Sgt. Bill Kerton, who has recently returned from overseas will unveil the Honor Roll. Mr. Shein will preach on the subject: "Does Might make Right," Text: Zech. 4:6.

St. John's W.M.S. Meeting

The regular monthly meeting of the W.M.S. was held in the Sunday School room, Friday, Sept. 15 with a good attendance. The president, Mrs. W. I. Henry was in the chair and the meeting opened by singing the hymn, "What a Friend We Have in Jesus", which was chosen by Mrs. John MacMillan, who ,though unable to attend, because of illness, still she has a keen interest in the work of the society. Mrs. MacNicholl read the 24th Psalm, and Miss Dorothy Armstrong contributed a solo. Mrs. Duncan, Mrs. Morgan and Mrs. Henry gave a very interesting introduction to the new study book, "West of the Dateline."

Plans were made for the Thankoffering meeting in October, and the business part of the meeting was carried out, after which the meeting closed with prayer by Mrs. Westcott.

REV. AND MRS. COX RECEIVED GIFTS FROM CONGREGATION

A large number of members and friends of St. Columba Church, Priceville, met in the Sunday School rom on Monday evening, Sept. 18th, to spend a few happy hours with the minister and his wife, Rev. C. D. Cox and Mrs. Cox, prior to their taking up work in a new field at Bervie. Community singing and a short program of miscellaneous items by local talent was enjoyed by all. At the close Mr. and Mrs. Cox were called to the front, when Mr. W. R. Meads read an address and four young men presented the couple with a china cabinet and two occasional chairs. Mr. Cox replied fittingly on behalf of himself and vife.

DEPTH OF PLOUGHING

Experiments have been conducted at the Dominion Experimental Farm, Nappan, N.S., over a period of years, comparing depths of ploughing for oats and swedes. The plots are located on medium clay loam soil, with a heavy clay subsoil. Timothy sod is plouged for oats at 3 6 and 9 inch depths in both fall and spring.

The average yields over a period of eight years are as follows: ploughed in fall, 3 inches, 44.9 bu.; 6 inches, 46.2 bu.; 9 inches, 47.7 bu. Ploughed in spring: 3 inches, 36.2 bu.; 6 inches 36.3 bu.; 9 inches, 39.4 bu.

Stubble land ploughed at these depths previous to swedes has given average yields over a nine year period as follows: fall ploughed, 3inches, 8.7 tons; 6 inches, 8.7 tons; 9 inches, 8.8 tons. Spring ploughed, 3 inches, 9.6 tons; 6 inches, 9.3 tons; 9 inches, 9.0 tons.

While the average yields of oats are slightly in favor of deep ploughing, the yields have varied from year to year and the differences to date cannot be considered significant.

Swede yields do not show any significant differences between depths. Ploughing at a three inch depth requires more time to plough properly and more cultivation to control grass and weed growth than is necessary on deeper ploughed land The 9-inch depth requires more power to plough and when the land is dry, it is difficult, with ordinary equipment, to plough this type of soil at that depth. Considering all factors, the data to date ndicate that on this soil type, 5 to 7 inches is the most practical depth of ploughing sod land for grain or stubble land for roots.

Practically every part of the cow, including the blood, is used in making airplanes.

Germany is on the run — but you had better continue your purchase of War Savings Stamps. They'll be needed.

The reason why most people can stand adversity better than they can good fortune is because they have had considerably more practice in standing adversity.

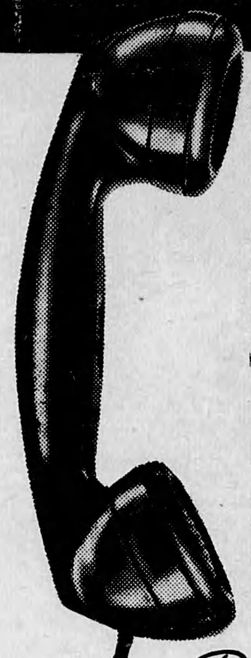
The Ontario Old Age Pension Commission has announced that in future there will be no collections from estates of pensioners where the amount of the estate is $2000 or less.

Canada's greatest casualties lie in the future. Great aid is given in saving the lives of thousands of our fellow countrymen by becoming blood donors. An Army doctor in Sicily said recently that "blood plasma is the outstanding medical discovery of the war."

There's ROOM FOR EVERYBODY...



PRODUCTION MEN—keeping in constant touch with sources of raw materials, suppliers of parts, government and military authorities.

THE ARMED FORCES—with responsibility for training and supply, for troop movements, for operations on land, air and ocean battlefronts.

GOVERNMENT OFFICIALS—in touch with every phase of our production and military program—with foreign governments—with national and international war agencies.

YOU—depending on your telephone for quick, essential communication at work and at home.

But telephone lines can carry this wartime load only if we all use existing facilities sparingly, and keep our calls just as short and business-like as we can.

Additional equipment is severely limited by material shortages; co-operation must take the place of construction if essential calls are to go through promptly.

What Does Inflation Mean to You and Me?

Why, we couldn't buy enough food to keep our families healthy under inflation. For wages and salaries never catch up to prices when they start to soar!

How would we like to pay $1.10 a dozen for eggs? You say it *can't* happen? Don't forget it's already happened right here in this Dominion, during the last war. And it will happen *again* . . . unless we're on our toes to keep the cost of living down. Every Canadian must face this challenge! It's our responsibility.

But be of good heart. Living costs have risen LESS in Canada than anywhere else. Canada *leads the world* in the fight against inflation.

HERE'S HOW IT'S DONE—

In 1941, Canada determined to *control* the cost of living. Price ceilings were established on wages, rentals and commodities; subsidies were paid on essential foods; goods in short supply were rationed . . . so that *everyone* could get their fair share at a price they could afford to pay!

But control of prices is a two-way responsibility. It needs *your* support if it is to continue working effectively.

So make this Pledge Today!

I PROMISE to give my support to keeping the cost of living down. I will buy only what I need—I will observe the ceiling whether buying or selling goods or services. I'll pay off old debts, save for the future, invest in Victory Bonds and War Savings Certificates—and will support taxes which help lower the cost of living.
