Mr. and Mrs. Lewis Pedlar wish to announce the engagement of their youngest daughter, Laura Marjory, to Mr. Lloyd Sewell, son of Mr. and Mrs. Ben Sewell, Markdale, the wedding to take place early in October.

England didn't use the ballot system of casting votes until the year 1872.

NEW MANAGER OVERSEES LOCAL BELL OFFICE

Due to Walkerton's growing importance as a telephone centre, E. J. Galbraith, of Toronto, has been appointed the first full-time Bell Telephone manager at Walkerton, it was announced Tuesday. He will assume his new duties on October 1. The company's business offices at Cargill, Durham, Hanover, Chesley, Flesherton and Markdale will also be under Mr. Galbraith's supervision.

Born in Stratford, and educated in the public schools and collegiate there, Mr. Galbraith entered Bell Telephone service at Stratford on August 1, 1927. Since that time he has gained a wide experience in all phases of telephone work, having held positions in Kitchener, Hamilton, Woodstock, Windsor, Sarnia, and London. In December, 1944, Mr. Galbraith was transferred to the staff of the western division manager in the same capacity, the position he held until his present appointment.

Grey County Farmers Want Orderly Marketing

A joint meeting of the Executives of Grey County Federation of Agriculture, Grey Cohnty Hog Producers Association and the Grey County Beef Producers was held in the office of Grey County Department of Agriculture at Markdale on Sept. 19.

The purpose of this meeting was to study he market situation and to offer suggestions that would remove the surplus cattle from the stock yards, and to keep the daily hold-over of stock at a minimum amount. After debating the question from every angle, the following resolution was then presented and unanimously passed:

"That whereas the daily glut in the stockyards depress the farmers market for his cattle and whereas,

"We believe that if rationing of meat is necessary, we, the farmers of Grey County, feel that there should be some way of keeping the stock yards from becoming glutted and resolve,

"That this meeting go on record as favoring Government action in clearing the markets of surplus cattle at all times without delay and that some permanent agency be established, whose purpose will be to keep the markets clear and not depress prices, and further,

"That until such agency operates, we are opposed to the present system of meat rationing."

The meeting also went on record of unanimously endorsing Clause 1 in requests made by the Ontario Executive of the Federation of Agriculture and the Ontario Beef and Hog Producers Association namely:

"That full information as to direct shipments of livestock to packing plants, as well as public yards, be published and made available daily by radio and press to producers simultaneously, because it is felt the producer is entitled to know the totals of recepts at packing plants."

What Can You Spare That They Can Wear?

A soldier overeas writes home and says "In every town we go through the condition of people's clothing is pathetic. If the folks at home want to do a really good deed, I'd suggest a big drive to gather up all the used clothing possible and rush it over here."

That is why the Canadian Allied United Relief Fund, on behalf of UNRA, has sponsored National Clothing Collection. The purpose of this collection is to secure every available used, but serviceable, article of clothing, footwear or bed clothes that can be spared for free distribution to the millions suffering from exposure in Yugoslavia, Russia, Poland, Norway, The Netherlands, Greece, Denmark, Czechoslavakia, Luxembourg, France and Belgium. In the liberated countries of Europe alone more than 125 million people are in need. Thirty million of these are babies and little children. Remember what the soldier overseas wrote "If you want to do a really good deed, bundle up all the used clothing possible". Please do it today.

Used clothing may be left in the town hall, Flesherton each Wednesday or Saturday afternoon or evening any time from October 1st to 20th. The collecting is being sponsored by the Women's Institute.

Heavy Rains Delay Harvest

During the past couple weeks rain has been falling almost every day and many of the farmers still have considerable grain in stook in their fields. Reports show that much the grain cut some time ago is growing in the fields and will be unfit for feed. Information given The Advance is that one farmer still has 75 acres in the fields, while another has about 25 loads out. Others have several fields yet to bring in. The late planting season and the continuous rains recently have delayed the farmers in their harvesting. This is the latest the harvesting has stretched into the fall season in this area for many years.

THE *Electric* METER
Is for Your Protection

EVEN though your Hydro makes electricity available to you in Ontario at a very low cost, it is important that you pay only for the amount of power that you actually use. The electric meter on duty in your home, is your protection against paying for more than you consume.

Every one of some 800,000 meters in Ontario is tested and certified by a Dominion Government inspector at regular intervals to assure complete accuracy. Electric meters are among the finest of jewelled precision instruments . . . as constantly true as the finest watch.

For your protection, Hydro installs a separate meter, exclusively for your own household. Having a meter of your own is the only possible way to be sure that you only pay for the electricity which *you* use. Imagine buying food from a merchant who weighs several people's orders at the same time, and splits the cost evenly regardless of the size of the orders! You want your order weighed individually when you buy food. When you use electricity *your* meter assures accurate individual measurement.

Low cost Hydro service in Ontario offers amazing comforts and conveniences. For your protection . . . so that you will pay for only the amount of Hydro you actually use, a Government Inspected Meter is installed for your own household exclusively.
