Nazi Prisoners In Zoo Cages

All the German sailors and soldiers and Quislings and collaborationists taken by the local resistance movement, are behind the bars of the Antwerp Zoo.

They have been put there because it is the obvious place. The zoo lies beside the main railway station in the centre of the city and the cages have strong bars. Nothing would be more suitable, but it is a fantastc sight.

On the right where the lions were are German officers. Panther cages have German noncommissioned officers. The tigers' places are taken by men of the blackshirt Fascist movement. And in the corner on the left, where there used to be wildcats, there is a throng of weeping women.

Ceylon, Springboard For Attacking Japan

Ceylon, the big island in the Indian Ocean where Lord Louis Mountbatten has established, in hill country, his headquarters as chief of the Southwest Asia Command, is a British Crown colony.

The capital and chief port is Columbo. There is a naval base at Trincomalee.

The island had an estimated population in 1940 of about 6,000,000 people. The last census showed some 9,000 Europeans and nearly 35,000 Burghers (a mixture of Dutch, Portuguese and native strains). Historically, Ceylon was held first by the Portuguese, and then by the Dutch, who were displaced by the British, the National Geographic Society explains.

Ceylon's key position along peacetime's busy trade and travel routes between the Near and Far East makes it now a vital control point for military supply lines, as well as a defense bastion, and a potential springboard for future offensives. As an island close to a great mainland objective of the enemy, Ceylon occupies a geographic position similar to that of fallen Singapore.

CHINESE GIRLS TO RESCUE

Pert and pretty are the seven Chinese parlor maids who are keeping the lobby and public rooms of the Canadian Pacific Railway Empress Hotel, in Victoria, B.C. in pre-war condition. Under the direction of Miss Violet Chong, head parlor maid, the girls, all Canadian born, are replacing men who have been called to the fighting services or transferred into vital industry.

Feeding More Wheat To Farm Live Stock

The feeding of wheat to live stock and poultry has exceeded the use of wheat for human consumption in Canada during four or the five years of war, and during the crop year 1943-44, animals ate twice as much wheat as did human beings, states the Quarterly Review of Coarse Grains. This conversion of wheat to live stock feeding has been a wartime development of note not only in Canada but also in the United States.

During the five years before the war, the average amount of wheat fed to live stock and poultry annually in Canada was 32,000,000 bushels against human food requirements of approximately 44,000,000 bushels. In the crop year 1943-44 human consumption of wheat is expected to total 50,000,000 bushels and the animal consumption more than 100,000,000 bushels.

IF YOUR NOSE "CLOSES UP" TIGHT AT NIGHT

HINDERS BREATHING—SPOILS SLEEP

3-PURPOSE MEDICINE

Here's mighty good news . . . If your nose "closes up" at night and makes breathing difficult, put 3-purpose Vicks Va-tro-nol up each nostril.

Va-tro-nol does 3 important things: (1) shrinks swollen membranes; (2) soothes irritation; (3) helps flush nasal passages, clearing clogging mucus, relieving transient congestion. It brings more comfort, makes breathing easier, invites sleep.

...And remember, it helps prevent colds from developing if used in time.

VICKS VA-TRO-NOL

Have You Heard?

A commercial traveller got held up in the Orkney Islands on account of bad storms and sent a telegram to his firm in Aberdeen saying: "Marooned by storm. Wire instructions."

It was a canny reply that came back: "Start summer vacation as from yesterday."

—o—

"Isn't Wireless Wonderful?" says a headline. Quite so, Think of the crooners and things you can silence by just turning a knob.

—o—

The class composition was about "Kings." One boy wrote this:

"The most powerful king on earth is Wor-king; the laziest, Shir-king; the wittiest, Jo-king; the quietest, Thin-king; the thirstiest, Drink-king; the shyest, Win-king, and the naisiest, Tal-king."

—o—

A visiting specialist was taken to the cubicle of a mental case who thought he was a king.

"I know I am a king," the man explained. "Satan told me so."

At which a furious voice sounded from the next cubicle: "I told you nothing of the kind."

Hunt Poor Milkers By Weighing Milk

Hunt the poor milkers with scales, urges The Ottawa Farm Journal. It does not take one minute per cow. Write the weight on a slate, chalk it on a blackboard, or pencil it on paper. Scales can be got that will allow for weight of pail. Weigh every night and morning if you want to know it all. Dairying is a business. How do you know which cow earns the costly feed unless you weigh the milk daily?

In England and Wales there are now, 1,500 wartime day nurseries where babies are cared for while their mothers are busy with various kinds of war work. The Ministry of Health has decided that no further nuseries are needed.

Sale Of Feeder Cattle To Be Held At Little Current

The largest co-operative sale of feeder cattle ever planned in Central Canada will take place at Little Current, Manitoulin Island, Ontario, Sept. 26-27. At that time, members of the newly formed Manitoulin Livestock co-operative will offer for sale approximately 1900 head of Shorthorns and Herefords contributed by three to four hundred cattle producers. Past experience in co-operative marketing of turkeys and sheep on the Island, it is believed, assures the success of this new cattle enterprise. The beef cattle of Manitoulin Island have long been noted for their excellent type. In addition to their high health standards, practically all the cattle on the Island are free from warble flies due to an intensive campaign put on a few years ago.

Deadlier Than War

Approximately 325,000 lives have been lost in the United States through automobile accidents in the last 15 years. This is more than have been lost in all American wars since the Revolution.

The most important mineral substances required in food are the salts of iron, iodine, phosphorus, calcium (lime), manganese, potash and soda.

Pimples and Blackheads

Relieved by this Medicinal Ointment

Whether in bathing suit or evening dress you become very much embarrassed by skin affections and irritations on the shoulders and back as well as on the face. Why not do something about it—something worth while. Dr. Chase's OINTMENT is a medicinal product on which you can rely for clearing up skin troubles of this nature as well as itching and eczema.

Mothers who are accustomed to use Dr. Chase's OINTMENT for baby's skin troubles and eczema find it so delightfully healing and soothing that they soon acquire the habit of using it for their own skin affections.

More Than 500 Nazi Subs Sunk

More than 500 German submarines have been sunk, by the Allies since the start of the war, it was reported last week in a joint Anglo-American statement.

Issued under authority of Prime Minister Churchill and President Roosevelt, the statement added that Nazi U-boats were "ineffective during July, a month which has been so important for the success of continental operations."

The report said that the number of German submarines destroyed in July was "substantially greater than the number of merchant ships sunk."

The Pope's Appeal To Great Britain

Referring to the robot-bomb attacks on London Pope Pius XII appeals to Londoners to "bear their trials with fortitude and with Christian sentiments of forgiveness, charity and mercy so that God may reward what the world will admire—an example of magnanimity inspired by the spirit of Christ's gospel."

Wouldn't it be better if His Holiness turned his appeal around and first asked the Germans to cease from this callous form of murder of women and children?
