THE ASTONISHER

(Official paper of the Pupils of Flesherton High School)
EMMA MEADS, Editor

GRADE IX

Harvey Atkinson is doing very well at keeping up the morale of first form since Campbell left.

We notice that Jack Milne goes back into Spark's a lot hunting for red-headed ground hogs.

Bob Turney and Irene seem to have been keeping the moss off the streets in a certain direction lately.

First Form can at least walk up and down stairs more freely now since all the girls in Fifth Form have left.

Eleanor Proctor, our mascot is being left out by Jim since he went to Toronto to see those Indian girls.

We notice that Bob Long and Ruth are not seen so much together lately. Is the old flame burnt out Bob?

Miss Beatty claimed on May 29 that we were the nicest class in the school.

GRADE X

David does a lot of arguing in classes, but where does it get him?

Jim had better get the brakes fixed on his bike or the foundation of the school will be all chipped away.

Shirley better get her glasses fixed or she will find she has Markdale and Dornoch mixed up.

Teacher — "Laurie, what is your idea of civilization?"

Laurie — "I think it is a good idea. Somebody ought to start it."

Watch out there Blanche or Evelyn might be your rival.

Don Banks seems to keep us all laughing in his French class. Do you think he is really deaf?

I wonder why Barbara flunked in that short Science test. Do you suppose it was because blondie did not help her study.

GRADE XI

"The Quizz Kids"

Mabel Chard is keeping up the army morale. It is not Tom, Dick and Harry, but Bud, Gord and Bob.

Nancy MacWilliam looked very pleased on Friday, May 25, because a certain young school teacher was here renewing old acquaintances. Be careful Barbara you may be treading on dangerous ground. What do you think Marie?

LOST Two white buttons off a pinafore. Finder please return to Joyce Gence. Generous reward.

Janette Hass is going to be a farmerette this summer. Good luck.

Betty is nearly "tuckered" out from trying to keep up with that heman, Arthur Proctor.

Those extra books seem to come in handy Donald, don't they? Especailly if it's Latin.

The Spark's and Louck's must have all their farm work finished due to the help they have. Lois and Verna are such hard workers!!!!

We wonder if Wes Lawler ever takes time off to solve a few Algebra problems when he's farming.

Marge Martin prefers riding in the 1941 Ford cars. She says it is better than walking.

Leona Kirkpatrick made good use of the holiday, May 25th as she took some walking exercises (Eugenia to Kimberley). Don't you wish we had more holidays Leona?

Eleanor Williams has got her hair all fixed up. She must be expecting company. We wonder who?

GRADE XII

Marie sat up till 11 o'clock Tuesday night. I guess her boy friend got cold feet.

I guess there must be attractions in other places now there are only six in the form.

Burt is improving in his Algebra. He got high praise today from Mrs. Goheen.

Doug still hasn't found out who that red-head is in 1st Form. Frances won't you tell him.

Evelyn doesn't look around so much now. I guess her dream boy Bobby (Frankie) has left.

But all in all I think we still are the best form in the school, three girls and three boys.

Cream Service

WE ARE ENDEAVORING TO GIVE YOU A CREAM SERVICE WHICH CANNOT BE EXCELLED ANYWHERE
SELL OFF YOUR OLD HENS

We find that we must have more time in handling the cream in order to avoid congestion on open nights, especially Saturday nights. We must stop testing cream at 10 p.m. on open nights in order to be able to pasteurize and cool

We are taking the liberty of asking our patrons who want to deliver their cream on open nights to co-operate with us and rry to deliver their cream earlier, as we must get our testing done before 10 p.m. Your co-operation would be appreciated.

Cream deliveries exceed those of last year, and more and more cream patrons realize they are benefitting from the CENTS EXTRA paid for DELIVERED CREAM.
the cream.

SELL OFF YOUR OLD HENS

Now that egg production is falling off, you will be wise to sell your hens and make room for your new flock. We are paying highest prices for Live and Dressed Poultry.

PEERLESS PETE represents a drop of Peerless Motor Oil. His adventures—as seen by our artist—will take Pete all the way from the time when B-A specially selected him from their own wells, through the famous 5-point Clarkson process, up to where alloyed against wear, he does a better job in your car, truck or tractor! Watch for more adventures of Peerless Pete!

1. PETE SWEATS IT OUT

High Vacuum Distillation . . . removes all asphalt, "heart cuts" oil into different S.A.E. grades giving easier starting in cold weather lower oil consumption in hot weather!

2. PETE GETS A SHOWER

Furfural Treating scrubs and washes out carbon fractions useless for lubrication. It is chiefly in this process that B-A Peerless Motor Oil gets its unusually high V.I. (Viscosity Index).

3. PETE GETS CHILLED

M.E.K. De-Waxing, at sub-zero temperatures. This removes all the wax, which in our Canadian climate, may adversely affect the "pour point" of lubricating oil in cold weather.

4. PETE GETS A BEAUTY BATH

Catalytic Clay Filtering removes the last remaining vestige of impurities which might cause engine failure . . . gives Peerless Motor Oil its brilliant, sparkling, amber colour.

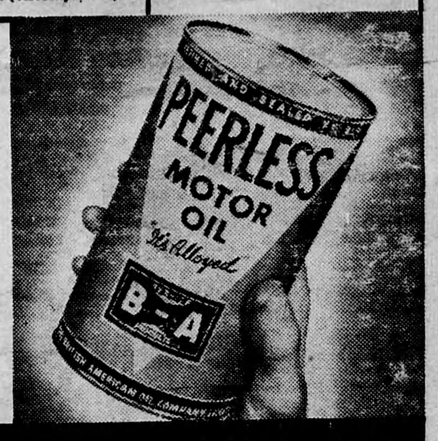
5. PETE GETS A NEW SUIT

"Alloying" protects the molecules of Peerless against lubricating oil's natural tendency to oxidize forming harmful deposits in the engine of your car—protects against wear!

SUMMER DRIVING TOUGH ON OIL

In the summer you drive longer distances more often . . . put more strain on the lubricating oil in your car's engine. It will pay you this year to switch to Peerless Motor Oil! "It's Alloyed" against the effect of heat. Drive in to the sign of the big B-A and ask for Peerless Motor Oil!

"It's Alloyed!"



THE BRITISH AMERICAN OIL COMPANY LIMITED

KIMBERLEY

L.A.C. Glen Jenkins and Mrs. Jenkins were guests of Mr. and Mrs. Jas. Kirkpatrick on Sunday. Mr. Jenkins was a former teacher in Kimberley school and his many friends were glad to see him back.

Guy Fawcett visited over the week end with his uncle, Willie Fawcett.

Mr. and Mrs. Russell Graham and Mr. and Mrs. Ed Graham visited Mr. and Mrs. D. A. Graham on Sunday.

L.A.C. Jack Graham is home on a visit with his parents, Mr. and Mrs. Chas. Graham.

Pte. Ted Weber of Camp Borden spent the week end at his home.

Mr. D. L. Weber and Reg Fawcett are doing fine work with their new bulldozer.

Arrangements have been completed to supply the United States government in 1945 with a quantity of Canadian frozen dressed poultry up to 30,000,000 pounds.

SUGAR RATION CUT

Bringing the per capita allowance of Great Britain, the United States and Canada to the same level, the sugar ration for this country has been cut for civilian consumers. Armed Forces, jam and wine manufacturers, bakers, biscuit and breakfast cereal manufacturers, soft drink manufacturers and quota users such as restaraunts and hotels. The Canadian consumer ration will be cut five pounds with the first reduction of one pound in June. A similar reduction will be made in July and August. The September allowance will be two pounds, one pound will be taken from the October and December allowances and the November ration will remain at two pounds.

The home canning allotment of 20 preserves coupons will be left intact and the two regular perserves coupons will continue to be valid each month. The interchangeable use of preserve coupons will continue to be permitted. According to ration officials this procedure has been useful in providing a fair balance between rural and urban communities. Oftentimes the rural housewife does not have commercial preserves available to the same extent as in urban communities. When this is the case the rural housewife is free to exchange her preserves coupons for a supply of sugar enabling her to increase her home canning products.

THE BOYS AT SEA

The allies, mostly through naval ships and merchant ships at sea, have sunk no less than 600 German submarines carrying crews totalling 20,000 men. To the everlasting glory of the Canadian Navy which sprang from the stature of a child to that of a full-grown man in a few short years we can always remember with pride that it had a goodly share in bring about toll of U-boats and a mightier share in safety convoying scores of millions of tons of supplies to the Allied forces all over the world. The men of our Navy have still a dangerous cleaning-up job to do and our merchant seamen, of course, will be as busy in peace (for a long time anyway-carrying supplies to starved Europe) as they were in War.

Because of a feed shortage brought on by the drought, people in Australia will be lucky to get one egg a week next winter, according to a Sydney despatch.

John Bracken says —

"It is not foreordained that farmers shall work for less pay than anybody else; or have their children receive only one-quarter the chance of a secondary education, or one-tenth the chance of a university education that other children get; or see their wives forced into lives of toil, often 12 but sometimes 14 hours a day — Sundays and holidays included . . . The trouble is that no one with the necessary authority has determined to correct the basic economic ills of Agriculture."

BRACKEN WILL ABOLISH INJUSTICE TO FARMERS

John Bracken, the farmer, is not content, merely to point out the injustices of which he, and every other farmer, is only too well aware. He is determined to abolish these economic ills, these injustices, immediately and permanently. John Bracken guarantees definite PROTECTION FOR FARMERS against income collapse and wide extremes of income fluctuation:

- The Farmer shall be guaranteed a just and proportionate share of the nation's income.
- This will be done by a system of fair prices to be announced before the season of production. The farmer will then carry on with the assurance that he will receive a just share of the national income. He will thus have money to buy farm implements and provide for comforts. His own living standard will be permanently raised and he will be able to contribute to community welfare.
- We shall re-establish a Natural Products Marketing Act.
- We shall appoint a Board of Livestock Commissioners in which shall be vested power to regulate and direct all aspects of livestock marketing in somewhat the same manner as the Board of Grain Commissioners regulates the handling of wheat.

These are only the highlights of the Bracken Party's pledge to Canadian farmers. Join John Bracken in his fight for farmers' rights.
