United Church Notes

Next Sunday, October 7th, at eleven o'clock, a combined Thanksgiving and World Communion service will be held at St. John's United Church.

World Communion Sunday is one of many encouraging signs of the growing recognition that the things Protestant Churches hold in common are of more importance than those they hold in isolation. As the sun circled the globe next Sunday, it will witness in the Northern and Southern hemispheres, in the five continents and in the islands of the Sea, gatherings of black, brown, yellow and white peoples to make reverent commemoration of the death of the Saviour and Lord of the whole earth.

United Church members are reminded of the collection of clothing being made in the first three weeks of this month for th destitute people of war-ravaged Europe. Let it be brought in as speedily as possible, to the Town Hall, on Wednesday and Saturday afternoons and evenings. Every kind of cast-off clothing, if it be not soiled and unduly patched is of service, and also boots, shoes and bedding, for men, women children and babies. What we do not need this winter will be of the greatest value there.

Anniversary Services will be held next Sunday afternoon in Inistioge United Church. The preachers will be Dr. Andrew Thomson in the afternoon and Rev. J. H. Dean in the evening. The afternoon service is at 2:00 o'clock and the evening at 7.30.

St. Andrew's Church Notes

MARKED GASOLINE

1. On and after October 1, 1945, gasoline will no longer be marked for special uses.
2. Marking of gasoline for special uses under the jurisdiction of the Oil Controller for Canada having been discontinued, the tax exemption purchase permit system is thereby ended.
3. Farmers, fishermen, guides and tourist outfitters will be entitled to claim refund of the Provincial Gasoline Tax where applicable. Claims, accompanied by receipted invoices, must be submitted to the Gasoline Tax Branch, Department of Highways, Parliament Buildings, Toronto within six months from date of payment of invoices.
4. A simplified method of assuring prompt payment of refunds, eliminating affidavits for each claim, has been worked out.

As there is no rationing of gasoline in Canada, marked gasoline, under the jurisdiction of the Oil Controller for Canada, has been eliminated, thereby ending the tax exemption purchase permit system.

To meet the desire of everyone to be relieved of wartime restrictions, the Provincial Government has developed a new system as free from controls and difficulties as possible. A simplified refund form has been prepared which eliminates the necessity of an affidavit being taken for each refund claim. This form may be obtained on application to the Gasoline Tax Branch, Department of Highways, Toronto, Ontario.

- The ending of marked gasoline sale removes difficulties made necessary by this wartime control.
- Complaints were made that marked gasoline was detrimental to the equipment in which it was being used.
- Records and reports necessary under the marked gasoline system will no longer be required.
- Extra storage facilities will be unnecessary for the separate storage of graded and marked gasoline with consequent saving to the consumer.
