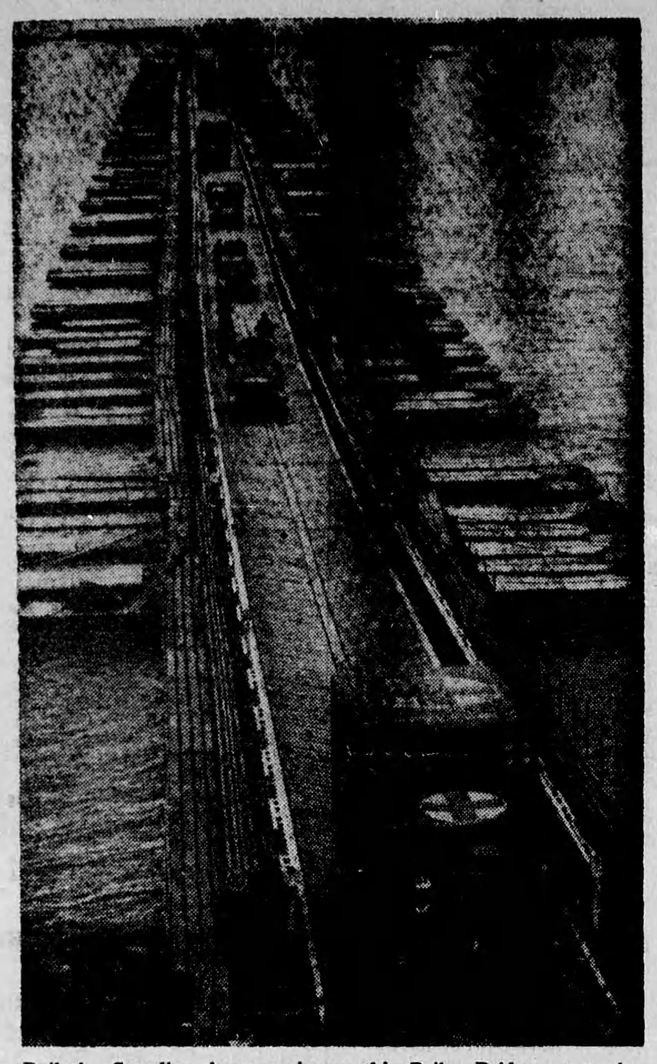
BAILEY BRIDGE OVER THE RHINE



Built by Canadian Army engineers, this Bailey Bridge across the Rhine is shown shortly after it was opened to traffic. The small sign in the left foreground tells the distance that must be maintained between each vehicle so as not to overload any one portion of the bridge.

'Little Mary' Now Ninety Years Old

Eighty years ago a little lamb insisted on following Mary Partridge to school and had to be tethered on the village green during lesson hours.

The girl who was the inspiration of the famous nursery rhyme celebrated her 90th birthday at her home in Grantham, England, last week.

Ask Grandma She Knows

When grandma was young Dr. Chase's NERVE FOOD came on the scene. She has used it and watched it all these years until its merits are known in nearly all homes.

When you can't rest and sleep well — when you have indigestion —when you feel tired out and run down in health, start in at once with Dr. Chase's NERVE FOOD and you will soon know why this Vitamin B_1 tonic is so popular.

Have You Heard?

They were quarrelling. "I wish," said he, "that some brainless idiot had proposed to you before we were married."

"He did," replied his wife calmly.

This rather took the wind out of his sails.

"I wish, then," he exclaimed, "that he had married you."

"Yes, darling,', she replied. "He did."

Father: "Your teacher tells me that you are last in a class of forty."

Son: "It could be worse."

"In what way?"

"It might have been a larger class."

—o—

Teacher: "What is hail?"

Johnny: "Please, sir, it's hardboiled rain."

U. S. Crops

United States farmers are expected to plant 380,000,000 acres to various crops this year, 16,000,000 acres more than last year, and the largest in the nation's history.

How To Control Garden Cutworm

Poisoned Bait and Tin Cans Combat Attacks of Cutworms

Success in the production of garden vegetables crops depends a good deal upon protection from the early attacks of cutworms. As soon as the soil warms up and weed growth commences, cutworms become active. A week before the first garden crops are planted, the soil surface, if caked, should be broken up and a poisoned bait made of bran, 25 lb.; Paris green, 1 lb.; and 3 gallons of water should be broadast at the rate of 15-20 lb. of the dry material per acre. Select a warm evening and spread the bait before darkness comes on. Do not spread the bait on a cold day.

For city gardens, use the bait at the rate of one teaspoonful of Paris green to one quart of bran, and moisten with water. Transplants may be protected by dipping them in a mixture of 3 ounces of lead For small gardens, tin cans with arsenate to a gallon of water before setting the transplants in the soil, both ends cut out and placed over the plants, and pushed well down in the soil, will give protection. The cans may be removed before the plants get too large to slip through. The cans can then be strung on a wire and hung up for next season.

THREE PULLET CHICKS PER 100 saved, outweighs any price difference. Here is something to consider in choosing your chicks. If you lose three pullet chicks you don't go back and get three more. You go on with what you have left, short three layers which would likely make you 2.00 per bird over feed cost their first laying year. If by purchasing livable chicks such as Tweddles you can raise just three more pullets per 100 chicks started there's enough income right there to cancel out any difference in the first cost of the chicks. Send for Tweddle catalogue and greatly reduced prices for May and June chicks. Also 3 week old started chicks and older pullets for immediate delivery. Tweddle Chick Hatcheries Limited, Fergus, Ontario.
