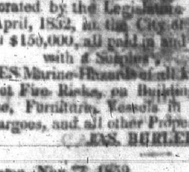
Kingston, Nov. 7, 1859. 260



JOHN MONTGOMERY

HAS received the Queen's Letters Patent for his ANTI-COMBUSTIBLE SOLUTION, or Mixture for the Preservation of Life and Property, by making Houses Fireproof outside and inside, and preventing fire from spreading from one house to another. A small quantity will extinguish fire almost immediately. It is also strongly recommended for Shipping, as it will extinguish tar or any other inflammable substance.

John Montgomery & Son wish to have a good and respectable Partner, who could advance £100 for the fitting-out of the factory. He will be limited to one-third of the profits arising from the Patent Right for any number of years that may be agreed upon by the parties. The money will not all be required down now, but as the factory progresses. It will be a profitable investment for so small a sum.

John Montgomery will sell his Patent right to Towns, Municipalities and Counties; as it is particularly adapted for Farmers' Barns and Outhouses, which, when saturated with this solution, no fire can touch them.

JOHN MONTGOMERY & SON.

ONLY $75

FOR ONE OF

SINGER'S CELEBRATED SEWING MACHINES

Warranted to be same in every respect as those sold by I. M. SINGER & Co., in the States, for $110. I have made an improvement on Singer's large-size Machine, by which Patent Leather can be stitched without oil. Shoemakers find a great objection to use those Machines before, owing to the oil continually working off the leather on the lastings and cloths of ladies' gaiters. The necessity of applying oil to patent leather is entirely obviated by this new improvement.

These machines are well adapted for family and manufacturing purposes, and in point of utility, durability and cheapness, surpass any of the kind ever offered for sale in Canada.

I have received numerous testimonials from Boot and Shoe makers, tailors, dressmakers, and private families, who are using my Machines; all unite in recommending them for general use.

THE FOLLOWING CERTIFICATE, WRITTEN BY THE TWO LARGEST AND MOST EXTENSIVE BOOT AND SHOE MANUFACTURERS IN CANADA.

Montreal, December 23, 1859.

We take pleasure in bearing testimony to the complete working of the Machines manufactured by Mr. E. J. Nagle, having had THREE in use for the last six months. They are of Singer's pattern, and equal to any of our acquaintance of the kind.

BROWN & CHILDS.

Montreal, December 1859.

We have used SEVEN of E. J. Nagle's Sewing Machines in our Factory for the past six months, and have no hesitation in saying that they are in every respect equal to the most approved American Machines,—of which we have several in use.

STEREOSCOPIC EMPORIUM.

R. ANTHONY, 308 Broadway, NEW-YORK. After May 1st, 1860, at 501 Broadway, two doors from the St. Nicholas Hotel.

The Stereoscope is the most instructive, interesting, entertaining, amusing, and exciting of modern inventions.

None are too young, none too old, none too intelligent, none too uneducated, to acknowledge its worth and beauty.

No home is complete without it, and it must and will penetrate everywhere.

It presents to your view every part of the world, in all the relief, boldness, perspective, and sharpness of detail, as if you were on the spot.

Photographers are everywhere exploring Europe, Asia, Africa, America, in search of the grand and the beautiful, and the results of their skill are constantly enriching our stock.

We have an immense variety of paper Views of Scenes in Paris, London, England, Scotland, Ireland, Wales, France, Belgium, Holland, Switzerland, Spain, The Rhine, Versailles, St. Cloud, Fontainebleau, Tuilleries, Italy, Turkey, Egypt, Athens, the Holy Land, China, India, Crystal Palace, also Groups Historical, amusing, marriage scenes, breakfast scenes, nudes, statuary, &c., &c. An exquisite assortment of Illuminated Interiors of Palaces, Churches, and Cathedrals of France, Italy, &c., &c. The effect of these illuminated views is most remarkable.

Every gentleman of wealth and refined taste should have in his drawing-room some of our exquisite views on glass, with a revolving stereoscope, showing 12, 25, 50 or 100 scenes. Nothing can be more fascinating and one can offer no greater treat to a friend fond of the picturesque and the beautiful.

Anthony's Instantaneous Stereoscopic Views are the latest Photograph's wonder. They are taken in the fortieth part of a second, and everything, no matter how rapidly it may be moving, is depicted as sharply and distinctly as if it had been perfectly at rest. This gives an additional value, for to the beauties of inanimate nature it adds the charm of life and motion. The process is a discovery of our own, and being unknown in Europe, we receive from London and Paris large orders for Anthony's Instantaneous Views of American life and scenery.

Among other things we have just published Stereoscopic Illustrations of the Scene of the Fulton Street Prayer Meetings, in which many hearts feel an interest. The particulars of this will be found in our catalogue.

Our Catalogue of Subjects and prices will be forwarded to any address on receipt of a stamp.

Parties at a distance sending us $5, $8, $10, $15, $20, or $25 can have a good instrument and such pictures as they may request, sent by Express.

Views alone (without instrument) can be sent by mail.

Parties who wish to be advised of everything really valuable in the line that comes out, may send us their names to place on record, and we will keep them posted at our own expense.

Men of leisure will find Photography a most fascinating and delightful amusement. We are prepared to fit out amateurs with everything necessary for their success, together with instructions "How to take Stereoscopic Pictures."

R. ANTHONY,
Importer and Manufacturer of Photographic Materials, Stereoscopes and Stereoscopic Views.

☞ Merchants from every section of the country are respectfully invited to make an examination of our stock, as our discount to the trade will be liberal.

☞ PHOTOGRAPHERS.—First-class stereoscopic Negatives wanted.

Sent by mail a print mounted, with price of Negative.

BRONCHITIS.

The following testimonial from Rev. E. B. Ryckman, Montreal, gives evidence of the efficacy of Brown's BRONCHIAL TROCHES, or Cough Lozenges:—

Montreal, Oct. 24th, 1859.

Mr. S. J. Lyman, Place d'Armes,

Dear Sir:—I am very happy to inform you of the benefit I have received from the use of 'Brown's Bronchial Troches.' Two or three times I have been attacked by Bronchitis, or some such trouble of the Throat, in such a way as to make me greatly fear that with the very best of general health, and after only three years' labor in the ministry, I would be compelled ere long to desist from ministerial labor through disorder of the throat and voice. But a moderate use of the 'Troches' has driven all my fears away, and I now find myself able to preach nightly, for weeks together, without the slightest inconvenience. I have had the pleasure of recommending them to others, and know that they have been used with similar happy results.

Yours gratefully,
E. B. RYCKMAN, A. B.
Wesleyan Minister, Montreal.

"When we find recommended the Troches to Mr. Ryckman, he was contemplating removal from town on account of his health. The Troches are among the very limited number of Patent medicines we ever recommend."

BANKERS:—Bank of Montreal.
SOLICITORS:—Messrs. Ross, Crawford and Crombie.

This Branch was only opened last January, and now has an income of

$75,000!

Which is retained in this country.

The increase of business in England is unprecedented, as shown by the Parliamentary returns, and the following taken from the last September Report:

'It will thus be seen that the total amount of business done during the last nine months of the Company's operations has been TWENTY-TWO THOUSAND NINE HUNDRED AND ONE NEW POLICIES, producing an additional annual income of

$150,000

Representing Property Insured to the extent of

THIRTY MILLION DOLLARS!

The Report further says that 'the Directors congratulate the Shareholders on this satisfactory increase in the business of the Company, and they have every reason to believe that from the connection now formed it will continue to increase in the same ratio.'

The Capital of the Company is devoted entirely to Fire Liabilities, having no reserve for a Life Branch.

All losses in Canada are submitted to the gentlemen composing the Board who examine the particulars, and if found satisfactory at once order the payment of the claim. This system has called forth numerous coals of thanks.

If differences should arise between claimants and the Company, the Manager is fully empowered to accept service of any process in law.

After LEA and PERRINS that their Sauce is highly esteemed in India, and is in my opinion the most palatable as well as the most wholesome Sauce that is made.

EXTENSIVE FRAUDS.

L. & P. having discovered that several of the Foreign Markets have been supplied with SPURIOUS IMITATIONS of their 'WORCESTERSHIRE SAUCE,' the labels of which closely resemble those of the genuine Sauce, and in one or more instances with the names of L. & P. forged; they have deemed it their duty to caution the public, and to request purchasers to see that the names of Lea & Perrins are upon the Wrapper, Label, Stopper and Bottle.

L. & P. further give notice that they will proceed against any one who may infringe upon their right, either by manufacturing or vending such imitations, and have instructed their correspondents in the various parts of the world to advise them of such infringements.

Wholesale and for exportation, by the Proprietors, LEA & PERRINS, Worcester, England; Crosse & Blackwell, and other Oilmen and Merchants, London.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in this condition, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children, unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or tuberous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must regenerate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the purgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIONS and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Want of Appetite, Dysentery and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.
