BAPTIST FIRESIDE
"Smashing all records" describes this best-of-all Cedarside Firesides to date. A technicolor sound film and one hundred feet of moving pictures taken in India by two young ladies who will be present for the service, form a double-feature night. It is expected that Dr. Dorothy Timpany, physician in charge of Pithapuram Hospital and Miss Evelyn Hawn, supervisor of Pithapuram Nurses Training School, will be attired in native Indian saris while interviewed. An all-star musical program will be presented.

Jas. Oliver Wins Slater Trout Fishing Contest

James Oliver of Flesherton was declared winner of Frank Slater's 15th annual speckled trout contest, with a trout that weighed 3 lbs., 3 ounces, which he took in just before the contest closed Monday morning at 10 a.m., and won a fine Munro outboard boat, valued at $108. Mr. Oliver caught the fish at 12:20 Monday morning. Five minutes later he landed a 4 lb. 2 ounce Brown trout. Other winners were E. J. Taylor of Owen Sound, Joe Kropin of Owen Sound, Ted Banks of Flesherton and W. Vessie of Owen Sound, in that order. Ted was winner of a fine hunting coat. It is noteworthy that four of the five winners were taken by the use of minnows, and four of the five were caught at Eugenia. Ken Magee of Eugenia and Don Smith of Rock Mills took third and fourth place in the juvenile section, three of the four winners also being taken from the Hydro lake, and all with worm. Bob Lumley of Owen Sound won the bicycle as prize for first place, his fish also coming from Eugenia.

Never before have we seen so many fishermen in this district as there were over the holiday, every little river being dotted with fishing enthusiasts. The dam at Eugenia and 8th line bridge were lined with people trying to land the "big one."

Besides Mr. Oliver landing the large brown trout, F. J. Thurston also landed one 3 lbs., 3 ounces, this making the fifth brown trout taken at Eugenia. Many other speckled trout were taken up to two pounds, but were not entered into the competition.

OSPREY GIRL WINS $100.00 SCHOLARSHIP

Miss Joan Crawford, daughter of Mr. and Mrs. J. Crawford of Osprey, was winner of a $100 scholarship at the recent Stratford Musical Festival. Playing in two classes, open piano and the Bach Prelude and Fugus classes. Adjudicator Sidney Harrison complimented her as being the only good piano player in the class of six. Joan is 16 years of age and recently passed her history of music with honors and is now preparing for her A.T.C.M.

Christmas Cactus Blooms

(By Vandeleur Reporter)

Andy Clarke, on his broadcast on Sunday morning, made mention of Christmas cactus blooming, and of several reforestation projects whi can be more or less duplicated in this progressive community. Mrs. Howard Graham has a Christmas cactus in full bloom for Easter, and on the Weber and Bowles farms in the Valley can be seen two splendid examples of reforestation. W. A. Weber has several thousand trees in all stages of development which he has been planting for several years. On the Bowles farm is a splendid grove of several acres, which was planted by Angus Bowles about ten years ago, many of which are now over 15 feet in height.

QUADRUPLE LAMBS BORN

An uncommon incident in the animal kingdom and one which is worthy of note occurred on Thursday of last week when a ewe owned by Herman Tegler of Con. 14, Carrick, bore quadruple lambs. The four offspring are all healthy and normal and continue to thrive.—Walkerton Herald-Times.

The Canadian Bank of Commerce has for many years assisted in the development of logging, lumbering and the pulp and paper industry across the Dominion. Its branches, whether in old established communities or in the new town sites, serve the many banking requirements of companies and individuals associated with these industries.

BANKING IN ACTION is manifested in the crash of falling trees; in the rush of logs, as the lumberjacks break the jam and speed the timber on its way; in the scream of saws, as busy mills convert it into planks, beams and scantlings. Logging and lumbering provide work and wages for thousands—in the woods, the mills, the construction industry. The stream of wealth thus flowing across Canada is an example of Banking in Action.

CENTRAL LOCATION

Our convenient location is readily accessible by the city's leading automobile and street car thoroughfares.

Bates and Maddocks
FUNERAL CHAPEL
124 Avenue Rd. KI. 4344

Born

TYSON — At Mrs. Nuhn's Nursing Home, Flesherton, on Tuesday, April 23rd, 1946, to Mr. and Mrs. Stanley Tyson of Feversham, the gift of a daughter, Pearl Eva.

90th Birthday Thursday

Mrs. Wm. Hislop of Eugenia is observing her 90th birthday Thursday of this week, April 25th. Mrs. Hislop is residing at the home of her daughter, Mrs. John Campbell, and is remarkably smart for her advanced years. She assists with the housework, reads the newspapers with the assistance of glasses and in her spare time she knits, sews and makes quilts. Her many friends wish for her many more years of continued good health and usefulness around the home.

CAIRNS — MAGEE

A quiet wedding was solemnized at the United Church Parsonage, Flesherton, on Monday evening, April 8th, when Irva Adeline, only daughter of Mr. and Mrs. Wilfred Magee, Eugenia, was united in marriage to George Douglas Cairns, only son of Mrs. John Cairns of Eugenia, the ceremony being performed by Rev. Dr. A. Thomson.

The bride was charmingly attired in powder blue crepe with brown accessories, and for travelling she wore a mustard colored suit and brown accessories. They were attended by Mr. and Mrs. Laurie Russell, Mrs. Russell also wore a powder blue crepe with black accessories.

The bride and groom left Tuesday morning for Niagara Falls, where they spent a week with the groom's sister, and also visited in Toronto.

UNITED CHURCH TO RAISE $3,050,000

The United Church of Canada has realized for some time that the Minister's Pension Fund is not on a sound financial basiis and unless the capital of the fund is increased greatly the demands will ultimately absorb the capital.

To prevent such a state of affairs the United Church of Canada i conducting a Dominion-wide campaign among its members and adherents to provide the required amount to place the Pension Fund on a sonnd actuarial basis.

The campaign is scheduled for April 29 to May 12 and it is hoped that the canvassers will be well releived and the objertive reached by the one effort, as this will not be a recurring appeal, once the capital of the fund is properly established it will then be self-supporting.

Trout Hatchery Neeeed To Take Care of Growing Demand of Visiting Tourists

The success of fishermen who operated in the Hydro lake at Eugenia again focuses attention of piscatorial atrists throughout Ontario of the wonderful opportunities for their favorite sport in this area. Hundreds of fishermen from many parts of Ontario were here for the opening of the speckled trout season Friday last, and the two Flesherton hotels, the Munshaw House and the Park Hotel, were filled to capacity during the week end and many had cabins and sprivate homes at their disposal.

It is noteworthy that seven of the nine prizes in the Slater Fishing Contest caught their winning entries at the Hydro lake. Many other smaller fish up to two pounds were taken but not entered in the conest.

Every year Eugenia is at the head of the parade, but yet the authorities have not been placing the number of small fish in the lake that its importance requires. This no doubt is due to the fact that there are all too few speckled trout hatcheries to supply the extraordinary demand of the public which goes miles for their sport of fishin~ The fish themselves cannot stock the streams and lakes by natural processes, so help has to be given.

Grey County is about the best speckled trout grounds in Ontario and this district heads the list of large trout caught. Ideal situations for the establishment of a fish hatchery are to be found near Flesherton and this would help supply the mountaing demand for more speckled trout in Grey County. A peition sent to the government by interested partiok might have the desired effect in influencing the Department to place a hatchery here.

Older residents here can remember when our streams were teeming with speckled trout. Then came the advent of the motor car and the inrush of turist fishermen and gradually the number of fish decreased and the number of fishermen increased, and today the speckled trout fishing is one of the greatest tourists attractions in Grey County.

Motorist: "It couldn't possibly have been my fault. I've been driving for 10 years."

Pedestrian: "Well, I've been walking for more than 60 years!"

In the majority of cases

CANCER

CAN BE CURED

The newest precision tube x-ray machine for treating cancer costs $100,000.

1000 Canadians die of cancer every month. Cancer specialists are convinced that the majority of these lives could be saved if proper treatment were given in the early stages of the disease.

That is the aim of the campaign against cancer now being organized in Ontario—to cut down this costly loss of life now being exacted by cancer.

It is proposed to establish cancer clinics at suitable centres throughout the province where all who suspect they may have cancer may be examined, and receive the proper treatment if necessary.

Plans are also under way to pay a portion of the cost of treatment of cancer, as well as travelling expenses, for those needing financial help.

The third objective of the campaign is an energetic program of cancer research in Ontario with the aim of discovering a specific cure for cancer, or for some means of preventing the disease.

Cancer research carried on to date has been entirely inadequate. It is estimated that less than $100,000 is being spent in the whole of Canada on cancer and related subjects.

Cancer can be conquered. If science is able to organize sufficient forces against the scourge of cancer, the solution will sooner or later be found.

Your contribution is needed—to cut down the death rate from cancer now—to carry on the search for a method of ridding the world of this dread disease.

This appeal is for an objective of $2,000,000 to provide for a three-year program of cancer research, treatment and province-wide service.

GIVE TO CONQUER CANCER

ONTARIO CANCER FOUNDATION

This organized drive against cancer is a joint effort of The Ontario Cancer Treatment and Research Foundation and The Canadian Cancer Society.
