WHERE DOES LIBERTY END AND LIBERTY BEGIN?

An Owen Sound youth, 16 years of age, was fined $10 and costs or ten days, and mostly because he did not have the sense to know when he was in the wrong.

A police officer had gone into one of the city restaurants, at the request of this juvenile's parents, who asked that he be sent home.

The boy became unruly and started whistling. When told to keep quiet, he stated that this was a "free country". He refused to leave the restaurant and a scuffle ensued which is of no particular interest at this point.

What we would like to know is: What is this thing we call liberty, anyway? Does liberty give us the privilege of doing what we like? Some people seem to think it does. It apparently makes no difference if our conduct is obnoxious to other citizens, we must assert our liberty.

Society, in protecting itself, always interferes with the liberty of some person who is not satisfied to disregard the liberty of this same society. According to this way of thinking, the only liberty is that liberty which we ourselves want to enjoy The other fellow doesn't count.

This kind of reasoning is all too common nowadays. If some person takes a notion to run his car up and down the highway in the early hours of the morning, thinks, no doubt to his thinking, the man who wants to sleep would be depriving him of his liberty if he complained.

Seems to bad there are so many people with this kind of mind. We should learn to consider the other fellow's angle. Until then we cannot hope for peace in our land, and until the nations of the world learn this same kind of lesson, it will be a long time before we will be free from our fear of war. — Durham Chronicle.

In Memoriam

ALEXANDER—In loving memory of a dear husband and father, Robt. Alexander, who died April 27, 1936.

They say time heals all sorrow, and
helps us to forget,
But time so far has only proved
How much we miss you yet.
God gave us strength to fight it
And courage to bear the blow,
And what it means to lose you
No one but God can know.
—Ever remembered by Wife and Family.

In Memoriam

THOMPSON — In memory of our dearly loved son and brother, Laurence Howard (Laurie), killed in action in Holland, April 24th, 1945.

We think we see his smiling face
As he bade a last good-bye,
And he left his home forever,
In a distant land to die.
Time changes many things,
But this it changes never,
The memory of those happy days
When we were all together.
—Sadly missed and lovingly remembered by Dad, Mother, Sisters and brothers.

CANADA'S TEXTILE INDUSTRY is not generally regarded as being anything very exciting. It is true that in normal peace-time years textiles led all other industries in employment and wages paid. But that means we are just a part of regular daily living in Canada. It makes us about as exciting as a kitchen table.

DURING THE WAR, Canada's hundreds of textile plants turned out millions of yards of urgently-needed supplies. Today we are working hard to catch up with the heavy and growing civilian demands of the post-war. We provide thousands of jobs to Canadian citizens at new high wage levels. True, these factors do not seem exciting but it is nice to know that we have a place in Canada's way of living. A kitchen table may not be exciting but it is important to the household.
