Simplified Spelling

Too many wurds in the Inglish langwige are spelled diffruntly from the way they are pronownsed. There hav bin sum faint-harted attemps to improov the situayshun but thay don't get very far. It isn't only the spelling, it's also the way wurds are uzed. If you say freez and froz, why shuldn't you say skweez and skwoz? And if it's mowse and mise why not say hows and hise? A wurd such as "cough" reely ort to be spelled koff, and if ther's enything to the ideer that usage gives athoraty, then "government" should long have becum guvvermunt. Speeking in genral turms, we ar in fayvor of a spelling sistem that maches the ufontistic elements of our muther tung.—Wall Street Journal.
