Wise Choice

OF BUSY HOUSEWIVES

For meals-in-a-hurry at any time of day—breakfast, lunch, between-meal snacks—clever housewives rely on Kellogg's ready-to-eat cereals. They're ready to serve in 30 seconds . . . need no mixing or cooking. Easy to digest. Economical, too!

Nazi Atom Bomb Nearly Completed

Germany was within five months of completing her own atom bomb when the European war ended.

A British task force four months ago discovered that German scientists almost had completed work on the bomb in a two-room laboratory in the heart of a small silk factory north of Hannover.

The bomb, it was calculated would wipe out everything within a radius of six miles.

A famous German research scientist in charge of the experiments was flown immediately to Britain at the time. He estimated his work would have been completed by October.

He said the German Government had given him unlimited funds and equipment and had not demanded any immediate results.

Food and Clothing Arrive In Norway

Supplies of food and clothing are arriving in Norway each week according to "News of Norway." On July 6, a dusty caravan of 29 Swiss trucks, heavily loaded with food, medicine, shoes, and clothing, rumbled through Oslo's streets. Nine days out of Basel, the trucks carried 300 tons of supplies valued at three million Swiss francs, and had passed through Germany, Denmark, and Sweden on their way to Norway. Trucks and drivers of the Swiss Relief Convoy received a joyous welcome in Oslo.

In 50 B.C., the firing of damp straw to smoke out enemy positions was common.

Public interest in the post-war possibilities of the Trans-Atlantic service operated by Trans-Canada Air Lines continues to grow. The number of requests for passage has increased to over 1,000.

RECTAL SORENESS AND

PILE TORTURE

QUICKLY RELIEVED

If you are troubled with itching piles or rectal soreness, do not delay treatment and run the risk of letting this condition become chronic. Any itching or soreness or painful passage of stool is nature's warning and proper treatment should be secured at once.

For this purpose get a package of Hem-Roid from any druggist and use as directed. This formula which is used internally is a small, easy to take tablet, will quickly relieve the itching and soreness and aid in healing the sore tender spots. Hem-Roid is pleasant to use, is highly recommended and it seems the height of folly for any one to risk a painful and chronic pile condition when such a fine remedy may be had at such a small cost.

If you try Hem-Roid and are not entirely pleased with the results, your druggist will gladly return your money.

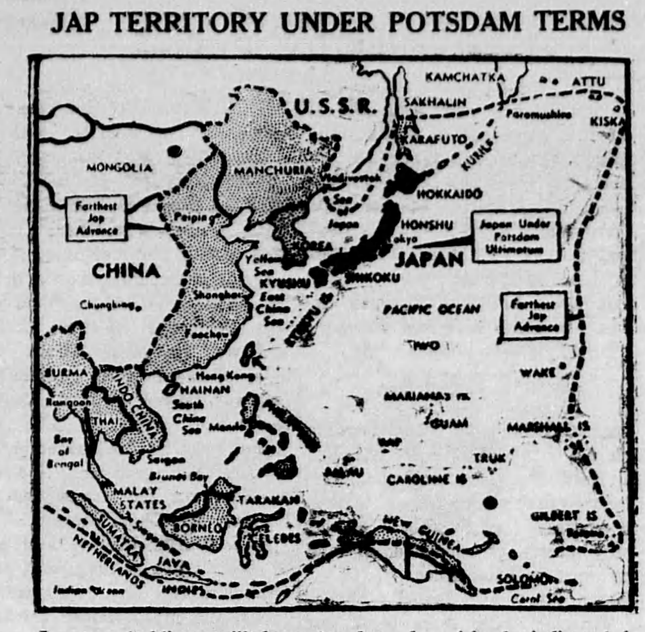
JAP TERRITORY UNDER POTSDAM TERMS



Japanese holdings will be reduced to four islands indicated in black, under terms of the Potsdam Conference, which Japan has agreed to accept. Dotted lines indicate greatest extent of Jap conquests.

The Potsdam declaration contains the following terms:

1. Elimination "for all time" of the authority and influence of those who led Japan into her career of conquest.

2. Occupation of points in Japanese territory to be designated by the Allies until a "new order of peace and security" in the world is assured.

3. Limitation of Japanese sovereignty to the main Japanese islands of Honshu, Hokkaido, Kyushu, Shikoku, and a few minor islands.

4. Carrying out the terms of the Cairo Declaration which would strip Japan of all its conquests.

5. Complete disarmament of Japanese armed forces.

6. No enslavement of the Japanese nation.

7. Stern justice for war criminals.

8. Removal by the Japanese Government of all obstacles to a revival of democracy, freedom of speech, religion, and thought.

9. Permission for Japan to retain such industries as will sustain its economy and permit reparations in kind.

10. Access for Japan to raw materials and world trade.

11. A promise to withdraw occupying Allied forces when Japan has established a peacefully inclined government "in accordance with the freely expressed will of the Japanese people."

Britain Had No Civilian Population

It is an error to refer to the civilian population of Great Britain, says the Windsor Star.

Everyone in the United Kingdom and Northern Ireland was engaged in some war work, war task or in uniform. None was a civilian in the true sense of the word. All were fighting or working for victory.

Insects have killed more men than all the wars in history put together. Alexander the Great died at the height of his career from a mosquito bite.

5,721 Allied Airmen Rescued from Seas

A total of 5,721 Allied airmen owe their lives to the gallant crews of the launches and planes of the British Air-Sea Rescue Service who picked them out of the water near Britain often under the noses of the Germans, the Air Ministry announced last week.

Overseas units of the service rescued at least 3,200 airmen and in areas other than the seas around Great Britain, 4,665 soldiers, sailors and civilians were saved.

At the time of the Battle of Britain the Air-Sea Rescue Service was a small, improvised and improvising body, but in time it developed into the highly specialized organization which sent out 136 R.A.F. craft, 60 United States coastal cutters and a large number of naval craft to play their part when the great D-Day fleet sailed for France.

One of its pilots touching down on the Island of Lampedusa in the Mediterranean during a heavy air raid, was just in time to receive the surrender of the Italian garrison in the invasion of 1943.

Dutch Royal Family Reunited In Holland

Princess Julianna of the Netherlands and her three daughters, arrived in Holland recently and were met by Prince Bernhard for the first reunion of the royal family on native soil in five years.

Princess Julianna has reported at the food distribution office at Baarn, adjacent to Soestdijk where she will make her home with her family, to obtain new identity cards — necessary for the issuance of food cards — for all members of her family, according to the Netherlands Government Information Bureau.

"I want to live with my husband and my children under the food rationing system as all other Dutchmen do," the Princess told food officials. "We want to live under normal rations as they are distributed by the food distributing service."

Have You Heard?

Husband: "You don't seem to care for that sport jacket I ordered for your birthday. Remember, I asked if you preferred small or large checks."

Wife: "Yes, but how did I know you were talking about clothes?"

—o—

"Is this the pugilist who was run into by a motorist?" asked the house surgeon.

"No; he's the motorist who ran into the pugilist."

—o—

Housewife: Just look at the dust on the piano, Beulah. It's at least six weeks old.

Maid: Then it don't have nothin' to do with me, ma'am—I've only been here four weeks.

—o—

Mrs. Newlywed: "Guess what I've cooked for your dinner."

Mr. Newlywed: I'll try. Let me see it."

—o—

Smith: "So you're setting your boy up in the bakery business?"

Jones: "Yes; he's so keen on dough and such a swell loafer that I'm sure he'll rise in the business."

Lesson In Democracy

A lesson to the whole world in the blessings, practices and freedoms of democracy was to be seen in the fact that Prime Minister Churchill took the leader of the Opposition Labor party, Clement Attlee, with him to the Potsdam conferences, so that he would be better fitted to take over if the election went as it did. It was democracy working at its excellent best.
