LINTON — In memory of James Linton, who died January 26, 1945, in his 81st year.

With tears we watched you sinking,

We watched beside your bedside
As the lonely hours passed,
And how our hearts were broken
When we saw you breathe your last.

— Sadly missed by Wife and Family.

ENTIRE FAMILP DIES IN HOME BY FIRE

Mr. and Mrs. Cecil Foster of Holland Township and their three children Marie, aged 8, Betty, aged 5, and Gordon, aged five months, were burned to death Thursday night of last week when their home, four and a half miles east of Berkeley, was burned to the ground, cause of the fire being given as overheated stove When neighbors arrived to give assistance, the whole house was a mass of flames and nothing could be done.

Cecil Foster was 31 years of age and was a son of Mr. and Mrs. Wesley Foster of Artemesia. He had married Cora Amelia Matthews, daughter of Mr. and Mrs. Jas. Matthews of Rocklyn, formerly of the Holstein district. They had farmed for a time at Vandeleur and in 1942 moved to the farm where the tragedy occurred.

The funeral was held on Monday afternoon in Annesley United Church at Markdale, when a large number of sympathizing friends gathered. The charred remains of the family of five were carried in the one casket. Much sympathy is extended to the families of both thte late Mr. and Mrs. Foster in the tragedy which befell their loved ones.

Coroner Dr. Carefoot of Markdale investigated and County Crown Attorney C. C. Middlebro of Owen Sound decided an inquest was not necessary.

Large Transport Struck Building Evading Fatality

A local citizen had a close call from death Monday evening as he was crossing the street just south of the main intersection, when a Cope transport suddenly appeared over the hill, travelling south. He did not hear or see the approaching vehicle. The driver of the large truck had presence of mind to head the truck for the side of the road, when he did not know which way the pedestrian would move. It struck the snow bank in front of the furniture store and the trailer shoved the tractor into the doorway of the Richards store, shoving open the door and breaking the brickwork to quite an extent. The truck was able to proceed to Toronto and was apparently undamaged. The driver of this truck is an exceptionally good one and has driven commercially for 15 years without an accident and we hope that this will not be held against him, as he showed real presence of mind in a difficult situation.

While it is said that the driver of this truck was not travelling at any great speed, as he was intending to stop in the village, we have seen some of these large vehicels pass the intersection of the two highways at a tremendous speed, which is dangerous for either pedestrian or vehicular traffic. A curb should be put on the speed artists travelling through the village.

WAR ASSETS GOOD JOB

The news stories from time to time of the amounts of money being taken in by War Assets Corporation for the sale of excess war materials is not an adequate indiction of the fine job being done by this body.

A better indication would be twofold in different directions. First, and least important, would be the manner in which the disposal of military consumer goods to the general public is helping to tide over the shortages of familar peacetime supplies which the average Canadian buyer requires. Second, and most important, is the manner in which the disposal of military and war-industry capital equipment is helping to provide new jobs.

This second facet of War Assets Corporation activities is so important it should be much more publicized. Literally thousands of new jobs are being made available by getting buidings, presses, lathes, drills, cutters, boilers, engines and scores of other machine tools and similar equipment into the hands of industry where they can turn out civilian supplies.

It should be further publicized that the work of Canada's War Assets Corporation is progressing so well the United States Government at this very moment has experts in Ottawa who are examining the techniques used by Canada's disposers of excess war materials, so that those techniques may be copied or adapted to help the American disposers of excess war equipment do as good a job as Canada is doing.

This is another feather in the cap worn by Canada.

Completed Erection Of Poles For New Hydro Lines

The Hydro-Electric Power Commission is taking away the high-tension pole line through Flesherton and is taking the poles sereC routing the line across fields from the eastern outskirts of town and along the street past the high school, while a separate line has been built from the power house, carrying the line to Dundalk, Shelburne and Orangeville, and joins the present line a mile south of Flesherton. The pole lines have been completed and all is about in readiness for placing cross arms on the poles, insulators and wiring. The absence of the hydro poles along the main street, should make a distinct improvement in the appearance of the streets.

SPRINGHILL FARM FORUM

Springhill Farm Forum met on Monday night, January 21st at the home of Mr. and Mrs. Wm. Johnson with an attendance of 13. The Forum agreed that we do need an international organization of agricultural producers. With an international organization markets and prices could be agreed upon for surplus agricultural products. It would be a medium for dispersing scientific knowledge in production methods and production could be planned to meet world market requirements. Proper distribution of food supplies, planned production and controlled markets would assume a better standard of living in Canada and all around the world. Proper distribution of food supplies and other raw materials would lead to a better international understanding and much of the cause of war would be removed.

The secretary read a report of the last meeting of the Board of Directors of Grey County Federation of Agriculture. There was some discussion in regard to the possibility of holding a short course in Agriculture in Flesherton. The advisability of supporting the Co-Operative Creamery in Owen Sound, also came up.

The Forum decided to have a film showing in the High School on review night, Feb. 25. The program will be announced later. An invitation is being extended to other forums in the township to join Springhill Forum at that time.

The Forum will meet next Monday night at the home of Mr. and Mrs. Ward Harrison, where a hearty welcome awaits all who can come.

At the close of the meeting Misses Leona Johnson and Eunice Allen served lunch.

It's right to pull for a good man but far better to pull with him.
