Friday evening a party was sponsored by neighbors and friends for Mr. and Mrs. Harvey Hill, who were recently married. Congratulations, Harvey, and best wishes and welcome to your wife.

High School News

(THE ASTONISHER

EDITORIAL

A question engaging the attention of many Artemesia farmers today is, whether or not the type of education offered by the High School is really able to fit their sons or daughters to farm life. Of what use is learning to the man behind the plow? Some will say that it fogs his mind and makes him discontented with his lot. Others will say that it sharpens his wits and makes him the intellectual equal of the shrewd and flashy business men with whom he has to deal. But the signs of the times are telling something else. They are telling us that there is a new trend in Canadian society which is rapidly dividing us into two classes, the learned and the unlearned. It used to be the haves and the have-nots. Now, then, is the time for agriculture to rise to its proper position at the forefront of the nation. Can we think that F. H. S. is the way?

All ympathy is extended to sick students on the Thursday afternoon school stopped.

Now that the roads are open, Gladys sees more of her "wee" man.

We'd like to know how Muriel manages to get wrecked. How is your eye, Muriel?

John Milligan finds it hard to stand up in school. More sleep is advised.

Anybody knowing of a strong pair of braces ,please notify Pat Stauffer

White knew enough to stay away from school when he didn't have his Algebra done.

All knowledge of algebra not needed please return to Ivan Young.

First Form certainly isn't going to have a nice week end, studying for their geography exam on Wednesday. Maybe we'll behave after this, eh!

The brain—Joan Akins— is laying the girls all flat, especially on the man situation.

Margot Ann and Phyllis seem rested up after the holiday. Maybe it was the "fresh air" rides.

School and late nights don't mix for Shaw. That's why he quit school. He'd rather have late nights.

GRADE 11

Frances, these week ends must be hard on you, the way you return to school Monday.

It is convenient for you, isn't it Eric, to have your spares alone with Jean?

Blaine seemed happy after Easter. I wonder if it was "Pop."

We all wish Delores would come out of her shell and reveal the beau.

We can hardly wait until we see Joan in her "bell bottoms," especially when they come from Owen Sound.

It really gets to be a very had thing between Jack and Evelyn when Jack's dog comes and calls for Evelynn to walk to school with her.

Irene really has it bad — besides a letter a day, she gets a letter from his mother for more encouragement.

Frances really means it when she sings "I'll close my eyes to everyone but you.'"

Red heads ares till the pick of part of the Turney family. F Eleanor?

GRADE 12

Shirley is kept quite busy these days with all those history notes and she must keep up her correspondence. People in hospitals must be humored, you know.

Bruce doesn't know what he will do now that Bud is working in Owen Sound. Cheer up, Bruce, maybe he'll bring home something blonde from there.

We wonder who is the artistic carver of Fourth Form. There seems to be a great number of back desks adorned with hearts and initials. I guess it must be Bruce, as girls don't do such things. Or do they?

Irene has decided that variety is the spice of life. Guess what? Her favorite recording is "Stardust" again.

Blanche left us all last week end. One must agree that Shelburne has its attractions.

Barbara loves to untie shoe laces, but she doesn't like tieing them.

GRADE 13

We, Fifth Form, were really astonished the other day. We tried hard to get downstairs, but the steps were coming up. Mr. Clement solved the problem when said "Slide down the banister. So we did. When we safely landed below we looked out the window and saw the road and sidewalk going by. Imagine them being out together in daylight! Mrs. Goheen said "We'll have chemistry in the "lab," but when we reached the door we saw the lab. sink. So we had to go into Mrs. Goheen's class room for chemistry. There was a great noise and we looked out the paned windows. In a farmer's pasture field we saw a bulrush. Further in the pasture we saw a cowslip and a horse fly. Doug. Falconer took ill when he saw the bulrush and Wes Lawler when he saw the horse fly, so the nurse of the class, Betty Tucker, said "We'll give you some tea—bag, or a good fruit punch will help. Doug. and Wes were soon better and Don McLeod ended our misery by leading in prayer.

DID YOU KNOW?

Many people believe the reddish brown color of iodized salt blocks is due to their iodine content. This is not true. Potassium iodide, not iodine, is used for iodizing, and it is as white as salt itself. A harmless red pigment is, therefore, also added during manufacture, so iodized salt blocks may be easily distinguished from plain salt blocks.

WE'LL IRON 'EM OUT

You don't wear patches on your clothes because people would notice them. The same thing is true of dents and scratches on your car. They spoil its appearance and create a poor impression.

But the dents can be "ironed out" and the scratches touched up, so that no one would think they ever existed.

It's worth while to come in for an estimate. Our prices are reasonable and our workmanship is top grade. Bring in the car, we'll tell you all about our BUMPING and PAINTING SERVICE.
