. And no Bank established on a sound and healthy principle can possibly have anything to fear, and far as they themselves are concerned, in accepting the provisions of the Bill, while their co-operation with the Finance Minister will effect the speedy suppression of notorious, swindling concerns.

The amount of additional influence which such a scheme as this can bring to the present or any other Government, and the abuses which public suspicion or party feeling may attribute to the measure, are objects which can best be dealt with when the measure comes before us in detail. Meanwhile, the first thing to occupy the attention of the public is the practical utility of the change. No such scheme should be hastily adopted. It requires the very fullest discussion; and this we have no doubt it will receive, both in Parliament and through the Press.—[Quebec Chronicle.

*** Since Mr. Morrison resigned his Government Employment to take charge of the Quebec Chronicle, the statements of this newspaper may be looked upon semi-official.

EAST MIDDLESEX ELECTION.

The fate of the lamented Talbot having now been ascertained beyond a doubt, there can be no question as to the probability of a new writ being issued for the East Riding of Middlesex almost immediately.

Mr. F. E. Cornish has issued his address to the electors of East Middlesex. He is in favor of British Connexion; opposed to dissolution of the Union, and 'retrograde constitutional changes;' advocates Representation by Population wishes for a protecta railway tariff; is in favor of a Homestead Law, and a Bankrupt Act; and thinks that two parties are required to work out a constitutional Government. Mr. Cornish calls himself a Conservative. However, political names do not mean much now-a-days. We have no fault to find with the principles and measures which Mr. C. has announced. In fact, Mr. Cornish has evidently been reading the Free Press.

The London journals announce that the Convention of Reformers held in that city, to choose a candidate for the East Riding of Middlesex, selected Mr. Craik, of Westminster, as the standard bearer of the campaign. Mr. Webster of the township of London, was also before the convention. No particulars have yet been furnished to the press, but we have no doubt that the proceedings were harmonious, and that the Opposition party in the Riding will go to work with a will to elect the man of their choice. He is worthy in all respects of their confidence, and will be an honest and efficient representative.

ITEMS OF NEWS.

Telegraphic dispatches from the South part of Oregon, dated the 26th, represent intense excitement as existing in the vicinity of Jacksonville, on account of rich quartz discoveries. One company had taken out one hundred and twenty-five thousand dollars in gold. Eight hundred pounds of rock yielded sixty dollars of gold.

At Quebec, a revival is taking place among the French Canadians under the preaching of Rev. F. Royer. On Friday evening, the audience at the Parish Church of St. Roch's, estimated at 5,000 persons, stood up, with one accord, after an earnest appeal on the part of the preacher, and with the left hand on the heart, and the right hand raised, pronounced, as one man, the renewal of their temperance vows.

PREACHING IN THEATRES.—Latterly some of the London Clergymen have been preaching during Sunday in the theatres. Viscount Dungannon called the attention of the House of Lords to the scenes enacted, and stated that at one theatre (Sadler's Wells) the clergyman appeared in a garden scene; the boxes were filled with ladies and gentlemen in white kid gloves, just as at an ordinary theatrical performance; and during the delivery of the sermon cheers were not heard from the gallery, while oranges and ginger-beer bottles were going their ordinary rounds. At the Victoria Theatre placards were put up, announcing that refreshments were provided; the noise from corks flying about, and the sale of apples and provisions was such that the clergyman had to pause, and take a show of hands whether the audience wished to hear him, or to allow these things to proceed.

CAPTURE OF ALLEGED PIRATE STEAMERS.—WASHINGTON, March 19—The news from Mexico has created a profound sensation here. Particulars relative to the capture of the two Spanish steamers are awaited with great interest. It was supposed they were captured as pirates, and the act on the part of our naval forces is fully sustained. Loud and open indignation is expressed against the Spanish authorities in Cuba for getting out this expedition, to act against the constitutional government of Mexico, which we recognize. It is believed by some that the two steamers were fitted out by the authority of Spain and sustained by France.

NEW ORLEANS, March 19.—Miramon paid $55,000 for the two steamers. The steamers passed by all the foreign squadrons and the castle without hoisting a flag, although ordered to do so by a shot from the castle, and other signals. The English, French and Spanish vessels of war did not notice the fact. The engagement took place by moonlight. The prisoners corroborate the report in relation to the steamers, that they cleared from Havana as merchantmen, and hoisted the Mexican flag only after they left that port and subsequently mounted guns.

The Paris Press mentions the following singular fact:—'Three women were yesterday (Monday) taken in labor, and delivered in the public streets; one at the foot of a tree on the Quai d'Allemagne, the second in the Rue de Meaux, and the third on the Boulevard de Magenta. All three were conveyed to the Hospital de la Riboisiere, and, with their children, are doing well.'

A Paris letter in the Nord says: 'At a dinner recently given by Duke Decazes, all the principal men of the old monarchial parties were present. Monseigneur Sacconi, the Papal Nuncio, was also present, and sat near M. Guizot. The Nuncio and the ex-Minister, who, it may be remembered, is a Protestant, seemed to be on the best possible terms. M. Guizot having spoken at some length in favour of the temporal power of the Pope, the Nuncio exclaimed: 'Sir, you defend the cause of His Holiness better than some Catholics.' I have not, however, heard that M. Guizot replied to this compliment, as he might certainly have done, 'It is because I am not a Catholic.''

MR. LYON FELLOWES.—The Ottawa Citizen states that Mr. Fellowes will not remain at Ottawa, but will make Cincinnati his place of abode.

CONSPIRACY AGAINST THE KING OF SARDINIA.

PLOTS TO ASSASSINATE GARIBALDI.

The New York Eco d'Italia of March 17th contains a remarkable statement. The editor says:

'From private letters coming to us from Milan, dated February 17th, we learn that the police of Milan have just discovered an atrocious scheme, the object of which was to assassinate Victor Emmanuel on the occasion of his entry into the capital of Lombardy. One of the conspirators, a certain Count Beambilla, the same who, in 1849, abstracted the gilded medals from the Gregorian Museum, was arrested, and on his person were found suspicious documents and large sums of money destined for the Pontifical court. Other conspirators, all Austrians or priests, are in the hands of the police.'

'By another correspondence we are assured that the indefatigable Farini has discovered a vast conspiracy organized by various officials at Verona, aided by the anti-Napoleon party of France. The intercepted correspondence shows that the conspirator intended to make use of the dagger and of poison in carrying out their schemes. One of the intended victims was General Garibaldi; the Courts of Naples and Rome were ignorant of the conspiracy, but would have been informed of it. The director of this plot was a famous ruffian of the ex-Duke of Modena, one Virginio Alpi of Forli, the very type of the desperate assassin.'

Arrivals at Irons' Hotel.

March 24.

Stocks without activity, and variable with one or two exceptions; prices closed in favor of buyers. Sterling exchange market without any new feature. Money unchanged.

KENNEDY'S MEDICAL DISCOVERY.—Scarcely a day passes that we do not hear of some wonderful cure performed by this popular medicine; and while we have been writing this short notice, a gentleman, Mr. J. L. Clarke, residing at No. 23 Lowell street, Boston, has looked in upon us, and finding that we were penning an article in regard to the Discovery, stated that, within a year, he had been cured of a very severe case of Scrofula, that broke out in large bunches upon his neck, and that too by using two bottles. There is not a humor that exists in the world, no matter how long it has existed, but this medicine will cure it speedily. Knowing then its value, it is the height of folly in the afflicted to delay obtaining it.

For Sale by every Druggist in the British Provinces. 1 69

ONE OF THE HUMANITARIAN MOVEMENTS of the times although little known as such, can hardly be over estimated in its importance upon the well being of our widely scattered communities. The population of the American States is in many sections so sparse, that skillful Physicians are hardly available to them. Vast numbers of our people, are obliged to employ in sickness, such medical relief as they can hear of from each other, or indeed any they can get from any quarter. Hence arises the great consumption of Patent Medicines among us, greater by far than in any of the old countries, where skillful physicians are accessible to all classes. Unprincipled men have long availed themselves of this necessity, to palm off their worthless nostrums, until the word has become synonmous with imposition and cheat. One of our leading Chemists of the East, Dr. Ayer, is pursuing a course which defeats this iniquity. He brings not only his own but the best skill of our times to bear, for the production of the best remedies which can be made. These are supplied to the world, in a convenient form, at low prices, and the people will no more buy poor medicines instead of good, at the same cost, than they will bran instead of flour. The inevitable consequence of this is, that the vile compounds that flood our country are discarded for those which honestly accomplish the end in view,—which cure. Do we over estimate its importance, in believing that this prospect of supplanting the by-word medicines, with those of actual worth and virtue, is fraught with immense consequence for good, to the masses of our people.—Gazette and Chronicle, Peru, Ia. 54

HOLLOWAY'S PILLS.—Dyspepsia, which is considered by physicians one of the most difficult of all diseases to deal with, invariably succumbs to this supreme regulator of the internal organs. The effect of the Pills upon the membrane which lines the alimentary canal, appears to be wonderfully soothing and healing, while at the same time they gently stimulate the stomach and the liver. This we suppose to be the modus operandi in cases of dyspepsia and diarrhœa; but, whatever the process, there can be no doubt as to the rapidity, invariability, and completeness of the cure. The Pills have been administered in this neighborhood in cases of summer complaint and general weakness and debility, with the happiest result. They are a perfectly safe medicine for children. 69

The greatest preservative of beauty known to modern science, is Professor Wood's Hair Restorative and Cosmetic. Among the most important features of female beauty, are a luxuriant head of hair and a fine complexion; both of which should be guarded as sacred treasures, for either may be lost by neglect, or preserved by the use of the above named article; delay is dangerous. We seldom undertake, editorially, to endorse what are called 'Hair Restoratives,' as knowing full well that the great majority of such preparations are entirely worthless. Exceptions there are, nevertheless, and among these we have never hesitated to express our conviction that the article known as 'Wood's Hair Restorative' is entitled to a proud preeminence. This article has told its own story in numberless instances of prematurely gray and bald heads, and the certificates in regard to its amazing efficacy have been alike numerous, unsolicited, and emphatic. When Senators of the United States and others (of the highest standing socially and politically) openly declare that 'Wood's Hair Restorative' is all, and more than all, it pretends to be, we cannot do otherwise than believe them. The article can be had at all our Druggists. See notice elsewhere. Rahway Republican.

Sold by all Druggists. 57

DIED.

In Ottawa, on the 16th inst., Mary, wife of Dr. E. P. Ried, aged 21 years.

MOTHERS

Thousands are daily speaking in the praise of DR. EATON'S INFANTILE CORDIAL, and why? because it never fails to afford instantaneous relief when given in time. It acts as if by magic, and one trial alone will convince you that what we say is true. It contains

NO PAREGORIC OR OPIATE

of any kind, and therefore relieves by removing the sufferings of your child, instead of by deadening its sensibilities. For this reason, it commends itself as the only reliable preparation now known for CHILDREN TEETHING, DIARRHŒA, DYSENTERY, GRIPING IN THE BOWELS, ACIDITY OF THE STOMACH, WIND, COLD IN THE HEAD, and CROUP, also, for softening the gums, reducing inflammation, regulating the bowels, and relieving pain, it has no equal—being an anti-spasmodic it is used with unfailing success in all cases of CONVULSION OR OTHER FITS. As you value the life and health of your children, and wish to save them from those sad and blighting consequences which are certain to result from the use of narcotics of which other remedies for Infantile Complaints are composed, take none but DR. EATON'S INFANTILE CORDIAL, this you can rely upon. It is perfectly harmless, and cannot injure the most delicate infant. Price, 25 cents. Full directions accompany each bottle. Prepared only by

CHURCH & DUPONT,
No. 409 Broadway, New York.

BLOOD FOOD

Healthy human blood upon being ANALYZED always presents us with the same essential elements, and gives of course the TRUE STANDARD. Analyze the blood of a person suffering from Consumption, Liver Complaint, Dyspepsia, Scrofula, &c., and we find in every instance certain deficiencies in the red globules of Blood. Supply these deficiencies, and you are made well. The BLOOD FOOD is founded upon this Theory—hence its astonishing success. There are

FIVE PREPARATIONS

adapted to the deficiencies of the Blood in different diseases. For Coughs, Colds, Bronchitis, or any affection whatever of the THROAT and LUNGS inducing Consumption, use No. 1, which is also the No. for Depression of Spirits, Loss of Appetite, and for all Chronic Complaints arising from Over-use, General Debility and Nervous Prostration, No. 2. for Liver Complaints, No. 3 for Dyspepsia. Being already prepared for absorption it is TAKEN BY DROPS and carried immediately into the circulation, so that what you gain you retain. The No. 4 is for Female Irregularities, Hysteria, Weaknesses, &c. See special directions for this. For Salt Rheum, Eruptions, Scrofulous Kidney, and Bladder Complaints, take No. 5. In all cases the directions must be strictly followed. Price of the BLOOD FOOD $1 per bottle.

Sold by CHURCH & DUPONT, Druggists, No. 409, Broadway, New York.

And by all respectable Druggists throughout the country.

Received and for sale by our Agent.

BERLIN WOOLS.

A FRESH Assortment of Fleecy, Double and Single Berlin Wools, just received at Mrs. MURDOCH'S Fancy Store, Princess Street.

Kingston, 16th March, 1860. 64

FIVE SPLENDID STRAWBERRIES.

HOOKER—Very productive; large, beautiful, and of UNEQUAL QUALITY.

WILSON'S ALBANY,—Exceedingly productive; FINE FOR MARKET.

TRIOMPHE DE GAND,—IMMENSE SIZE; splendid appearance, and high flavor.

PYRAMIDAL CHILIAN,—Very handsome, productive, hardy, and good flavor.

LARGE EARLY SCARLET,—THE EARLIEST; productive and excellent.

As it is impossible to secure all the excellencies of this most popular fruit in one variety, we offer the above as comprising, in five sorts, the various points desirable.

We again confidently RECOMMEND the HOOKER, as far the best for family use, if only one sort is to be planted—combining a greater number of excellencies than any other variety.

☞ All of the above have perfect flowers, and will produce excellent crops, if planted singly or together.

PRICES—(Securely packed to be forwarded by express:)

Per 100	plants of any of the above varieties,		$2.00
" 100	"	20 of each variety	3.00
" 500	"	100 of each variety,	7.50
" 1000	"	of the Hooker	10,00
