## Half Million Mark Reached By Hospital Care Plan

More than half a million people in Ontario are now enrolled in the blue Cross Plan for Hospital Care, according to an announcement issued today by C. J. Decker, Chairman of the Board of administration. Mr. Decker is superintendent of the Toronto General Hospital and was President of the Ontario Hospital Association when the Plan was inaugurated four years ago.

The hospital plan was organized as a non-profit service in the public interest by the Ontario Hospital Association with the approval and cooperation of the Ontario Department of Health, with rates and benefits approved by the Minister of Health for Ontario. The plan is Province-wide in its scope and by means of co-operative effort and group enrolment on a non-profit basis has enabled thousands of wage earners to remove the fear of unexpected hospital bills for themselves and their families.

Achievement of the enrolment of more than 500,000 persons in Plan for Hospital Care, through employment groups or special groups such as professional associations, became a fact in October of this year. The enrolment now represents more than a seventh of the total population of the Province.

"The significance of this achievement cannot help but be obvious when assessed in terms of prompt and thorough hospital care for thousands of people throughout the Province who have been saved needless financial worries usually attendant on unexpected hospitalization," Mr. Decker stated. "The established fact that half a million people in Ontario, through enrolment in this non-profit plan are eligible for benefits under Plan for Hospital Care is important, firstly, in security, health and happiness of all these people, and secondly as a powerful reinforcement to the hospitals whose sole aim is to serve," Mr. Decker added.

An impressive proportion of the annual total of hospital bills is paid promptly on release of enrolled patients from the hospital, by Plan for Hospital Care and this has meant the payment of more than three and a half million dollars in hospital charges for benefits received by the subscribers since the inauguration of Plan for Hospital Care four years ago.
