Let No One Fail On Home Front

The home front has an important battle to win; it is the Victory Loan Campaign. Victory Loans provide the sinews of war. The obligation is strictly up to every individual to "dig down" to the last copper to see that every last piece of equipment is provided to the lads overseas from the dollars that are available here in Canada, says Public Opinion (National Progressive Conservative Paper).

Victory Loan campaigns are a wartime activity into which any citizen should throw every last degree of energy without considering the political implications of his action. Victory Loan bonds represent the common means by which all can harvest, in practical fashion, the inner prayer and wish for victory.

The Victory Loan Campaign is sponsored by our government — our government until a new one is elected—and no effort should be shirked or evaded because of political considerations. The election date comes later, and any antipathy to the government should be expressed then and not before, particularly in response to the Victory Loan appeal.

There can be no let-down in our efforts on the home front. The prize is too great, and, in view of the superb organization and the human lives at stake let no one on the home front do less than the last best effort.

"KING", EX-SERVICEMAN, STILL SERVES

Back in civvies, this four-footed ex-sentry of the Royal Canadian Air Force attended a rally in the 8th Victory Loan campaign of the Canadian National Telegraphs, and literally "stole the show."

"King", a direct descendent of Rin-Tin-Tin of motion picture fame, is an Alsation Shepherd owned by H. C. Milne, superintendent, C.N.T., Toronto. So thoroughly did he become imbued with his role of warrier that doubt existed as to his ability to return to civilian pursuits His normal, peaceful nature seemed a casualty of war. But, he regained his affable and affectionate personality and, now securely repatriated, he is assisting in the sale of 8th Victory Loan bonds to hurry the demobolization of his friends who are still in uniform.

Photograph shows Mr. Milne (left) receiving a salesman's kit for "King" from W. M. Armstrong, general manager, Canadian National Telegraphs, with messengerette Helen Ruthven acting as aide.

STATESMAN SMUTS

Vandyke-Bearded, warrior-statesman Jan Christian Smuts, one of the major participants in drafting the League of Nations Covenant, is expected to take a leading part in planning international cooperation for lasting peace at the Security Conference.

Smuts

The 75-year-old General who fought the British in the Boer War, then helped found the South African Union, is now a powerful spokesman for the British Dominions which want the right to act as separate states.

Though he helped to organize victory in the first World War, Smuts protested that the Versailles peace would cause another war. His argument—then, as now—that the government of the world cannot be ruled by a military machine, but by principles of equity, justice, fairness and equality.

Born in the backveld, the future Prime Minister of the South African Republic didn't learn to read until he was 12. He studied law at Cambridge and became a not too successful lawyer. He hit his stride as a man of action.

He organized the RAF during the last war and helped plan London's air defenses. After several years in semi-retirement, Smuts again became Prime Minister of Union of South Africa in 1939 and quickly organized his country's resources and defenses for war against the Axis.

Of 11,900 locomotives in France before the war, only 5,000-odd were said to be still serviceable at the beginning of 1945.

N. Y. Plans Biggest Airport In World

New York will have the biggest and it may be the model for those airport in the world after the war, of the future. Describing the plans or Idlewild Airport, Fortune Magazine says that the foresight of Major LaGuardia will make New York as great a port for aviation as it is for ships. On a wheel pattern, with twelve great runways leading out from the loading platform hub in the centre, it will be possible to handle 360 takeoffs and landings every hour, with some 30,00 passengers going through every day, almost a thousand of them to foreign countries.

A new glass for plane pilots removes blinding glare and invisible light rays.
