Once you have licked your own temptations you can lick anything.

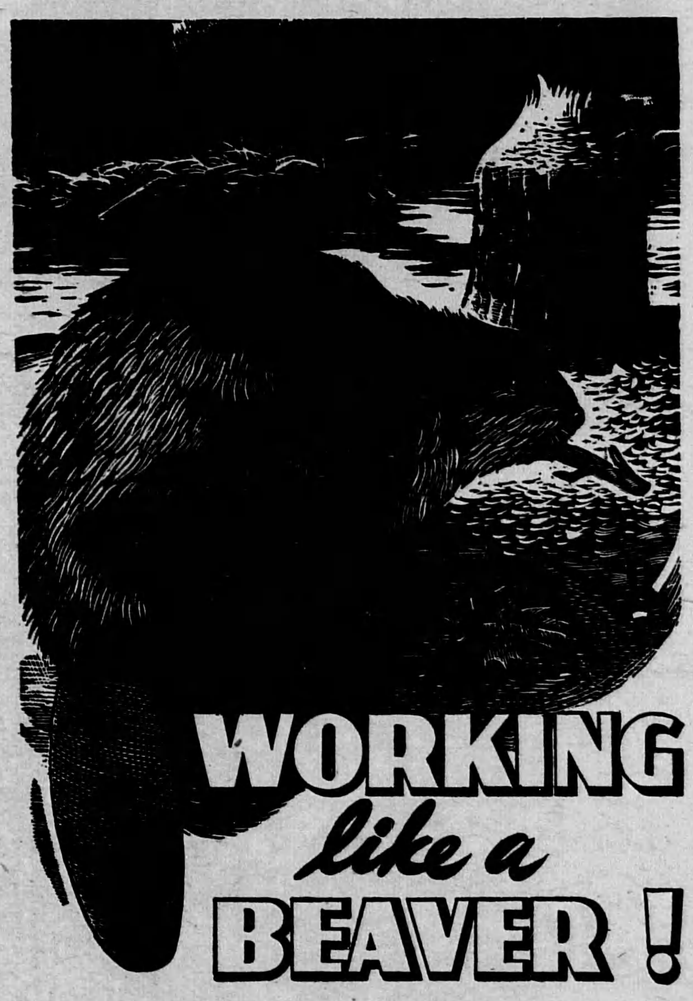
Bombs blasts houses and people. Selfishness blasts homes and lives.

The "isms" can only ride into power on the breakdown of our moral standards.

Total responsibility is democracy's answer to totalitarian control.

Public life brings out the statesman's bringing up.

Some pessimists who think they are wiseacres are really only bellyachers.



EVEN a beaver works to a plan . . . and farmers have been working like beavers in these war years. Help has been hard to find. Yet Canadian farmers, through better planning and hard work, have met increased demand with greater production than ever before. About one Ontario farmer out of three has been able to do a better and more profitable job because he had the greatest "hired man" in all history . . . Hydro-Electric power.

Imagine having a "hired man" who would pump and carry water for about 3c a day . . . milk cows at about 5c to 7c each per month . . . or hoist hay for about 1c a ton. That is a sample of what electricity can do, based on the average Hydro Farm cost of 2¼c per kilowatt-hour.

Your Hydro-Electric Power Commission plans for the day when the majority of farmers in Ontario can have Hydro on their farms. Present shortage of labour and materials makes it impossible to supply Hydro service now to everyone who would like to have it. But make your plans for Hydro service now, and make them wisely.

Be sure that when you wire your farm, you WIRE ADEQUATELY for future needs. You may not put in all the electric equipment you want at first . . . but be sure to wire sufficiently, with a good heavy service with plenty of outlets and switches. Then start with equipment that will do most to make your farm more profitable. Let the extra profits from that first electrical equipment help to pay for the many added home conveniences that Hydro can bring to you. Build like the beaver, work to a plan.

VICTORIA CORNERS CONCERT

(By Victoria Corners Reporter)

Under the direction of Mrs. E. A. Stinson, teacher, and the assistance of Mrs. Elmo Stevens, an excellent concert was held at the schoolhouse on Wednesday evening, March 14th.

The entertainment opened with community singing of the war songs. Readings by Bobby Nicholls and Hazel Jackson were much enjoyed. Mrs. Milton Bannon's "household hints" proved quite beneficial, especially to those with small children example, "Don't let the baby play with a razor he might spoil it." Ern Stinson in characteristic costume ably explained "The High Cost of Living". Two short plays by the young people, "You Can't Fool Aunt Julia" and "Henry's Mail Order Wife" were very interesting comedies. Accompanied by Russell Linton with the guitar, five young girls sang popular songs at intervals during the evening. The orchestra with Russell Linton and guitar, Ed Stinson and Alf Hardy, violinists, supplied good music in the intermissions.

The purpose of the evening's entertainment was to raise money to pack boxes for several boys of our community serving overseas and in Canada.

Tickets at the rate of 10c each or three for a 25c, were sold on a rooster, donated by Mr. and Mrs. Elmo Stevens. Lunch was in the form of box social. Tickets on the rooster brought $5.55 and the lucky ticket drawn by little Doris Nicholls, was held by Gladys Love. Gladys in turn put the rooster up for auction, Auctioneer George Duncan, purchasing it for $1.25. This also was turned into the evening funds. George Duncan auctioned the many boxes. Prices soared. Very few were sold below one dollar and raised as high as $2.60. Total proceeds of the evening including admission, rooster and boxes amounted to $54.-25

A quilt belonging to the Women's Institute was [illegible] Dunn again bought back and five dollars for this. This sale was not included in the evening's proceeds.

Mrs. Stinson and Mrs. Stevens are to be highly commended on their excellent evening's entertainment and everyone else concerned for helping to make it such a success.

POULTRY

The Poultry Market outlook for 1945 is rather good as there is reasonable assurance that the same export market will be available for this year's crop. The prices will, therefore, be approximately the same as last year.

In 1944 we bought the large portion of our poultry on rail grade basis, which meant more money to the producer for good quality. We are still doing this and intend to even a greater extent in the future.

Notice to Our Patrons

If you still have some chickens or a surplus of fowl bring it in. We will buy them alive or dress them for you and buy them rail grade. Our prices are good.
